This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at http://www.municode.com/Library/FL/Key_West under Subpart B.

*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.

Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

The indoor/outdoor living room is located within 3 of the 4 exterior building walls and is located under the roof structure of the residence, however, Planning Staff finds that the space, although not "detached" does not meet the requirements of 122-1078.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

The interpretation of the code provisions are subject to change which render this design non-compliant with Code Section 122-1078.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

Habitable space directly accessible from the residence courtyard does not confer a special privilege. A 4.6% deviation in open space on this 8,379 sf lot confers no special privilege.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

The change of interpretation to require the building design to receive a variance for the habitable space and open space handicaps the property owner and architects one year into the design process.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

Only the minimum variance is requested to allow use of the design originally conceived in the belief that the project was 100% compliant with the Key West Land Development Regulations.

City of Key West • Application for Variance

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

The single family home on a double lot in Old Town will benefit adjacent properties and presents no threat of injustice to public welfare.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

Other existing non-conformities in the neighborhood are not the basis for this variance request.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

REQUIRED SUBMITTALS: All of the following must be submitted in order to have a complete application. Please submit one paper copy and one electronic copy of all materials.

- ☐ Correct application fee. Check may be payable to "City of Key West."
- ☐ Notarized verification form signed by property owner or the authorized representative.
- ☐ Notarized authorization form signed by property owner, if applicant is not the owner.
- ☐ Copy of recorded warranty deed
- ☐ Property record card
- ☐ Signed and sealed survey
- ☐ Site plan (plans MUST be signed and sealed by an Engineer or Architect)
- ☐ Floor plans
- ☐ Stormwater management plan
