

Hi Kevin,

Thank you for your email in support of the project. I will have the comment added to the agenda, and it will be shared with the planning board members.

Best,

*Vanessa Sellers*

**Subject:** Stock Island Cell Project

Dear Vanessa Sellers,

I ran radio stations for 20 years including 104.1 US1 Radio & 98.7 Conch Country for a few years. I understand how important and limited good radio signal access is for the public airwaves. I also worked directly with Mr. Richter on a number of projects. His company always went above and beyond to finish each project cleanly and correctly. He was instrumental in helping us close our Marathon facility so we could transfer operations to big pine. Those facilities now reside on Sugarloaf.

I have friends who work at FKCC and others who work at Lower Keys Medical. Staff at both facilities have commented to me that better cell coverage on Stock Island is needed.

I fully support Rick Richter's tower project at 5610 College Road. The American Legion appreciates the additional income and the public gains a worthwhile service without any visual

nuisance. Our first responders require the best communication to accomplish their missions quickly and effectively. This project is a win, win, win for the Legion, the public, and Stock Island.

Sincerely,

Kevin Redding
