

# Historic Architectural Review Commission

## Staff Report Item 5b

---

<b>Meeting Date:</b>	August 27, 2013
<b>Applicant:</b>	Peter Pike, Architect
<b>Application Number:</b>	H13-01-618
<b>Address:</b>	#430 Duval Street
<b>Description of Work:</b>	Major Development Plan. Demolition of existing rooftop structure on top of La Concha building. Elevator's shaft will not be demolished.
<b>Building Facts:</b>	<p>La Concha hotel was originally listed as a contributing resource in the 1977 Survey. The Mediterranean revival hotel was built circa 1925. The building is the tallest structure in the historic district and it is unique on its architectural style.</p> <p>Between the 1950's and before 1962 a rooftop bar was built over the building and facing south. The hotel was closed for many years until it was re-open in the 1970's when it served as living quarters for the construction crew that was working on the reconstruction of US1. In 1986-87 the hotel experienced extensive renovations; including the construction of a new meeting room and bar facilities, which are still standing today on the rooftop. There are no existing elements of the original bar that once was known as the Top Bar.</p> <p>Currently the rooftop structure serves as a bar and meeting room. Over the roof and on the elevator's shaft walls there are several telecommunication antennas and related equipment, as well as air conditioning units that are visible from the streets.</p>
<b>Guidelines and Ordinance Cited in Review:</b>	Ordinance for demolition; Land Development Regulations Sec. 102-217, (2) for non-historic/ non-contributing structures.

### **Staff Analysis**

The Certificate of Appropriateness for review proposes the demolition of a non-historic structure that does not contribute to the historic character of La Concha building. Although staff has not been able to find a specific date when the original La Concha rooftop bar was built, for sure the structure was demolished in the mid 1980's. With the renovations the hotel underwent in the 1980's the actual rooftop space was built.

The existing elevator's shaft, which is original to the historic fabric, will not be demolished.

### **Consistency with the Ordinance for Demolition**

1. The proposed demolition of the rooftop structure at La Concha Hotel can be considered by the Commission since the structure that exists today is not historic nor can it be considered contributing to the building in a near future.

It is staff's opinion that the proposed demolition is consistent with the ordinance for demolition for non-historic and non-contributing structures. The proposed structure to be demolished is less than 50 years old and is not an integral element to the historic fabric; if demolished the historic character of the building will not be affected. If the request is approved there will be just one reading for the proposed demolition.
