**Description of Work**

Partial demolition of west side and rear demolition of house. Entire rear wall will be demolished.

**Site Facts**

The building under review is a contributing resource to the historic district. The one-story frame vernacular house was built in 1901. Additions to the southwest front side and a rear porch attached to the house are not original to the house. Two non-historic sheds are located on the west side of the lot and attached to the house. The house has board and batten wood siding.

*Current survey and 1962 Sanborn Map*

*Front elevation*

## Ordinance Cited on Review:

- Section 102-217 (2), demolition for non-contributing or non-historic structures of the Land Development Regulations.

## Staff Analysis:

The Certificate of Appropriateness proposes the demolition of non-historic elements, including rear wall of the house, rear, and west side addition. It is staff's opinion that the proposed demolitions will be done for non-historic and non-contributing structures. Staff opines that the proposed alterations to the house that will be replacing the proposed structures to be demolished do not meet guidelines for additions and alterations.

*Areas proposed to be demolished.*

Since the structures under review are non-historic, the evaluation shall be based on section 102-217 (b) of the Land Development Regulations, which requires the following criteria for demolitions:

The historic architectural review commission shall not issue permits that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the structures under review are not important character defining features to the historic site. Nevertheless, the proposed additions that will replace the request parts of the house to be demolished will overshadow the existing house.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The proposed structures to be demolished are not historic.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

The non-historic structures under review cannot be considered important elements that can define the historic character of the site and neighborhood. Nevertheless, the proposed design includes an alteration to the house by adding height to exterior walls, which will diminish the character of the existing contributing building.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the structures under review will not qualify to be contributing to the district in a near future.

Staff cannot recommend to the Commission the consideration of this request for demolition as the proposed replacements to elements to be demolished will have an adverse effect to the historic fabric of the existing house. By proposing altering the proportions of a contributing and historic building the new additions will be larger in scale and mass than the existing house. If by the contrary the Commission finds the design to be appropriate this will be the only required reading for demolition.

### DETAILED PROJECT DESCRIPTION OF DEMOLITION

**Removal of +/- 200SF of the west side and rear of the house. The entirety of the rear wall will be removed.**

### CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
(d) Is not the site of a historic event with significant effect upon society.
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history,

**CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:**

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The portions removed are not important in defining the overall historical character of the neighborhood. The portions removed can not be seen from the street front.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

The portion removed will not destroy the historical relationship between structure and open space

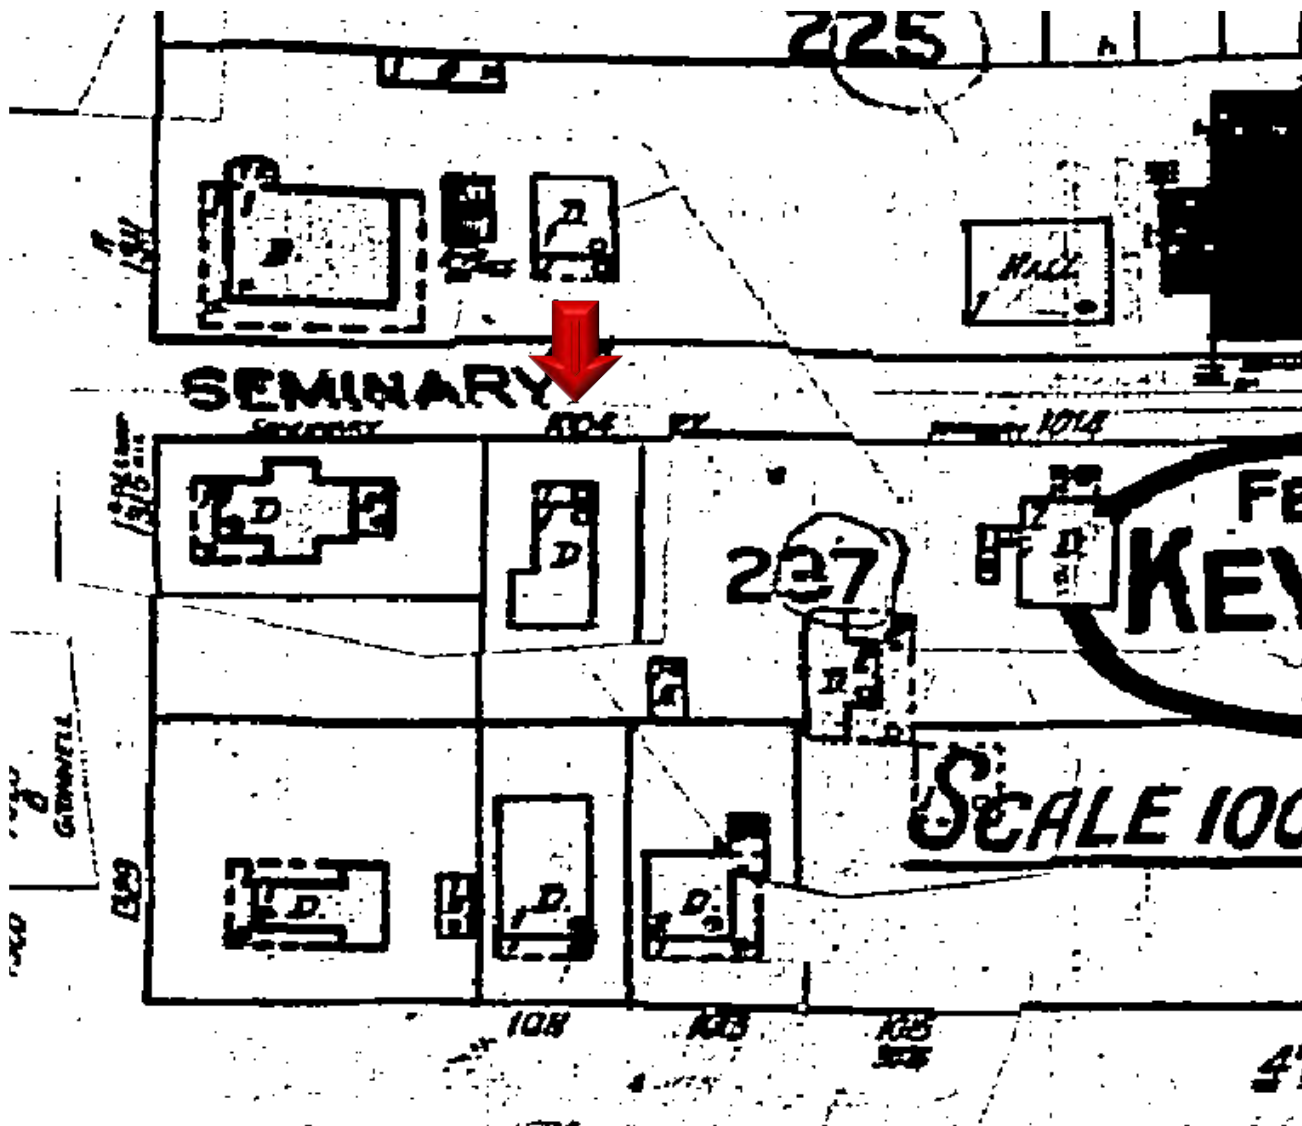

(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

Not removing a building facade that contributes to the historical context of the neighborhood.

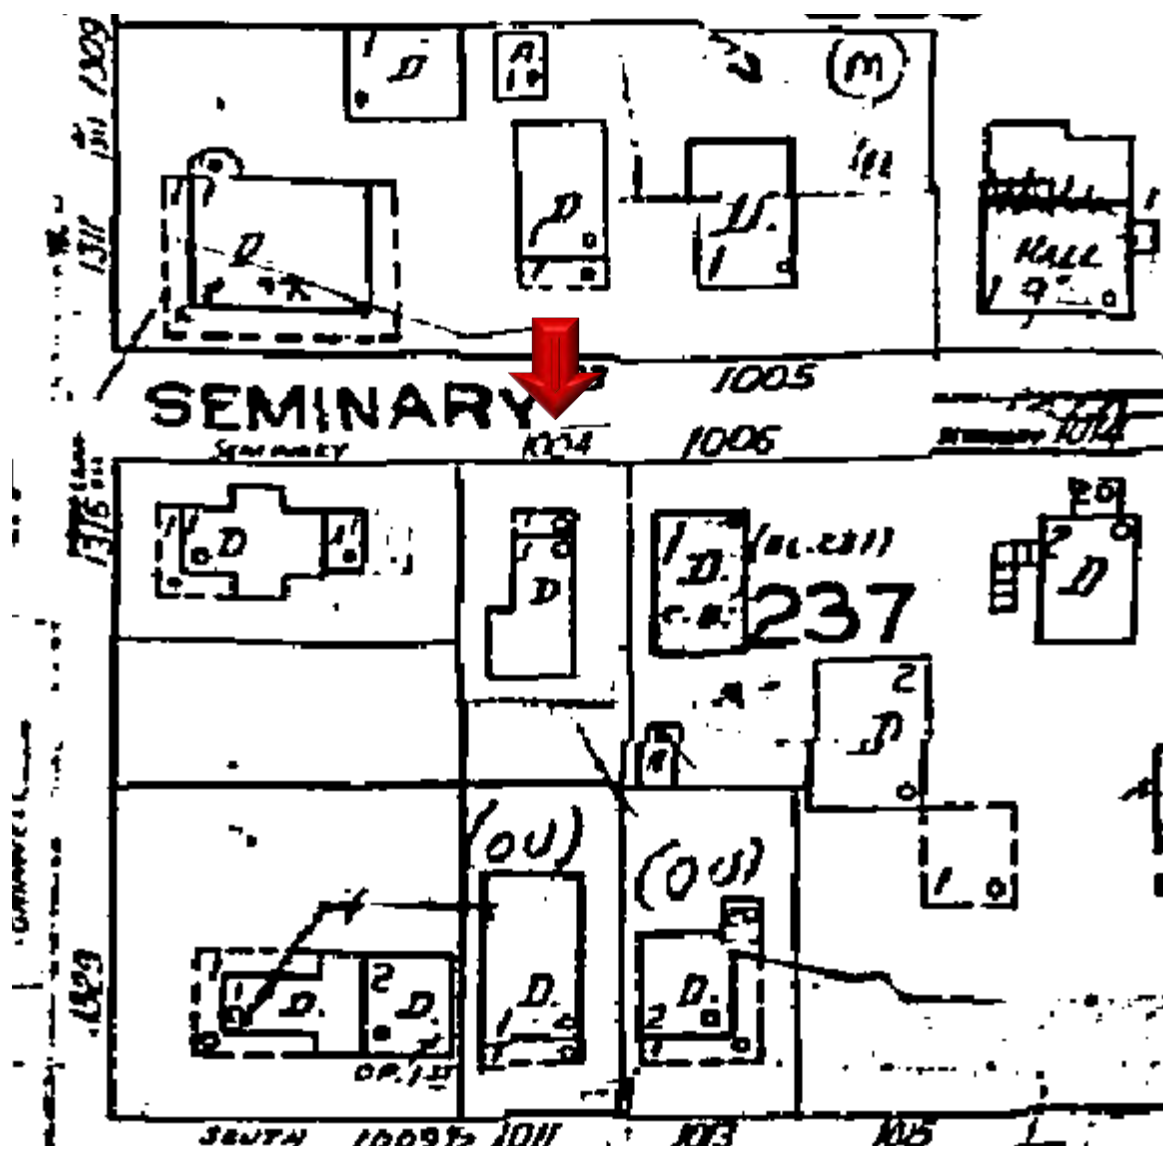

(4) Removing buildings or structures that would otherwise qualify as contributing.

Not removing any aspect of the structure that would qualify as contributing.
