2. Departmental rules and regulations, amendments/revisions thereto, approved by the Fire Chief, Fire Chief's designee, or as otherwise provided by Policy, shall automatically become and be considered a formal part of the Agreement. Whenever there is a conflict between the penalties imposed by City' policies and procedures and departmental rules and regulations, the strictest penalty will apply.

ARTICLE 15

CALL-BACK-PAY

All employees covered by the terms of the Agreement who are called back from off-duty, for any reason or purpose, shall be paid at the rate of time-and-a-half (1 ½) and will be paid and may be required to work a minimum of four (4) hours.

ARTICLE 18

SICK AND ANNUAL LEAVE

SICK LEAVE:

The sick leave accrual shall be 3.692307 hours per pay period. This equates to eight (8) hours per month, or twelve (12) days per year. Employees on sick leave will be charged eight (8) hours for each work day taken as sick leave. City agrees to pay for all unused sick leave upon separation in good standing according to the schedule below up to a cap of 720 hours at the employee's current hourly rate.

All bargaining unit members who, as of October 1, 1992, have sick leave accumulated in excess of 720 hours shall be grandfathered in at the number of hours on the books as of that date and that shall be the cap of hours for that employee subject to pay out at separation from employment. Should those employees use or buy sick leave benefits so as to reduce the number of hours on the books below the grandfather cap, then the new lower cap will be established. Sick Leave grandfathered in as of October 1, 1992 in excess of the 720 hour cap may be paid for by City subject to funds being budgeted and available at the rate of pay as of October 1, of each year, down to the 720 hour cap level. The sick leave payout schedule shall be as follows:

<u>Years</u>	<u>Percentage of Hours Paid</u>
0-3	0
3-5	50
5-10	75
10+	100
0-5	0
6-10	50
10+	100

Sick leave accrual shall continue until the employee separates from City employment in an unlimited fashion and these hours shall be available for use. Transfer of sick leave above and/or below the cap to another employee will be subject to the City's sick leave transfer policy.

City agrees, to the extent that it is legally permissible, that upon the death of a firefighter compensation for unused sick leave up to 720 hour cap will be paid to the designated spouse or next of kin.

ANNUAL OR VACATION LEAVE:

For all full time employees, the accrual rate shall be:

<u>LENGTH OF SERVICE</u>	<u>RATE OF ACCRUAL PER YEAR</u>
1 to 5 Years	80 Hours or 5 Working Days
5 to 10 Years	120 Hours or 7.5 Working Days
Over 10 Years	160 Hours or 10 Working Days

2. Annual leave will be taken on approval through the chain of command

a. Based on current Fire Department policy, annual leave will not be granted for period less than leave earned.

b. Employees covered under this Agreement who take annual leave in less than two (2) week blocks will be charged sixteen (16) hours of leave per fire suppression duty day taken.

c. Annual leave of a day or more will be approved by the Fire Chief or designee and this approval will be based on impact on overall productivity.

3. Annual Leave balances as of September 30 of any given year must be utilized by September 30 of the next fiscal year. Upon documentation of a pattern of denial, the amount of Annual Leave that has been denied may be transferred to sick leave, provided it will not exceed the cap for sick leave; or may be carried over to be used, along with all new annual leave, by the appropriate date of the following year. In the event that funds have been budgeted for the purpose of buyouts, or there are lapsed salary dollars in the departmental salary line item, leave under the cap may be purchased. To become budgeted, the member must advise the appropriate personnel in the department of their desire to buy out any portion of their annual leave, by May of any given fiscal year, for the following fiscal year. A firefighter must use at least eighty (80) hours of leave, in the preceding twelve (12) months, to be considered for buyouts. A request for buyout is not a mandatory requirement that the leave be purchased by the Employer. The firefighter may change his/her mind, and decide to use the leave; additionally, the funds may not be budgeted for such a buyout, which will thereby mandate the firefighter use said leave. The "cap" for annual leave hours is 240. Annual leave above the 240 cap at the ratification of prior contract shall create a new grandfather cap.

4. Upon separation from the City, an employee shall be paid for each hour of accrued annual leave, at his/her current rate of pay, up to the "cap" of 240 hours. Estates of employees killed in the line of duty shall be paid for all annual leave without regard to a cap. ARTICLE 19

Employees receiving benefits under this Article in excess of 30 days shall not accrue sick and annual leave benefits.
- e. Failure to provide such information when requested shall be cause for termination of benefits, subject to the dispute resolution and appeal procedures provided by the Florida Workers Compensation Statute

- h. Employees shall actively seek pension, social security, and other benefits. No employee shall receive pay under this provision when the employee fails to actively seek pension, social security and other benefits, subject to the dispute resolution and appeal procedures of the Florida Workers Compensation Statute. The Human Resource Director or his designee will assist employees' benefits in seeking Social Security and other benefits.
- i. Application for consideration under this plan may be initiated by the employee, his/her department head, or the disability panel on forms provided by the City.
- j. When an employee is injured in the line of duty, he/she shall, for reporting purposes, be automatically placed on a five (5) day, forty (40) hour week commencing at 8:00 am on the day following the date of the injury. This section shall not be construed to increase or decrease take home pay except as provided in section 3.
- k. If an employee is killed in the line of duty, the City shall pay to the beneficiaries the employee's accumulated severance pay. The spouse and dependents of the employee will be entitled to the benefits provided by the Workers Compensation Statute, F.S. 440.

SECTION 5: SICK LEAVE

An employee who suffers a service-connected disability shall not use or be charged sick leave if he is granted disability leave or Disability Payments except as provided herein. Entitlement to disability leave or Disability Payments will be decided on within 7 days of the injury and notice of that decision will be given immediately to the affected employee.

SECTION 6: ELIGIBILITY

- a. It is the intent of this agreement that any Fire Department employee who is a member of this bargaining unit with a service-connected disability as of the effective date of this division shall be eligible for consideration for benefits hereunder.
- b. An employee injured in the line of duty and other work related injury shall report said injury at the time of the occurrence to the employee's immediate supervisor pursuant to City policy. Failure to immediately report as soon as possible a line of duty injury will be managed according to the rules established under the Workers Compensation Statute, F.S. 440. If the employee is unable to report the injury, his/her immediate supervisor will report the in-the-line of duty injury to Fire Department, Management, city Management, Human Resources or Risk Management.
- c. An employee who is injured in the line of duty shall have the right to select any qualified physician who is certified by the City under the Workers Compensation statute, F.S. 440.

Approval will not be unreasonably withheld. The choice shall be made by the injured person, or if the condition prevents him from making such choice, by his family. The physician originally selected by the employee may be changed upon notice and prior approval of the City.

Any employee injured in the course and scope of employment shall be examined every twenty (20) working days by the employee's chosen treating physician, upon the consent of the disability panel, or one selected by the panel. The doctor shall determine whether the employee is able to return to regular duty. In the event the employee fails to return to duty due to a disagreement between the medical doctor for the employee and the medical doctor for the panel, then the dispute will be resolved within the dispute resolution procedures provided for in the Workers Compensation Statute, F.S. 440. The City agrees to file this agreement with the Division of Workers Compensation of the Department of Labor and Employment Security, pursuant to Florida Statute Chapter 440, the Workers Compensation Statute.

CITY OF KEY WEST
DRUG-FREE WORKPLACE POLICY

I. PURPOSE

The City of Key West ("the City") has a compelling obligation to eliminate alcohol and illegal drug use in its workplace because of its responsibility for the safe, effective and efficient delivery of public services. Drug or alcohol use in the workplace may result in or contribute to on-the-job accidents, motor vehicle accidents and personal injury to City employees and the public. The illegal use of drugs by City employees, on or off-duty, and the state of being under the influence of alcohol while on duty are inconsistent with both the law-abiding behavior expected of all citizens and the special trust placed in City employees as public servants. Moreover, City employees who illegally use drugs tend to be less productive, less reliable, and prone to greater absenteeism than their fellow employees. This impairs the efficiency of City departments, creates a greater burden on reliable employees and undermines public confidence in all City employees.

A. Policy Statement

It is the policy of the City to maintain a drug-free workplace. It is a condition of employment with the City that employees refrain from reporting to work or working with the presence of drugs and/or alcohol in his or her body and for each City employee to abide by this policy. In addition to possible disciplinary action, up to and including termination as a result of any violation of this Drug-Free Workplace Policy, an employee injured in the course and scope of employment who refuses to submit to a test for drugs and/or alcohol, or is tested and has a positive confirmation of drug use or alcohol, forfeits his or her eligibility for medical and indemnity benefits under the Workers Compensation Act.

B. Legal Authority

The unlawful manufacture, distribution, dispensation, possession or use of a controlled substance in the workplace is prohibited by Sections 440.101 and 440.102 of the Florida Statutes and set forth the requirements with which the City's drug-free workplace policy must comply. The City is also subject to the Drug-Free Workplace Act of 1988 and to the U.S. Department of Transportation's Federal Transit Authority ("FTA") drug and alcohol testing requirements with respect to certain employees (Alcohol and Drug Testing Program for Commercial Motor Vehicle Drivers). This FTA program is separate from this policy.

C. Effective Date of Policy

The City's Drug-Free Workplace Policy is effective June 2, 1999. All new employees will be provided with this policy on their hire date. It shall be the responsibility of all personnel to familiarize themselves with this policy.

II. TYPES OF DRUG TESTS

A. City Authority to Test

The authority to order an applicant or employee to submit to a drug and/or alcohol test pursuant to this policy is vested in the City and its officials acting in the interests of the City.

B. Required Types of Drug Tests

For purposes of this policy, the term "drug" also includes alcohol unless specified otherwise.

Employees and applicants will be subjected to the following types of drug tests:

1. Job Applicant Testing

- a) All applicants for positions with the City will be drug tested and must pass a 10-panel drug test before he or she is hired as an employee and before completing the City's orientation process. The applicants whom the City intends to hire will be given a conditional *offer of employment* and requested to submit to a drug and/or alcohol test. Refusal to submit to the drug and/or alcohol test or a positive confirmed test result will result in rejection of the applicant for employment at that time. The City may choose not to perform applicant alcohol testing for some classifications.
- b) Job applicant drug testing does not require authorization from a City official or representative.

2. Reasonable Suspicion Testing

- a) An employee may be required to submit to a drug and/or alcohol test when the City has a reasonable suspicion that an employee is using or has used drugs or alcohol in violation of City policy. "Reasonable suspicion" will be determined from specific, objective, and articulable facts and reasonable inferences drawn from those facts in light of experience.

b) Among other things, such facts and inferences may be based upon:

- observable phenomena while at work, such as direct observation of drug and/or alcohol use or the physical symptoms or manifestations of being under the influence of a drug or alcohol;
- abnormal conduct, irrational or incoherent mental state or erratic behavior while at work or a significant deterioration in work performance;
- increased inattentiveness, absentmindedness, drowsiness or mood swings;
- increased unexplained absenteeism;
- impairment of motor functions and lack of physical coordination;
- a report of drug and/or alcohol use, provided by a reliable and credible source;
- evidence that an individual has tampered with a drug and/or alcohol test during his or her employment with the City;
- information that the employee has caused, contributed to or been involved in an accident while at work;
- evidence that the employee has used, possessed, sold, solicited or transferred drugs and/or alcohol while working or while on the City's premises, or while operating City vehicle(s), machinery or equipment;
- discovery of drugs and/or alcohol in the workplace; or
- employees' confirmation of drug and/or alcohol use.

The City may decide not to test all employees involved in work related accidents. However, it will test all employees where there is some information or evidence upon which a reasonable person could conclude that the employee was at fault to some degree, either by the employee's action or inaction. This decision is to be made as a part of the reasonable suspicion determination by a Department Director his or her designee or Assistant City Manager or City Manager (a higher ranking employee).

- c) If an employee has information upon which there may be a reasonable suspicion of another employee's drug and/or alcohol use in violation of City policy, he or she must immediately report the information to his or her supervisor, the Director of that Department, that Director's designee or to the Assistant City Manager or City Manager (a higher ranking City employee). If a supervisor has information upon which there may be a reasonable suspicion of an employee's drug and/or alcohol use in violation of City policy, he or she must immediately report the information to his or her supervisor, the Director of that Department, that Director's designee or to the Assistant City Manager or City Manager (a higher ranking City employee). If a Department Director has information upon which there may be a reasonable suspicion of an employee's drug and/or alcohol use in violation of City policy, he or she must immediately report the information to the Assistant City Manager or City Manager (a higher ranking City employee). The higher ranking City employee must consider the information the employee, supervisor or Department Director reported in making his/her own reasonable suspicion determination.
- d) If the higher ranking City employee concludes that a reasonable suspicion testing is justified, he or she must consult with the Director of Human Resources, a City attorney or both, prior to his or her final reasonable suspicion determination. Reasonable suspicion testing may only be authorized by a Department Director, his or her designee or by the Assistant City Manager or City Manager. The order for an employee to submit to reasonable suspicion testing may be given by any supervisory employee the City deems appropriate.
- e) The City must document, in writing, the circumstances which formed the basis of its reasonable suspicion testing within five (5) days after the testing.
- f) Employees shall be transported to the specimen collection site by a supervisor.

3. Routine Fitness for Duty Testing

- a) An employee may be asked to submit to a drug and/or alcohol test as part of a routinely-scheduled fitness for duty medical examination that is either part of the City's established policy or that is scheduled routinely for all members of an employment classification or group.

- b) Drug and/or alcohol testing which is conducted pursuant to a routine fitness for duty examination does not require particular authorization from any designated City official beyond that required for the examination itself.

4. Follow-Up Testing

- a) If an employee enters an employee assistance program or rehabilitation program for drug and/or alcohol related problems, the employee may, at the City's discretion, be required to submit to a follow-up drug and/or alcohol test on a monthly, quarterly, semiannual or annual basis for two (2) years thereafter. Advance notice of the follow-up testing will not be given to the employee.
- b) Except to the extent modified by other City policies or collective bargaining agreements, follow-up testing may be authorized by a Department Director, his or her designee or by the Assistant City Manager or City Manager.

5. Random Testing

- a) Employees in the following job categories are subject to random, unannounced drug and/or alcohol testing:
 - Certified Firefighters and Sworn Police Officers: Public safety positions are subject to random drug testing pursuant to the procedures set forth in the Police Department and Fire Department Policies and Procedures. The illegal use of a controlled substance by a certified firefighter or a police officer sworn to enforce the law is a criminal act that directly threatens the integrity and effectiveness of the Fire and Police Departments. Certified firefighters and sworn police officers who test positive for illegal drugs in a random test are subject to discharge.
 - Commercial Drivers: Employees subject to the drug and/or alcohol testing requirements of the Department of Transportation are subject to random drug and alcohol testing. Drug and/or alcohol use by employees in safety-sensitive positions is dangerous, illegal, and could result in or contribute to on-the-job accidents, motor vehicle accidents, and personal injury to City employees and the public. Covered commercial drivers who test positive for illegal drugs and/or alcohol in a random test are subject to discharge.

This decision is at the City Manager or his or her designee's sole discretion.

B. Actions the City May Take Based Upon a Positive Test Result

1. An applicant with a positive drug and/or alcohol test result will not be hired for the position applied for or any other position for which he or she has contemporaneously applied.

C. Effective Date of Policy

The City's Drug-Free Workplace Policy is effective June 2, 1999. All new employees will be provided with this policy on their hire date. It shall be the responsibility of all personnel to familiarize themselves with this policy.

II. TYPES OF DRUG TESTS

A. City Authority to Test

The authority to order an applicant or employee to submit to a drug and/or alcohol test pursuant to this policy is vested in the City and its officials acting in the interests of the City.

B. Required Types of Drug Tests

For purposes of this policy, the term "drug" also includes alcohol unless specified otherwise.

Employees and applicants will be subjected to the following types of drug tests:

1. Job Applicant Testing
 - a) All applicants for positions with the City will be drug tested and must pass a 10-panel drug test before he or she is hired as an employee and before completing the City's orientation process. The applicants whom the City intends to hire will be given a conditional *offer of employment* and requested to submit to a drug and/or alcohol test. Refusal to submit to the drug and/or alcohol test or a positive confirmed test result will result in rejection of the applicant for employment at that time. The City may choose not to perform applicant alcohol testing for some classifications.
 - b) Job applicant drug testing does not require authorization from a City official or representative.
2. Reasonable Suspicion Testing
 - a) An employee may be required to submit to a drug and/or alcohol test when the City has a reasonable suspicion that an employee is using or has used drugs or alcohol in violation of City policy. "Reasonable suspicion" will be determined from specific, objective, and articulable facts and reasonable inferences drawn from those facts in light of experience.

b) Among other things, such facts and inferences may be based upon:

- observable phenomena while at work, such as direct observation of drug and/or alcohol use or the physical symptoms or manifestations of being under the influence of a drug or alcohol;
- abnormal conduct, irrational or incoherent mental state or erratic behavior while at work or a significant deterioration in work performance;
- increased inattentiveness, absentmindedness, drowsiness or mood swings;
- increased unexplained absenteeism;
- impairment of motor functions and lack of physical coordination;
- a report of drug and/or alcohol use, provided by a reliable and credible source;
- evidence that an individual has tampered with a drug and/or alcohol test during his or her employment with the City;
- information that the employee has caused, contributed to or been involved in an accident while at work;
- evidence that the employee has used, possessed, sold, solicited or transferred drugs and/or alcohol while working or while on the City's premises, or while operating City vehicle(s), machinery or equipment;
- discovery of drugs and/or alcohol in the workplace; or
- employees' confirmation of drug and/or alcohol use.

The City may decide not to test all employees involved in work related accidents. However, it will test all employees where there is some information or evidence upon which a reasonable person could conclude that the employee was at fault to some degree, either by the employee's action or inaction. This decision is to be made as a part of the reasonable suspicion determination by a Department Director his or her designee or Assistant City Manager or City Manager (a higher ranking employee).

- c) If an employee has information upon which there may be a reasonable suspicion of another employee's drug and/or alcohol use in violation of City policy, he or she must immediately report the information to his or her supervisor, the Director of that Department, that Director's designee or to the Assistant City Manager or City Manager (a higher ranking City employee). If a supervisor has information upon which there may be a reasonable suspicion of an employee's drug and/or alcohol use in violation of City policy, he or she must immediately report the information to his or her supervisor, the Director of that Department, that Director's designee or to the Assistant City Manager or City Manager (a higher ranking City employee). If a Department Director has information upon which there may be a reasonable suspicion of an employee's drug and/or alcohol use in violation of City policy, he or she must immediately report the information to the Assistant City Manager or City Manager (a higher ranking City employee). The higher ranking City employee must consider the information the employee, supervisor or Department Director reported in making his/her own reasonable suspicion determination.
- d) If the higher ranking City employee concludes that a reasonable suspicion testing is justified, he or she must consult with the Director of Human Resources, a City attorney or both, prior to his or her final reasonable suspicion determination. Reasonable suspicion testing may only be authorized by a Department Director, his or her designee or by the Assistant City Manager or City Manager. The order for an employee to submit to reasonable suspicion testing may be given by any supervisory employee the City deems appropriate.
- e) The City must document, in writing, the circumstances which formed the basis of its reasonable suspicion testing within five (5) days after the testing.
- f) Employees shall be transported to the specimen collection site by a supervisor.

3. Routine Fitness for Duty Testing

- a) An employee may be asked to submit to a drug and/or alcohol test as part of a routinely-scheduled fitness for duty medical examination that is either part of the City's established policy or that is scheduled routinely for all members of an employment classification or group.

- b) Drug and/or alcohol testing which is conducted pursuant to a routine fitness for duty examination does not require particular authorization from any designated City official beyond that required for the examination itself.

4. Follow-Up Testing

- a) If an employee enters an employee assistance program or rehabilitation program for drug and/or alcohol related problems, the employee may, at the City's discretion, be required to submit to a follow-up drug and/or alcohol test on a monthly, quarterly, semiannual or annual basis for two (2) years thereafter. Advance notice of the follow-up testing will not be given to the employee.
- b) Except to the extent modified by other City policies or collective bargaining agreements, follow-up testing may be authorized by a Department Director, his or her designee or by the Assistant City Manager or City Manager.

5. Random Testing

- a) Employees in the following job categories are subject to random, unannounced drug and/or alcohol testing:
 - Certified Firefighters and Sworn Police Officers: Public safety positions are subject to random drug testing pursuant to the procedures set forth in the Police Department and Fire Department Policies and Procedures. The illegal use of a controlled substance by a certified firefighter or a police officer sworn to enforce the law is a criminal act that directly threatens the integrity and effectiveness of the Fire and Police Departments. Certified firefighters and sworn police officers who test positive for illegal drugs in a random test are subject to discharge.
 - Commercial Drivers: Employees subject to the drug and/or alcohol testing requirements of the Department of Transportation are subject to random drug and alcohol testing. Drug and/or alcohol use by employees in safety-sensitive positions is dangerous, illegal, and could result in or contribute to on-the-job accidents, motor vehicle accidents, and personal injury to City employees and the public. Covered commercial drivers who test positive for illegal drugs and/or alcohol in a random test are subject to discharge.
