Acknowledgement of City's Solid Waste Master Plan

Bidder hereby affirms it has familiarized itself with the City's Solid Waste Master Plan. Bidder pledges to be an active partner in working with the City to comply with and meet the objectives of the City's Solid Waste Master Plan. The Bidder hereby acknowledges the City's intent to consider this partnership as a measure of performance history when considering Contract renewal or any potential amendments to the Contract as approved by the City.

Signature of Bidder's Authorized Representative _____

In regards to the question of "Civil action (involving \$10,000 or more)" as it relates to **Satisfactory Past Performance**, we do not feel the following applies since they do not relate to Satisfactory Past Performance, but in the interests of full disclosure:

The Bidder from time to time in the normal course of its business may be involved in routine civil actions involving \$10,000 or more, related to risk management type cases such as vehicle accident claims and/or workers compensation claims.

In addition, during the last five (5) years, the Bidder was a party to the following civil case:

Kevin Potthoff et. al v. Veolia ES Solid Waste Southeast, Inc. (n/k/a Advanced Disposal Services Solid Waste Southeast, Inc.) - In 2009 Potthoff, a one-time roll-off customer, sued on his own behalf as well as on behalf of other similarly situated Alabama commercial customers (purported class action) alleging that the Company's billing and collection of fuel, environmental and other surcharges and fees were unlawful, and were a breach of service agreements. The matter was settled in 2012. Veolia denied any liability and wrongdoing and was confident the courts would have ultimately found its practices reasonable and appropriate. The settlement was reached to resolve the dispute once and for all and to avoid future litigation costs.

Also, the Bidder is currently involved in similar type civil cases brought by the same Plaintiff's law firm in 2013. The Company denies liability in these cases and is vigorously defending them. The cases are as follows:

Michelle's Restaurant of Georgetown, Inc. and the Community Corner d/b/a Discount Zone v. Advanced Disposal Services, Inc. et al., in the Superior Court of Quitman County, Georgia, and

Bach Enterprises d/b/a Randall Greene Automotive v. Advanced Disposal Services, Inc. et al., in the Circuit Court of Barbour County, Alabama

On Page 20 of the "Minimum Qualifications and Reference" section of the bid form that you provided on Friday, the "Florida Recovered Materials Dealer Certification" was omitted.

In your response, you cite your belief that it is not required of Advanced Disposal. However, on page 13 of the bid documents, Section 4.1 (f) states that we are actually looking for the certificate for the facility where the recyclables will be taken, which according to your bid documents would be the WSI Miami MRF and Transfer.

If you could provide me with a copy of their certification in a timely manner, it would be appreciated.
