From: Jim Singelyn  
Acting Planning Director

Subject: **Request for an Easement Agreement at 417 Elizabeth Street Rear (RE # 00006190-000000)**

---

### **Introduction**

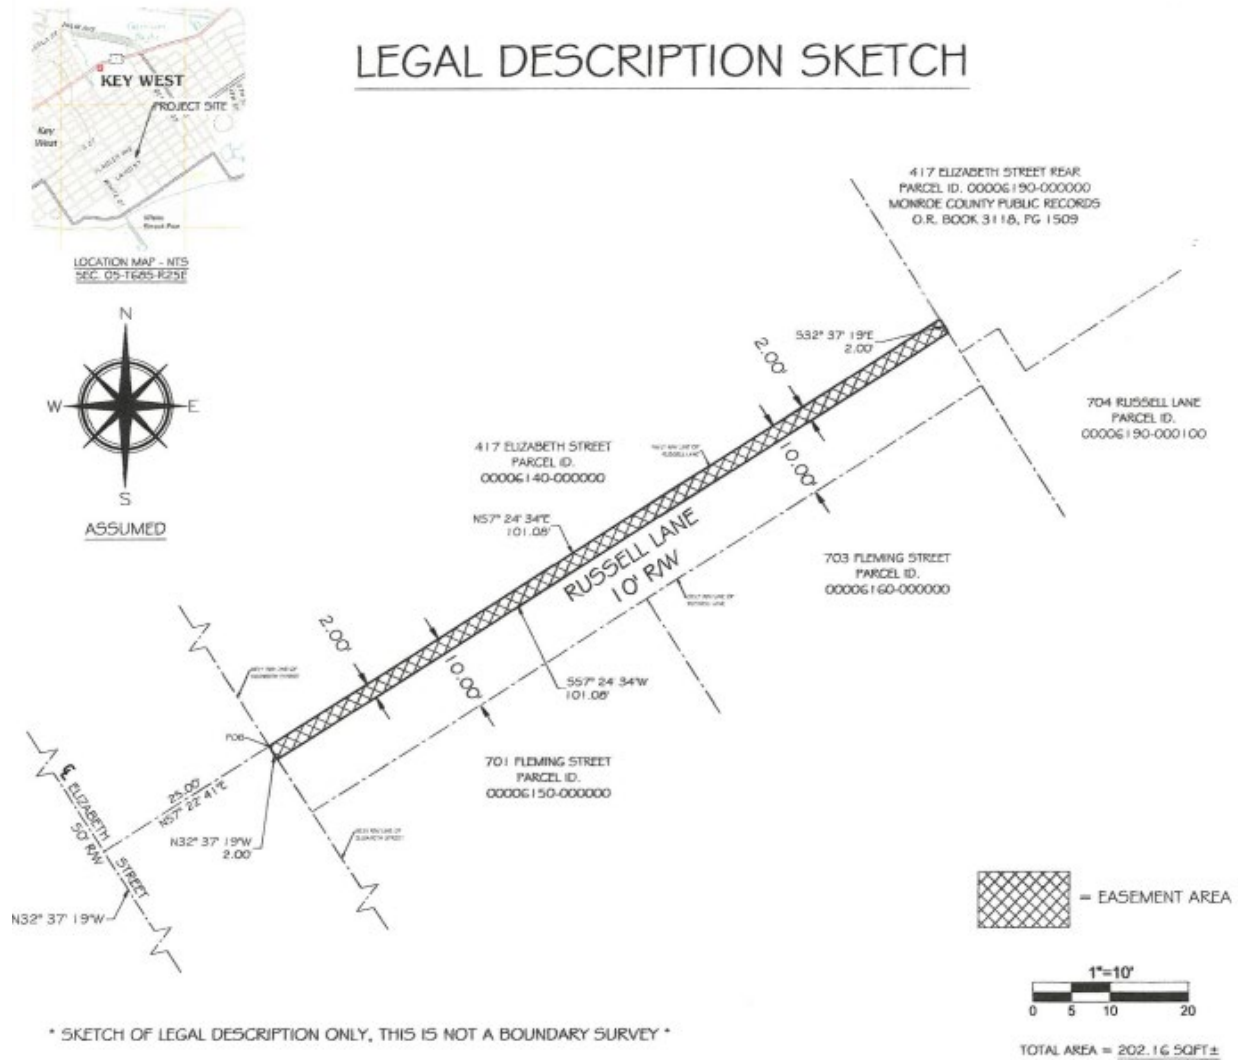

The subject application involves a request for an easement of approximately 202 square feet to install two (2) water lines on a portion of the public right-of-way.

The property located at 417 Elizabeth Street Rear is currently improved with a two-story residential structure within the Historic Medium Density Residential District. The City Commission is authorized to consider the granting of an easement pursuant to Chapter 2 (Administration), Article VIII (City Property) Division 3 (Real Property Disposition).

Sec. 2-938 (Easements) states, in part, that the “*City may grant an easement over any lands or interest therein owned by the city or any city agency.*” According to Sec. 2-938 (b), “*If the City grants an applicant's request for easement over any lands owned by the city or any city agency, the applicant shall pay an annual fee to the city. The annual fee shall be prorated based on the effective date of the easement.*”

### **Background**

The applicant is currently using well water and seeks to connect to the main water line. In coordination with FCAA, the City’s legal department, and the utilities director, it was determined that an easement is necessary to install the required water lines. Since the installation involves structural improvements within the right-of-way, it is required that there is approval of an easement from the City Commission.
