

Agenda Items for BVRAC Meeting, 1 May 2014

Agenda Item: Project status update - Community Garden Project (2013 funding) (10 min)

Review and discuss the project, as approved when it received funding from BVRAC, what has been accomplished, what has changed, what are the issues (if any), what is scheduled to completion and when is it to be done.

Note: We are specifically interested in having the organization who received the funding present to the committee what was accomplished with the funding BVRAC provided (before and after pictures please) and what were the resulting benefits to Bahama Village residents.
