Subject: [EXTERNAL] Variance for 1321 Simonton Street

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

My name is Laura Fisher and I own a home at 629 United Street #2, Key West. I strongly oppose this variance as it would make an already extremely congested area, even more so. There is little to no parking, residential or not, in my neighborhood. Often times, tourists take the liberty to park in what few residential spots we have. Increased allowance for said property will bleed into precious spots that residents are already scrambling for. I am a retired schoolteacher and have lived here for 45 years. More often than not, I cannot find a spot anywhere near my house. Often times I am reluctant to use my car, for fear of not getting a spot when I return. I am unable to ride a bike due to a bad knee. I ask the city to strongly reject this variance, as it will continue to make parking for those of us who live here a more unbearable situation. Thank you for your consideration.
