From: Enid Torregrosa-Silva, MSHP

Meeting Date: January 24, 2023

Application Number: H2022-0057

Address: 217 Eanes (Eneas) Lane

Description of Work

Renovations to existing house. One-story rear side addition. New accessory structure and pool. Site improvements.

Site Facts

The building under review is a contributing resource to the historic district. Built circa 1948, the one-story cbs house has a rear addition that has been altered through times. The rear addition extends the width of the house towards the northeast side and was rebuild with new materials in 2019 as part of some renovations. In 2020 two sheds, located at the rear of the property were declared unsafe by the CBO and were demolished.

Guidelines Cited on Review

- Guidelines for Additions (pages 37a-37k), specifically guidelines 1, 5, 6, 11, 12, 13, 14, 19, 22, and 26.
- New construction (pages 38a-38q), specifically guidelines 1, 2, 5, 12, 13, 18, 22, 23, and 25.
- Decks, patios, hot tubs, spas, pools, and related equipment (page 39a), specifically first paragraph and guideline 1.
- Outbuildings (pages 40-41), specifically guidelines 1, 3, and 9.
- Fences and walls (pages 41-42), specifically guidelines 1, 3, 4, and 9.

Staff Analysis

A Certificate of Appropriateness is under review for a new one-story to be attached on the northeast side of the house, where the bump-out is located. The plan also includes a small, covered porch will serve as an entrance to the addition. Structural elements of the entry porch will be all wood. The new structure will be setback from the front property line approximately 37'-5" and will have a front gable roof. Exterior walls will have horizontal hardi board siding, aluminum windows, and 5 v-crimp metal panels as the roof finish.

In addition, a new accessory structure rectangular in footprint is proposed on the northeast corner of the lot. The structure will have a side gable roof finish with 5 v-crimp metal panels. Exterior wall will be finish with horizontal hardi board and windows and doors will be impact aluminum units. The plan includes a pool that will be located behind the house and 6-foot-tall gates will be located next to the house, towards the north.

Consistency with Guidelines Cited Guidelines

It is staff's opinion that the proposed design conforms with cited guidelines. The proposed addition will be attached to the rear side of the house and setback from the front property boundary. The scale, mass and proportions of the new addition and accessory structure are in keeping with similar land use structures within the area and will not overshadow the principal structure. The proposed pool will be at the rear and behind the house and new gates will provide control access to the side and rear of the property.
