**THE CITY OF KEY WEST
PLANNING BOARD
Staff Report**

To: Chair and Planning Board Members

From: Melissa Paul-Leto, Planner Analyst

Through: Thaddeus Cohen, Planning Director

Meeting Date: October 20, 2016

Agenda Item: **An After-the-Fact Variance – 1109 Stump Lane (RE# 00007120-000000; AK# 1007382)** – A request for after-the-fact variances to rear and side setback requirements in order to raise of the walls, redesign the roof and renovate an existing accessory structure located within the Historic High Density Residential (HHDR) Zoning District pursuant to Sections 122-630(6) (b.) and 122-630(6) (c.) of the Land Development Regulations of the Code of Ordinances of the City of Key West, Florida.

Request: A request to after-the-fact variances to the minimum rear and side setback requirements.

Applicant: Vernon Chevalier

Property Owners: Vernon Chevalier

Location: 1109 Stump Lane (RE# 00007120-000000; AK# 1007382)

Zoning: Historic High Density Residential (HHDR) Zoning District

Background:

This subject property is located within the HHDR zoning district. The property consists of a one and two story single family residence with an existing accessory structure located in the rear of the property. This is an active code case. Construction on the accessory unit was taking place without any permits. The applicant has extended the height of the walls and reconstructed the roof of the accessory structure from a flat roof to a pitched roof design without permits. The existing structure is nonconforming with the rear and side setbacks and the action taken by the property owner to raise the walls and roof has resulted in the expansion of the 3-D nonconformity envelope and is the reason for the after-the-fact variance.

Relevant HHDR Zoning District Dimensional Requirements: Code Section 122-630				
Dimensional Requirement	Required/ Allowed	Existing	Proposed	Change / Variance Required?
Maximum height (Accessory structure)	30 feet	6.75 feet	11 feet	Complies
Maximum building coverage	50% 1,976 sf	1,510 sf	1,482 sf	Complies
Maximum impervious surface	60% 2,371.8 sf	1,639 sf	1,651 sf	Complies
Minimum Open Space	35% 1,383.55 sf	728 sf	788 sf	Existing Non-conformity Improvement Complies
Minimum lot size	4,000 SF	3,953 SF	3,953 SF	No change / Existing Non-conformity Complies
Minimum front setback (Accessory structure to rear of house)	5 feet	24 feet	24 feet	Complies
Minimum side setback (Accessory structure to property line)	5 feet	1 foot	1 foot	Variance Required -4 feet
Minimum side setback (accessory structure to property line)	5 feet	37 feet	37 feet	Complies
Minimum rear setback (Accessory structure)	5 feet	1 foot	1 foot	Variance Required -4 feet

Analysis – Evaluation for Compliance With The Land Development Regulations:

The standards for considering variances are set forth in Section 90-395(a) of the City of Key West (the “City”) Land Development Regulations (“LDRs”). Before any variance may be granted, the Planning Board must find all of the following:

- (1) Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.**

The land, structure and building on the subject property does not have special conditions or circumstances involved that any other property located within the HHDR Zoning District possesses.

- (2) Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.**

Currently, the accessory structure is non-conforming to the rear and side setback requirements. The applicant has already raised the walls and reconstructed the roof without permits. The raising of the walls and the redesign of the roof from a flat roof to a pitched roof raises the height of the structure and thus expands upon the 3-d envelope of the existing non-conformity.

- (3) Special privileges not conferred. That granting the variance requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.**

Granting the requested variance would confer special privileges upon the Applicant that are denied by the LDRs to other lands, buildings and structures in the HHDR Zoning District.

- (4) Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.**

The accessory structure is currently being used as storage space. The applicant may continue that use the structure without the need of a variance. However, the applicant has chosen to raise the height of the existing walls and the height of the roof design. These actions taken by the property owner have triggered the need for this after-the-fact variance request.

- (5) Only minimum variance granted. That the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.**

The variance requested is not the minimum required that will make possible the reasonable use of the building / structure. However, it is the minimum necessary to accommodate the request.

- (6) Not injurious to the public welfare. That the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.**

Due to not being in compliance with all of the standards for considering variances, the granting of the requested variances would be injurious to the area involved and otherwise detrimental to the public interest.

- (7) Existing nonconforming uses of other property not the basis for approval. No nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.**

The Applicant has not used existing nonconforming uses of other property in the HHDR Zoning District or permitted uses of property in other zoning districts as the grounds for approval of the requested variances.

Concurrency Facilities and Other Utilities or Service (Code Section 108-233):

It does not appear that the requested variances would trigger any public facility capacity issues.

Pursuant to Code Section 90-395(b), the Planning Board shall make factual findings regarding the following:

- (1) That the standards established by Code Section 90-395 have been met by the applicant for a variance.**

The standards for the granting of variances established by Code Section 90-395 have not all been met by the Applicant.

- (2) That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors.**

The Planning Department has received five public comments so far opposing the requested variances.

The property owner has attempted to demonstrate a "good neighbor policy" by contacting all noticed property owners who have objected to the after-the-fact variance application however the opposing neighbors have not conceded.

Recommendation:

Based on the above analysis of the standards for considering variances established by the Comprehensive Plan and the Land Development Regulations, the Planning Department recommends the requested variances be **DENIED**.

This application is reviewed pursuant to Section 90-391 through 90-397 of the City of Key West Land Development Regulations (LDRs). The City's LDRs can be found in the Code of Ordinances online at http://www.municode.com/Library/FL/Key_West under Subpart B.

*Please note, variances are reviewed as quasi-judicial hearings, and it is improper for the owner or applicant to speak to a Planning Board member or City Commissioner about the hearing.

Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

- 1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

EXISTING BUILDING HAD A PROBLEMATIC FLAT ROOF WITH
VERY LITTLE HEAD CLEARANCE INTERIOR OF STRUCTURE
RAISED ROOF HEIGHT AND ADDED A PITCHED ROOF. (SEE DRAWINGS + PHOTOGRAPHS)

- 2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

- 3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

- 4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

- 5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."
