

Historic Architectural Review Commission

Staff Report Item 7b

Meeting Date: September 24, 2013

Applicant: Bender and Associates, Architects
David Salay

Application Number: H13-01-1226

Address: #1417 Eliza Street

Description of Work: Removal of walls on front porch. Demolition of non-historic carport.

Building Facts: House is listed in the surveys as a contributing resource. According to records the one story frame vernacular house was built circa 1938. Nevertheless the Sanborn maps depict different footprints of the house between 1926 and 1948 maps. The front façade has been altered by the creation of a half wide porch. The house used to have a metal frame carport on the same side where an existing carport is located; nevertheless the existing carport is of a newer construction.

Guidelines and Ordinance Cited in this Review: Ordinance for demolitions, Sec. 102-217 (2) - non-historic and non-contributing

Staff Analysis

The Certificate of Appropriateness proposes the removal of non-historic walls on the front as well as a non-historic carport attached to the east side of the house. Although the circa 1965 photo from the Property Appraisers depict an enclosed front porch and side metal carport, nevertheless a visual inspection corroborates that both elements have been altered through time and are not historic. The construction materials used for the structures are evidence of their non-historic status.

Consistency with the Demolition Ordinance and Guidelines

1. The proposed structures to be demolished are non-historic and non-original to the historic house. The front porch has been altered considerably though time.

It is staff's opinion that the proposed plans are consistent with the Demolition Ordinance and the Historic Architectural Guidelines. It is staff's opinion that neither of the structures may be considered contributing to the house on a near future and that the Commission can consider the request for demolition.

If the request is approved it will need one reading since the structures to be demolished are non-historic and non-contributing to the house.
