

**Historic Architectural Review Commission
Staff Report for Item 3**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: October 23, 2018

Applicant: Albert Hall IV

Application Number: H18-0005

Address: #819 White Street

Description of Work:

Demolition of existing additions, decks, sheds and roof deck – Second Reading

Site Facts:

This property contains two buildings that first appear on the 1948 Sanborn map – 819 White Street and 1202 Pine Street. Neither are listed as contributing resources in the survey. In recent years, these two structures have had a myriad of alterations, including a current connection between the two buildings and a roof deck.

This project was approved by the HARC Commission at the September 27th meeting.

Ordinances Cited in Review:

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes the demolition of a side addition of a historic, but non-contributing building. The addition shows up as part of the original building in the 1948

Sanborn map, making it historic. Staff feels that the side addition does not meet the criteria listed in Sec. 102-218, and therefore can be considered for demolition:

- (1) The side does not embody distinctive characteristics and is not significant and distinguished entity.
- (2) The side is not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The side does not have significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;
- (4) The side to be demolished is not the site of a historic event with a significant effect upon society;
- (5) The side does not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The side does not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The side is not related to a square, park, or other distinctive area.
- (8) The side does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city and does not exemplify the best remaining architectural type in a neighborhood.
- 9) The side has not yielded, and is not likely to yield, information important in history.

This will be the final request for this project.
