

Historic Architectural Review Commission Staff Report for Item 4

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: October 27, 2021

Applicant: William Shepler, Architect

Application Number: H2021-0045

Address: 1108 Grinnell Street

Description of Work:

Reconstruction of open porch on front elevation. Reconfiguration of fenestrations and renovations to house.

Site Facts:

The building under review is a historic frame vernacular house listed as a non-contributing resource. The house was originally depicted in the 1948 Sanborn map as a one-story frame structure with no front porch. The 1962 Sanborn map depicts the house with an enclosed front addition and a two-story addition at the rear. The house has different types of windows, including two-over two wood unit and the fenestrations rhythm has been altered through time. The front of the house has a stucco finish while the rest of the building has masonite horizontal board siding. By looking closer to the south elevation, and more specifically around the existing electrical meter and rafter you can see exposed wood novelty siding which appears to be under the masonite siding. The circa 1965 photo attached to this report depicts the house with wood novelty siding in the north side of the house, and behind the front stucco addition.

The front fencing wall abuts city's right of way and an easement will be required. For this specific application fences are not included as part of the scope.

Ordinance Cited on Review:

- Section 102-217 (3), demolition for contributing and historic structures of the Land Development Regulations.

Staff Analysis:

The Certificate of Appropriateness proposes the demolition of a historic front portion of the house. On September 28, 2021 the Commission approved the first reading for demolition of walls in the front portion of the house. Although the front enclosed addition is not original to the house, it was built more than 50 years ago. The roof of the front part of the house in question will not be demolished.

It is staff's opinion that the request for this demolition should be reviewed based on the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria state the following.

(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:

- (1) *If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that the existing front portion of the house is not compromised by extreme deterioration.

The following is the criteria of section 102-125:

- 1 *Embody no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the structure in question has no aesthetic or historic significance nor it is a distinguishable element within the urban context.

- 2 *Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

It is staff understanding that no significant events have ever happened in the site relevant to local, state, or national history.

- 3 *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

It is staff's determination that the portion of the house in question has no significant value to the development, heritage, or cultural record of the city.

- 4 *Is not the site of a historic event with a significant effect upon society;*

It is staff's understanding that the site is not associated to any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The portion of the house in question do not exemplify any cultural, social, cultural, or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The front portion of the house cannot be considered a fine example of a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The portion of the house in question do not exemplify a remaining architectural type in its neighborhood and does not possess any significant visual features. Other surrounding houses have the same enclose volume at the front, which is not in keeping with the traditional vocabulary find in frame vernacular houses.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The front portion of the house do not yield important information in history.

In conclusion, it is staff's opinion that the request for demolition of the front part of the house can be considered by the Commission as it meets the criteria for demolition stated under the Land Development Regulations. If approved, this will be the second and last reading for the demolition request.

DATE AND PRINT NAME

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Partial demolition of front enclosed porch to create a new 4' deep open entrance porch. Only portions of walls are to be removed, the roof line will remain the same. Removal of all windows at First Floor , and removal of certain wall areas to accommodate new window configuration.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

The building is not a contributing structure.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

N/A

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

No it is not.

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

No it is not.

- (d) Is not the site of a historic event with significant effect upon society.

Not it is not.

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No it does not.

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Not the portion that we are altering

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

N/A

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city and does not exemplify the best remaining architectural type in a neighborhood.

No it does not.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,

Not it has not, no not likely.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

N/A

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

N/A

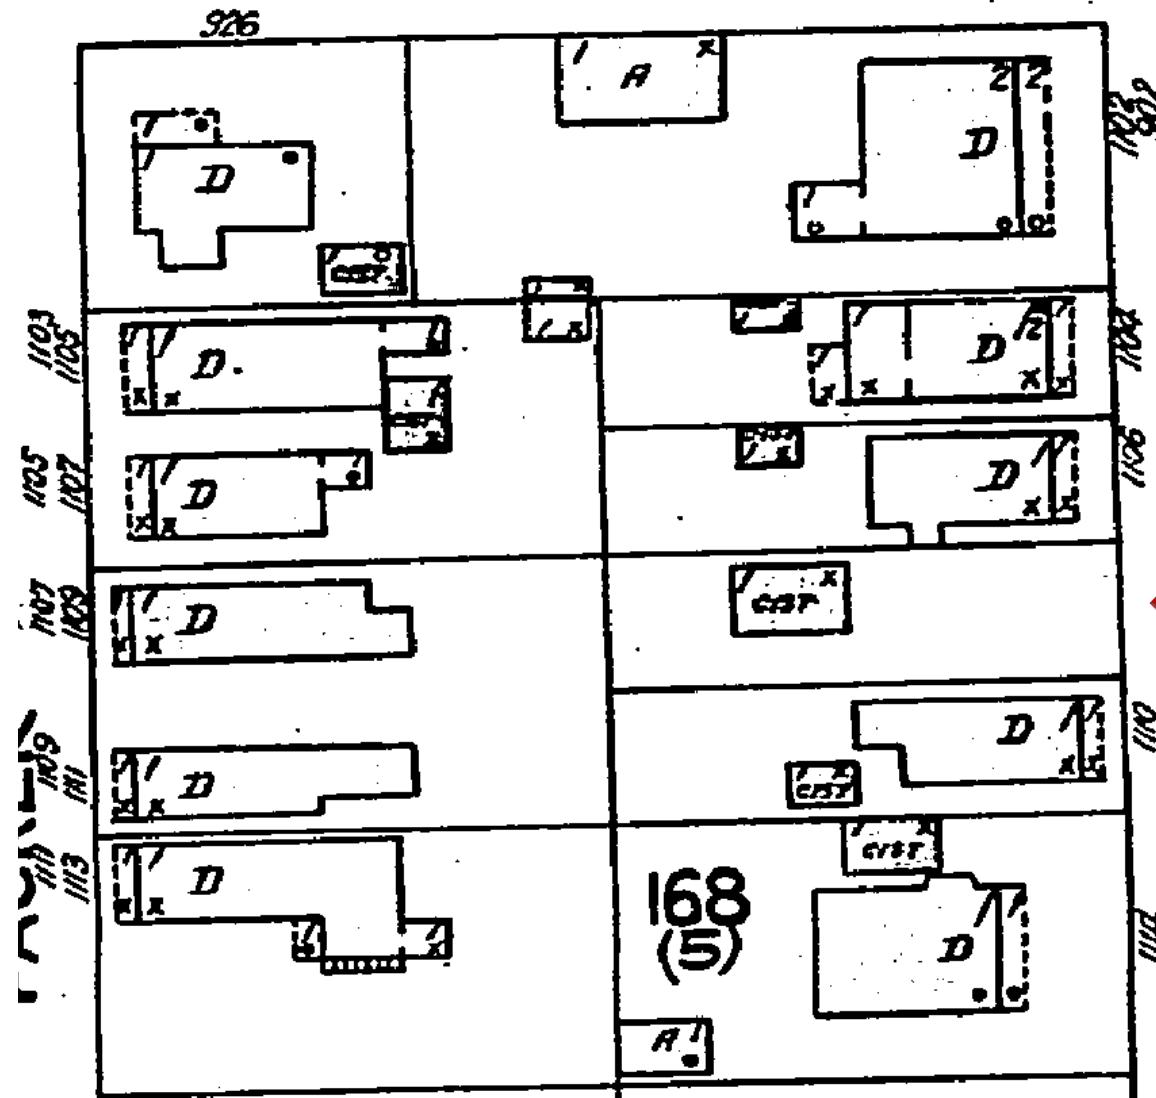

(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

N/A

(4) Removing buildings or structures that would otherwise qualify as contributing.

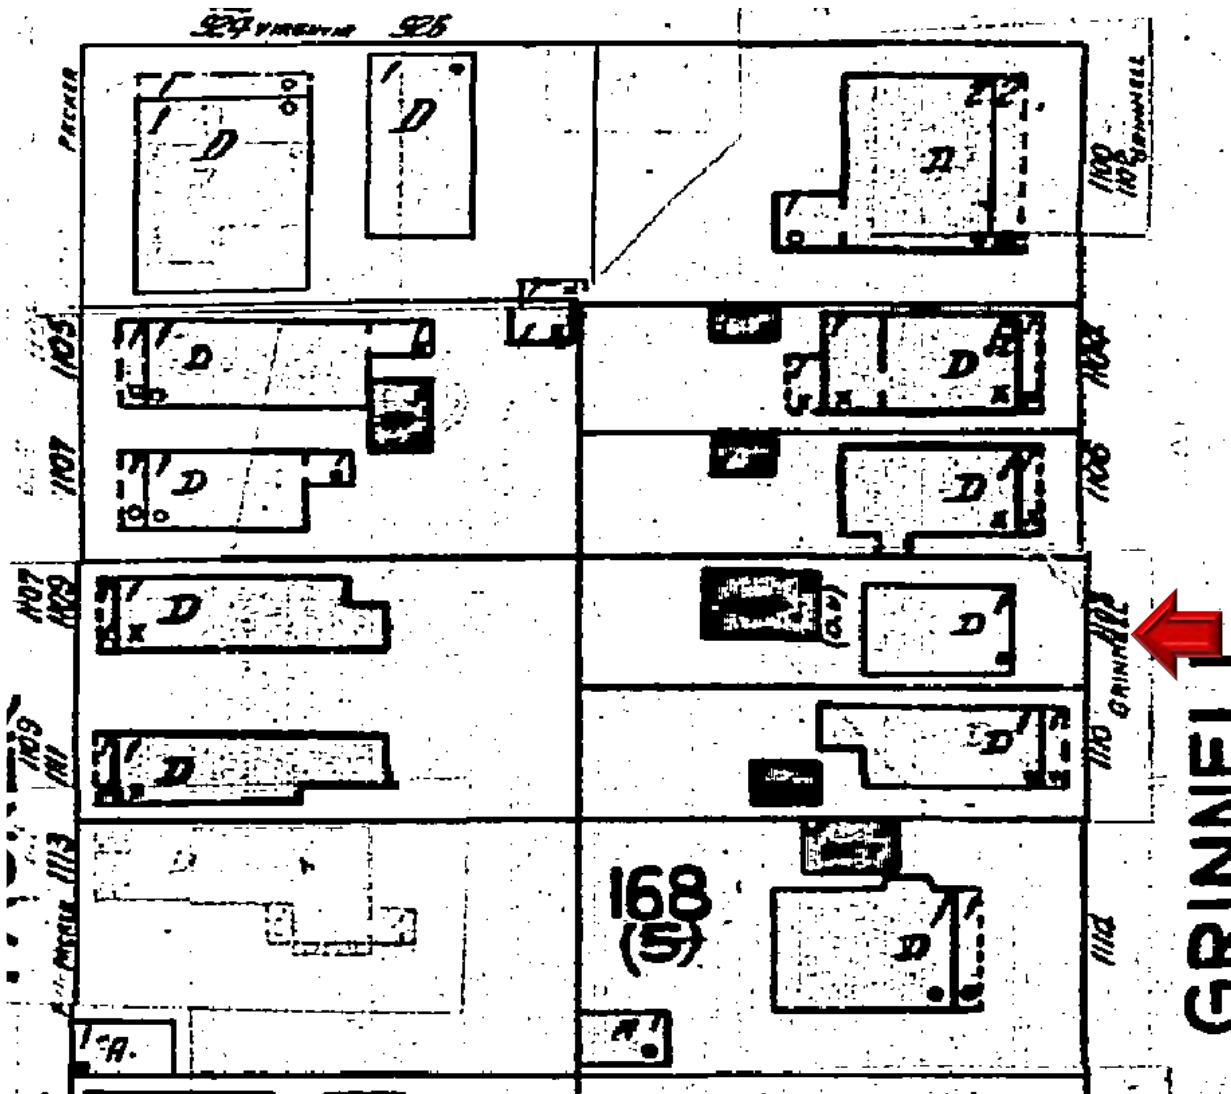

N/A
