## Staff Report Item 6a

---

<b>Meeting Date:</b>	October 22, 2013
<b>Applicant:</b>	Carlos O. Rojas, Architect
<b>Application Number:</b>	H13-01-1310
<b>Address:</b>	#613 Margaret Street
<b>Description of Work:</b>	Request to rebuild a new house on the back of the property.
<b>Building/Site Facts:</b>	The wood frame house located on the back of the lot is not listed in the surveys. According to the property Appraiser's records the house was built in 1990. The proposed project has obtained Planning Board approval for variances for the rear back yard setback requirements.
<b>Ordinance and Guidelines Cited in Review:</b>	Additions, alterations and new construction (pages 36-38a), specifically guidelines for new construction 1 through 7 of pages 38-38a.

### Staff Analysis

The Certificate of Appropriateness proposes the construction of a two story frame structure that will replace an existing one and a half story frame house. The proposed design is traditional in form. The proposed house will be rectangular in footprint and will have a cross gable roof and a dormer facing south. The plans include six over one wood clad aluminum impact rated windows and doors. The exterior walls will have wood board and batten siding using 2" x 12" boards and 3/4" x 1 1/2" battens. Metal v-crimp will be used as the roofing system. The applicant wants to install wood bahama shutters in all windows. The roof will extend 25'-0" from ground level.

### Consistency with Guidelines

1. The proposed design incorporates forms and textures found in the historic district.

2. The proportions and scale of the proposed new house are in keeping with its surrounding context.
3. The proposed new structure will be located on the back portion of the lot and will not be visible from the street.

It is staff's opinion that the proposed plans are consistent with the Historic Architectural Guidelines. The proposed design will improve actual side and back setback problems found in the actual house. The proposed design is sensible with its mass, scale and building design and details to the main historic house and to the surrounding buildings.
