

Historic Architectural Review Commission
Staff Report for Item 9

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: June 27, 2017

Applicant: One Call Construction

Application Number: H17-03-0011

Address: #1000 Southard Street

Description of Work:

New accessory structure and new rear IPE deck.

Site Facts:

The main structure in the site is a contributing resource to the historic district. The house was included as a contributing resource in the 1982 survey, done by the State Historic Preservation Office for the expansion of the historic district. The historic house sits on the southeast corner of Southard and Grinnell streets. According to the Property Appraiser's records, the one-story frame house was built in 1948. The house has a unique high pitch hip roof with exposed rafter's tails and historically had weatherboard as siding. The Sanborn maps from 1948 and 1962, as well as a circa 1965 photograph depicts a very similar footprint and front façade of the house that still on the site. In 2015, the Commission approved the installation of new impact resistant windows, and side sliding doors. By that same time, the Commission denied a request for not contributing value for the house.

Staff was able to find several building permits, Board of Adjustment variances approvals, and HARC application approvals while researching city documents of the property:

- On 1992, the building department issued a permit for replacement of existing foundations.

- On 1995, the board of adjustment granted a variance to build an 8' high fence, 6 feet solid and upper two feet open. HARC and building department approved the plans.
- On 1999, the board of adjustment granted a variance to build a back addition for a bathroom. HARC and building department approved the plans.

US Secretary of the Interior's Standards and Guidelines for Rehabilitation and Guidelines Cited in Review:

- USSOIS and Guidelines (pages 16-23), specifically Standard 9 and Guidelines for Building Site (pages 31-33), specifically page 33;
Not Recommended- Introducing a new building or site feature that is out of scale or otherwise inappropriate.
- Decks (pages 39-40), specifically guideline 1.
- Outbuildings (pages 40-41), specifically first two paragraphs of page 40, guidelines 1, 4, 9, 10 and 11.
- New Construction (pages 38a- 38q), specifically guidelines 1, 2, 6, 11, 12 and 14.

Staff Analysis

The Certificate of Appropriateness in review is for the construction of a porch structure that will be located at the east side of the main house. The structure will be detached from the house approximately 6 inches and will be made of wood and will have louvers on its upper portion and under the roof. Although the proposed structure will be lower than the main house, it will be higher than the eave line of the house. The structure will be visible from Southard Street. One of the character defining features of the main house is its high-pitched hip roof and the predominant eave lines with the exposed rafter's tails. The proportions of the proposed structure in contrast with the main house are out of balance as the structure is higher than the exterior walls of the house. The structure will be built over an existing deck that is approximately 28 inches tall and will extend approximately up to 13'-3 3/4" on its highest point.

The proposed design also includes the removal of existing pool decking material and installation of IPE decking boards.

Consistency with Guidelines

It is staff's opinion that the proposed structure is inconsistent with the cited SOIS and guidelines and HARC guidelines. The proposed scale and proportions as well as the location of the structure are inappropriate, as it will be located close to the main façade of the house and visible from the street. By walking the street, you can find no accessory structures located immediately next to a main house nor visible from the street.

Staff finds the request to replace the existing pool decking boards with IPE appropriate.

APPLICATION

HARC POSTING AFFIDAVIT

STATE OF FLORIDA:
COUNTY OF MONROE:

BEFORE ME, the undersigned authority, personally appeared Jennifer Kern, One Call Const who, first being duly sworn, on oath, depose and says that the following statements are true and correct to the best of his/her knowledge and belief:

1. That a legal notice for Public Notice of Hearing of the Historic Architectural Review Commission (HARC) was placed on the following address: 1000 Southard Street, Key West FL 33040 on the 20th day of June, 2017.

This legal notice(s) contained an area of at least 8.5"x11".

The property was posted to notice a public hearing before the Key West Historic Architectural Review Commission to be held on June 27th, 2017.

The legal notice(s) is/are clearly visible from the public street adjacent to the property.

The Certificate of Appropriateness number for this legal notice is 17-03-011.

2. A photograph of that legal notice posted in the property is attached hereto.
