

Staff Report

- 9a Rebuilt front porch and stair, replace rotted wood siding with same and built deck on the back- **#804 Truman Avenue – Fairbank Construction Inc. (H11-01-1157)**

The house located on #804 Truman Avenue is listed as a contributing resource in the survey. The house is a one story frame structure and was built in 1928. Many of the architectural component elements of the front porch exhibits decay due to neglect. The plans propose the restoration of the front porch elements using wood members that will replicate the existing ones. The non historic front steps will be replaced with wood ones. The plans also include the replacement of rotted wood siding with similar one and the construction of a 6' by 13' back wooden deck. No changes to doors or windows are proposed on these plans.

Guidelines that should be reviewed for this application;
Entrances, porches and doors (pages 32-33);

(7)Porch reconstruction on contributing buildings must duplicate the original entryway and porch and be compatible in design, size, scale, material and color with the historical character of the building.

For the deck (pages 39-40 of the guidelines);

(4) The proportion of decking, patio or pool dimensions shall not exceed fifty percent of the total lot minus the building footprint.

The historic house is in need of repairs. The plans propose the rebuild of existing deteriorated elements of the front porch. The replacement of the non historic concrete steps with wooden ones will be a more appropriate solution to such deteriorated steps. The proposed deck to be located on the back of the house will not exceed the 50% of the total lot minus the building footprint.

It is staff's belief that the proposed plans are consistent with the guidelines.

Application

**CITY OF KEY WEST
BUILDING DEPARTMENT
CERTIFICATE OF APPROPRIATENESS**

APPLICATION # 11-01-1157

OWNER'S NAME: Norman + Kristina Turner DATE: 8/29/11

OWNER'S ADDRESS: 804 Truman Ave, Key West PHONE #: 804-384-1560

APPLICANT'S NAME: Fairbank Const. Inc. PHONE #: 292-6584

APPLICANT'S ADDRESS: 516 white st., Key West, FL. 33040

ADDRESS OF CONSTRUCTION: 804 Truman Ave. # OF UNITS: 1

THERE WILL BE A FINAL INSPECTION REQUIRED UNDER THIS PERMIT

DETAILED DESCRIPTION OF WORK: Re-build wood front porch + stair
Remove and replace 6 courses of wood lap siding.
Demolish rear most addition - walls + roof - floor framing to remain
as deck framing

Chapter 837.06 F.S.-False Official Statements – Whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his or her official duty shall be guilty of a misdemeanor of the second degree punishable as provided for in s. 775.082 or 775.083

AGG 29 2011

MC 7:10

This application for Certificate of Appropriateness must precede applications for building permits, right of way permits, variances, and development review approvals. Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Key West's Historic Architectural Guidelines.

Once completed, the application shall be reviewed by staff for completeness and either approved or scheduled for presentation to the Historic Architectural Review Commission at the next available meeting. The applicant must be present at this meeting. The filing of this application does not ensure approval as submitted.

Applications that do not possess the required Submittals will be considered incomplete and will not be reviewed for approval.

Required Submittals

TWO SETS OF SCALED DRAWINGS OF FLOOR PLAN, SITE PLAN AND EXTERIOR ELEVATIONS (for new buildings and additions)
TREE REMOVAL PERMIT (if applicable)
PHOTOGRAPHS OF EXISTING BUILDING (repairs, rehabs, or expansions)
PHOTOGRAPHS OF ADJACENT BUILDINGS (new buildings and additions)
ILLUSTRATIONS OF MANUFACTURED PRODUCTS TO BE USED SUCH AS SHUTTERS, DOORS, WINDOWS, PAINT COLOR CHIPS, AND AWNING FABRIC SAMPLES

NOTES

Sheet Number:

A0.1.2

Date: August 26, 2011

©2011 by mbi | k2m Architecture, Inc.

GENERAL NOTES:

CODES, PERMITS, AND REGULATIONS:

- Contractors are responsible for securing all building permits required by local governing authorities.
- Contractors shall meet all local, county, state and federal regulations of demolition, safety, and sanitary precautions during building operations.
- All work shall comply with applicable codes, amendments, rules, regulations, ordinances, laws, orders, approvals, etc., that are required by public authorities. In the event of conflict, the most stringent requirements shall govern. Requirements include, but are not necessarily limited to, the currently applicable editions or publications of the following:
 - Florida Building Code.
 - All local and Municipal Codes.
- Verify field conditions prior to commencement of each portion of the work. Coordinate all site requirements, issues and utilities.

OWNERSHIP OF DRAWINGS AND CONTRACT ITEMS:

- The contract documents are instruments of service and shall remain the property of the architect whether the project for which they are prepared is executed or not. The contract documents are not to be used by the owner for other projects or extensions to the project nor are they to be modified in any manner whatsoever except by agreement in writing and with appropriate compensation to the architect. If copies are required notify the architect.
- The contract documents consist of the following:
 - Drawings and specifications
 - Any and all addenda
- If at any time before commencement of work, or during progress thereof, contractor's methods, equipment or appliances are inefficient or inappropriate for securing quality of work, or rate of progress intended by contract documents, owner may order contractor to improve the quality or increase their efficiency. This will not relieve the contractor of his sureties from their obligations to secure quality or work rate of progress specified in contract.
- The contractor shall coordinate all portions of the work as described in the contract documents. Notify the architect and tenant in writing for resolution of all discrepancies prior to construction.

GENERAL COORDINATION OF DRAWINGS:

- Contractors shall verify that no conflicts exist in locations of proposed walls. Coordinate all mechanical, data, electrical, plumbing and sprinkler equipment to be removed, relocated, or installed (Items to include are all piping, duct work, structural members and conduit; and existing conditions). Verify that all required clearances for installation and maintenance of above equipment are provided. Elements to be exposed or concealed shall be determined and reviewed with owner prior to construction pending.

- Contractors and subs shall coordinate the layout and exact location of all partitions, doors, accessories, electrical / data outlets and light switches with architectural drawings in the field prior to proceeding with construction.
- The finished work shall be firm, well anchored, in true alignment, plumb, level, with smooth, clean, uniform appearances without waves, distortions, hole marks, cracks, stains, or discoloration. Jointing shall be close fitting, neat as well scribed. The finish work shall have no exposed unsightly anchors or fasteners and shall not present hazardous, unsafe corners. All work shall have the provision for expansion, contraction, and shrinkage as necessary to prevent cracks, buckling and warping due to temperature and humidity conditions.
- Attachments, connections, or fastenings of any nature are to be properly and permanently secured in conformance with best practice and the contractor is responsible for providing them accordingly and to these conditions. The drawings show only special conditions to assist contractor. They do not illustrate every detailed connection.
- The contractors are responsible for verifying the dimensions and elevations of existing conditions at the site. The contractors and subs shall coordinate the layout and exact location of all items in the field before proceeding with construction.
- It is the responsibility of the contractors to coordinate and schedule all deliveries and disposal coordination with the owner.
- Each contractor shall check and verify all dimension at the job and shall be responsible for the proper fitting of his/her work there to.
- All existing materials, equipment, and construction are identified on drawings by the words "existing" or "exist". Unless stated otherwise, all notes refer to new materials, equipment, and construction installed under each contract.
- Material indications, notes, and etc. are typical for all contract drawings (uno) unless noted otherwise.
- Align means similar components of construction, i.e. walls, jams, etc. shall be in line across voids.
- These drawings are complementary and interrelated; work of any individual trade is not necessarily confined to specific documents, chapters or locations.
- It is the intent of the contract documents to be designed in accordance with all codes and ordinances in effect at the time the permit is issued. Notify architect immediately upon discovery of suspected deviation.
- Construction techniques, procedures, sequencing and scheduling are solely the responsibility of the contractor.
- DO NOT SCALE DRAWINGS:** use dimensions only. All dimensions must be verified on the job and the architect must be notified of any discrepancies before proceeding with the work.
- It is the intent of the documents and requirements of all contractors to bid and provide a completely waterproof building envelope. Report to architect any condition that would prevent this immediately.
- Coordinate locations and/or elevations of floor drains, registers, grilles, louvers, ducts,

- unit heaters, panels, etc. with mechanical and electrical contractors and architectural drawings.
- Blocking at openings, doors and windows shall be 2x materials. At wall mounted equipment locations, use 1/2" plywood sheet material.
 - Where a detail is shown for one condition, it shall apply to all like or similar conditions, even though not specifically marked on the drawings.

DIMENSIONAL COORDINATION OF DRAWINGS:

- Do not scale drawings; dimensions govern. Verify dimensions with field conditions. If discrepancies are discovered between field conditions and drawings or between drawings, contact the architect for resolution before proceeding.
- Horizontal dimensions indicated are to / from finished face of construction, except as noted.
- Vertical dimensions are from top of floor slab, except where noted to be from above finished floor (a.f.f.).
- Dimensions are not adjustable without approval of the architect unless otherwise noted on drawings.
- Any dimension noted "verify" or "verify in field (vif)" must be reviewed with the architect before beginning construction.
- Dimensions indicated to be "clear" shall be maintained. Any discrepancies or variations in these dimensions shall be reviewed with the architect before proceeding with work in the questionable area.

PATCHING, REPAIR AND CONSTRUCTION:

- Contractors are responsible for and shall provide protection for any existing finishes.
- Cut and fit all new components etc. for alteration of existing conditions and installation of new work. Contractor to patch and repair all disturbed areas to match adjacent materials and finishes.

SCHEDULING ITEMS:

- Contractor shall order and schedule delivery of materials in ample time to avoid delays in construction. If an item is found to be unavailable or have a long lead time, contractor shall notify the architect immediately.

GENERAL DEMOLITION NOTES:

SCOPE OF DEMOLITION

- The existing condition / demolition drawings are intended as a general guide to the demolition required for the project. Demolition is not shown in complete detail and it shall be the responsibility of the demolition contractors to remove existing construction as required to accomplish the new design intent and / or work shown on reasonably implied for the construction of the Project. The Contractor shall refer to the Work shown on all other drawings in the set for the extent of demolition required to perform Work intent.

GENERAL CONDITIONS

- All Contractors are required to visit the job site to verify existing conditions and dimension prior to beginning any work. Notify Architect / Owner as soon as possible of any discrepancies for resolution of the issues(s) prior to beginning of any Work.
- Typical: Demolition Contractor and/or General Contractor are to remove all existing items shown on plans including all mechanical, electrical, plumbing, and fire protection items associated with the demolition.
- Access to the work site is to be coordinated with the Owner.
- The site must remain secure during demolition and construction. Each phase of the project is to be coordinated with Owner.
- Contractor is responsible for removal of all debris; location of dumpsters/trucks shall be coordinated with Owner and City.

HEALTH, SAFETY, AND WELFARE

- The Contractor shall take all necessary precautions during demolition and construction to protect and maintain the integrity and operation of existing or temporary life safety and egress areas required by the local authority governing this project.
- The Contractors are responsible for the removal of all demolition and construction debris generated from work and shall not remain exposed for more than twenty-four (24) hours, taking care to protect overloading the floor assembly and protection of adjacent existing construction and finishes.
- During demolition, the Contractor(s) shall take all precautions necessary to prevent structural damage to the buildings existing walls, or interrupt power and lighting without notification.
- All items indicated to be removed and items not indicated to be reused shall be disposed of properly by the Contractors as agreed upon and directed by the Owner or their Agent in conjunction with building management.

SAFETY AND CONVENIENCE.

SAFETY EQUIPMENT

- The Contractor shall not cause any condition to exist which might be deemed to be hazardous to vehicular traffic, pedestrians, or occupants near or within the premises.
- Building shall be maintained weather proof at all times. In the event of extreme weather events, all openings shall be secured with 3/4" plywood.

SAFE ACCESS BY FEDERAL, STATE, AND LOCAL GOVERNMENT AUTHORITIES

- Authorized representatives of the state, federal, or local government agencies, shall at all times have safe access to the work, and the Contractor shall provide proper facilities for such access and inspection.

PROTECTION OF PROPERTY

- Notify property owners affected by the demolition at least 48 hours in advance of the time demolition begins. During construction operations, maintain conditions, as may be required, to provide access by all tenants. No property unless the Contractor has made special arrangements with the affected persons/property.
- Materials shall be stored on site or in sealed, weatherproof, secure containers. No materials may be left within the building other than the area under renovation.
- Premises shall be cleaned on a daily basis inclusive at area of work and all interior and exterior "paths of travel".
- No smoking is allowed within the building or exterior areas immediately adjacent to property.

ACCESS FOR POLICE AND FIRE

- Notify the Police and Fire Departments before closing any streets. Do not proceed to close street without express permission from these departments.

PROTECTION OF THE ENVIRONMENT

PROTECTION OF SEWERS

- Take adequate measure to prevent the impairment of the operation of the existing storm and sanitary sewer systems. Prevent construction material, pavement, concrete, earth, or other debris from entering a sewer or storm structure.

NOISE CONTROL

- The Contractor shall conduct all his/her work so as to have the least possible affect on neighbors.
