GFI Price Quotation Summary Terms & Conditions: All prices are valid for 30 days unless otherwise noted above. Delivery will be made within 120 days ARO unless other dates are quoted above. Payment terms are Net 30 days after delivery and based on GFI customer credit acceptance. Warranty is (1) year from installation date or (14) months from shipment for new system equipment, whichever comes first. All warranty items must be directed to GFI for acceptance and disposition, not through OEM Bus Manufacturing Companies. Prices do not include any state or local taxes unless specifically listed. Tax is based on shipment and/or invoice date not quote and/or purchase order date. Quotation is FOB Elk Grove, IL and freight charges are not included. All price quotations are submitted in accordance with standard GFI terms and conditions which are available on request.

Data System 7 version 2.04 Feature Summary

This list describes some of the key features of the GFI Data System/Network Manager/VIP software version 2.04 release:

1. Faster operation for most queries
2. Application facelift (all front-end application interfaces have been modernized for user friendliness)
3. Report scheduling (i.e. user can identify a time to run a particular report while the user is not in the office to eliminate waiting time for long reports),
4. Automated email notification for certain events
5. Double the number of reports (operational, transaction, reconciliation, analytical, etc.)
6. Can save graphs as PDF or export data to Excel for further processing and report generation
7. The Network Manager supports Sybase Adaptive Server Anywhere 9, Oracle9i/10g, and Microsoft SQL Server 2005
8. Security enhancements (Integrated login, sophisticated password policies and user/group control, lockout control, detailed security/audit log, and puller control)
9. Multi-transit authority support (physical or virtual) and authority/garage access control
10. Dynamic translation and language toolset (language/phrase hooks have been embedded to frontend apps so that additional languages can be supported with minimum effort)
11. Locale support (display formats for date, time, and money are dependent on users' regional settings)
12. GFI parts end of life alert (alarm manager)
13. Enhanced money room operation automation applications
14. Configuration tools and wizards
15. Database rebuild tools

The following new features may require a farebox upgrade in order to function; the previous functions are all available with any GFI Genfare farebox:

1. Multi-fare structure support (future fare structures can be pre-configured and implemented automatically)
2. Increase of maximum fare value to \$655.35 (previously max of \$39.99)
3. Special card support and badlisting (can be used for university or other special cards, previously only transit issued cards were accepted or badlisted)
4. Security enhancements (Route/Driver list download)

For additional details please consult the Data System 7 Service Manual #M-25682-2.04V or Network Manager 7 Service Manual #M-25692-2.04V.
