

MEMORANDUM FOR THE FILE

DATE: November 30, 2011

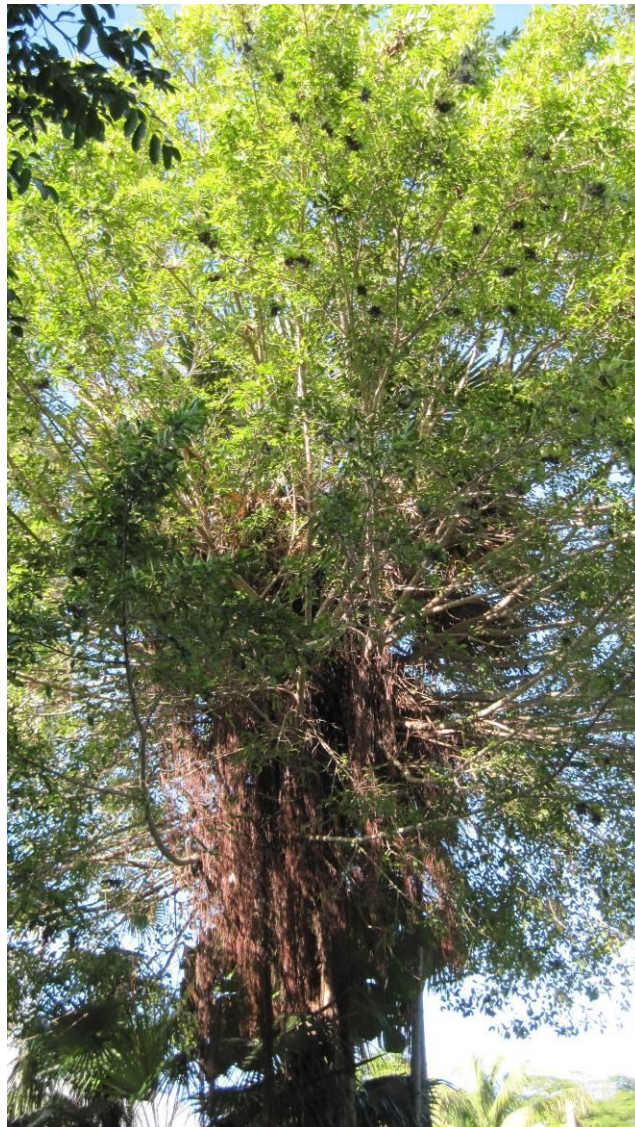

RE: 608 William Street

FROM: Karen DeMaria, Interim Urban Forestry Manager, City of Key West

NOTE: the wrong address was listed on the application

An application was received for the removal of two trees: one (1) Strangler Fig growing around one (1) Sabal Palm. A site inspection was done on November 29, 2011 and documented the following:

1. Tree Species: Cabbage Palm, Sabal palmetto ---replace with one native palm

608 William St. cont...page 2

2. Tree Species: Strangler Fig, *Ficus aurea*

Circumference: 77" around cabbage palm = 38.5" circumference for *Ficus* = 12.26" dbh

Location: 50% (Very close to house.)

Species: 100% (Tree is on the protected tree list.)

Condition: 80% (The tree itself appears to be in good health growing around the palm tree.)

Total Average Value = 77%

608 William St cont...page 3

Value x Diameter = replacement caliper (dbh) inches .77 x 12.26" = **9"**
