Karen,

Thanks for the email notice. I would be glad to discuss the request with the Commission. Attached are 5 pictures of young trees coming up in that area (2 mahoganies and 3 poincianas). I planted the mahoganies a couple years ago in anticipation of needed replacement shade when the old trees finally die or are removed. The poincianas are from seeds or an older tree stump removed in 2018 after Irma. So we do have potential replacements.

Thanks again.

Doug

Attached is a copy of the meeting notice letter regarding the request to remove the (3) Royal Poinciana trees. I will be representing the application and trees but I will have you come up to speak or answer any questions if you don't mind.

The Tree Commission might require replanting of at least (1) Royal Poinciana tree in that right of way area. Do you have any objections to that?

Sincerely,

Karen

Subject: Hurricane Damaged Poincianas
Attachments: 1111 Georgia Poinciana 1.jpg; 1111 Georgia Poinciana 2.jpg

Karen,

Nice talking with you today. Attached are the pictures of the two Poinciana trees severely damaged by Irma. They are on the city right of way on Eliza Street just to the east of the corner Georgia and Eliza. I own the adjacent property (1111 Georgia Street). What I call tree #1 is only a 6 ft high stump that is starting to put out limbs but will never be a real tree again. Tree #2 looks to have lost half its canopy and what remains seems unstable and could fall on the house next door (owned by Nancy Klingener and Mark Heddon). There are two other trees that look ok, especially for their age—I think my house protected them during the hurricane.

Thanks for your consideration. I welcome your assessment and will assist in any way I can.

Take care,

Doug Gregory
