CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dragonfly Boatworks is a manufacture of inshore boats which depend on clean water for people to enjoy the pristine waters around Florida. The decision to allow these larger ships into the Key West Harbor is a slap in the face of what the good people of Key West already know and have passed laws to prevent this from happening.. Please do not let this injustice to happen.
