I just got off the phone with Craig Lonon and have added him to the list. I will not be adding any more. So here are the top 26. Two other comments.

First, within groups, the names are now listed alphabetically. For the most part, they were listed that way before as well. Hence what is significant is the group the candidate is in, not the sequence within the group.

Second, you will note that I have changed the group that some of the candidates fell into since the earlier list. That is the result of some of my telephone calls and some further evaluation I have done since I compiled the initial list. I expect my groupings to continue to change before our meeting tomorrow. I do not plan to send a further update until around noon tomorrow.

Looking forward to seeing you tomorrow.
