

**Historic Architectural Review Commission
Staff Report for Item 12**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Enid Torregrosa, MSHP
Historic Preservation Planner

Meeting Date: May 28, 2019

Applicant: A2O Architecture

Application Number: H2019-0012

Address: #818 Olivia Street

Description of Work

Relocation of existing house forward on site. Rebuild of rear non-historic additions and new rear addition. New footings 1 foot taller than existing ones and relocation of shed.

Site Facts

The building under review is a contributing resource to the historic district. Built circa 1890, the one-story frame vernacular house has an unusual large front yard. The original house consisted of two sawtooths with a transverse rear structure attached at the center of house. Towards the east side of the rear portion of the house there used to be an open porch. New additions on the rear portion of the house have altered the building's historic form. Almost all of the houses on the block have a small front porch.

The plan will require variances from front yard setbacks.

Guidelines and Ordinances Cited on Review

- Foundations (page 34), specifically guideline 4.
- Guidelines for Additions (pages 37a-37k), specifically guidelines 1, 6, 11, 12, 13, 14, 19, and 22.
- New construction (pages 38a-38q), specifically guidelines 1, 2, 14, 17, 18, 22, and 23.
- Chapter 102- Section 252- Requirements precedent to relocation.

Staff Analysis

A Certificate of Appropriateness is under review for a new rear addition that will replace an existing non-historic one, and will extend further towards the rear yard. The plan also includes the relocation of the house towards the front yard and new foundations. In addition, an existing shed will be attached to the new rear addition, towards the west side.

In order to accommodate the new addition the design includes the salvage of portions of the historic rear transverse roof. The new addition will be rectangular in footprint, and will have the same height as the existing second sawtooth. New exterior walls are setback from the original ones, and will be finished with hardi board and batten. The new roof is finished with metal v-crimp and three skylights are proposed towards the north side; not visible from the street. New windows for the addition will be impact aluminum clad units.

The plan also includes the relocation of the house approximately 9'-1" towards the front yard and new concrete piers that will elevate the house one foot from its current height. Architects had consulted the Urban Forester Manager pertaining relocation of landscape at the front yard.

Consistency with Guidelines Cited Guidelines

It is staff's opinion that the proposed design meets the cited guidelines and ordinance. The relocation of the building will provide a cohesive urban façade on the block while allowing a small addition in the back of the house. The proposed design is appropriate in character, scale, and proportions. Moreover, the proposal will not overshadow the principal structure on the site nor the surrounding historic houses.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Rebuild non-historic additions & roof @ rear. Move historic structure forward on site w/ new foundations. Demo foundations & cistern.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

The proposed area of Demolition is a non-historic addition, enclosure & facade w/ non-original or historic windows & doors; also area is so greatly modified it does not resemble the original historic configuration.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

No evidence has been found to suggest this.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

As the house stands today, it has no significant character to the city, as it is hidden from view. Proposed demo is also non-historic.

(d) Is not the site of a historic event with significant effect upon society.

No known historic event occurred at this location.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

No.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Area of work does not.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

No.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

This structure has no presence in the neighborhood, nor is it the best remaining type in the area.

(i) Has not yielded, and is not likely to yield, information important in history.

No.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

Area of Demo is not character defining to the whole structure, nor neighborhood. Proposed work enhances character & proportions.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

Proposed work improves the historic relationship between buildings, and improves the setbacks between structures on adjacent properties.

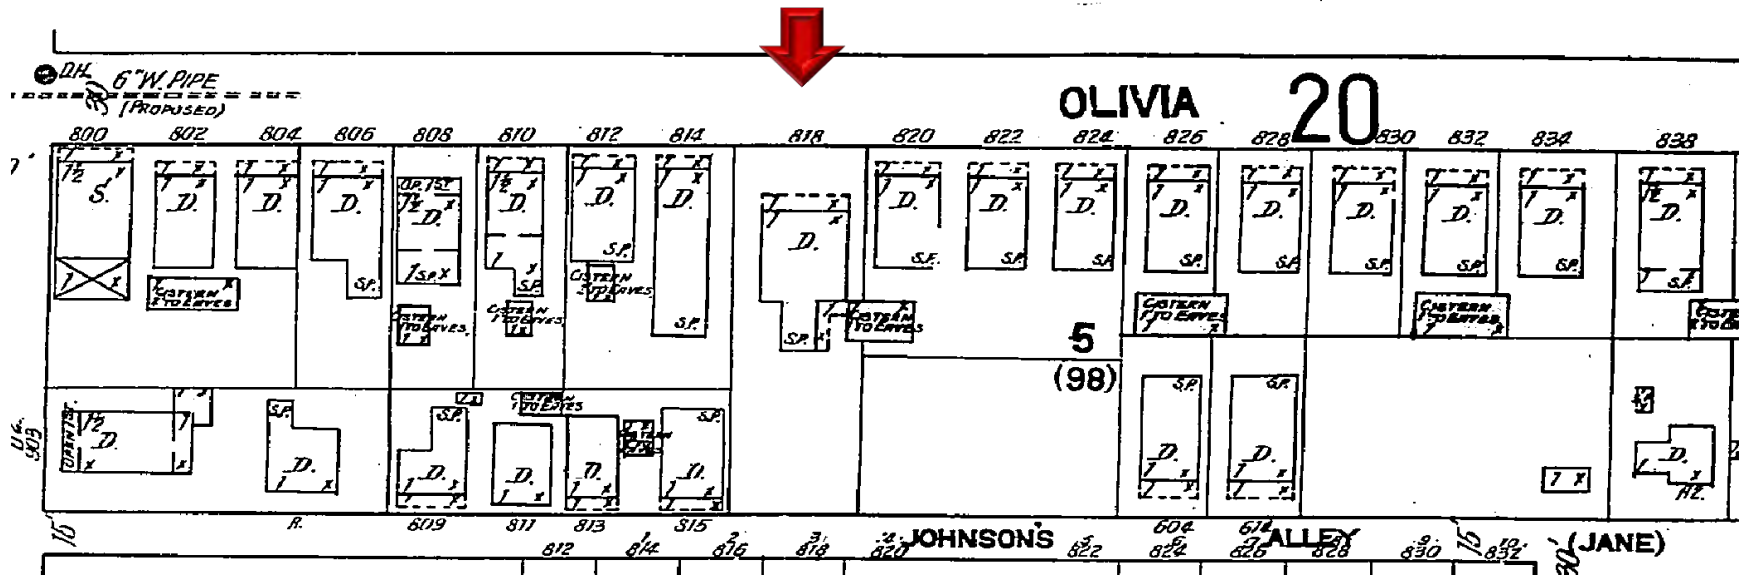

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

Areas of Demo are not character defining; proposed work will improve the properties historic character, both within the site, & the neighborhood.

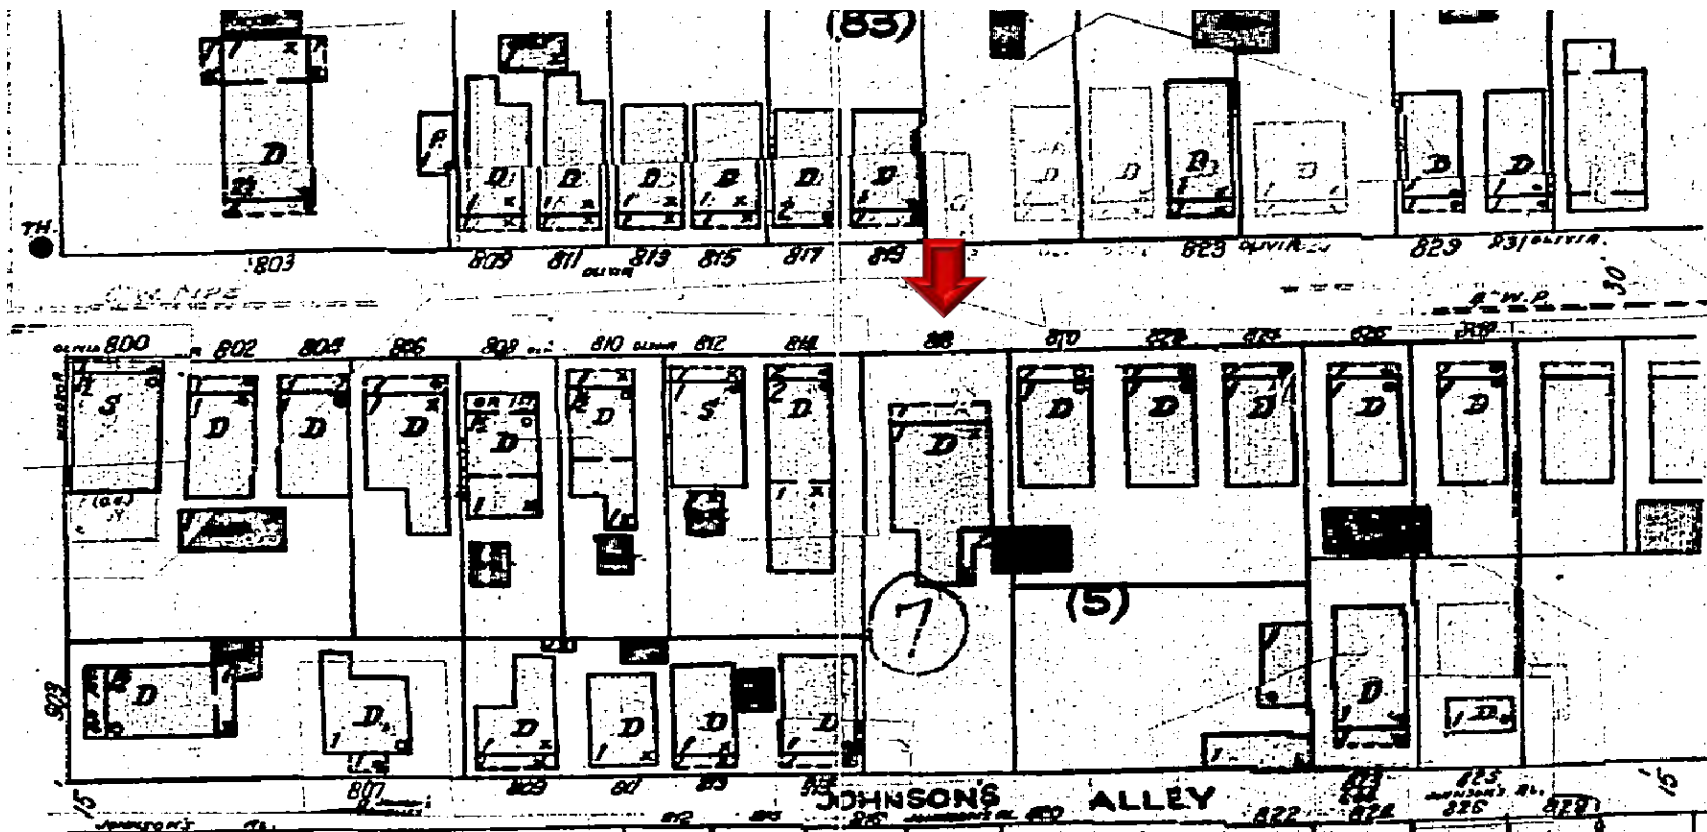

(4) Removing buildings or structures that would otherwise qualify as contributing.

Area of Demo is non historic & not a significant addition to be considered contributing.
