TO: Art in Public Places Board

FROM: Art in Public Places Administrator

DATE: April 10, 2017

SUBJECT: Public Art Inventory Scheduling and Board Photo for website

ACTION STATEMENT

Schedule date to survey and assess Public Art installations in each Directors Commission District and photograph.

BACKGROUND

Current inventories lack visual aids and are dated 2013.

PURPOSE & JUSTIFICATION

An updated and visually documented inventory will form the foundation for a maintenance database for the City's Art collection, a self-guided walking tour of the City's Public Art, and a catalog of the City's Public Art collection.

RECOMMENDATION

Each Board member should select 1 or 2 days for which they can be available to meet with the Administrative Coordinator and physically tour their District to document the District's Public Art installations.

FINANCIAL IMPACT

This inventory allows the City to manage its Public Art collection, assess and insure its value, and maintain its quality. This inventory may potentially provide a foundation for revenue generating activities in the future.
