BACKGROUND

ABC Construction Inc. was established in 1990 in the State of Florida. It has been dedicated to quality and has grown to become one of South Florida's best construction companies. Since its inception, ABC Construction has built some of the finest residences, commercial properties and government projects.

One of the most important attributes of this company is the referral received from clients and professionals. Jorge Gonzalez, President and General Contractor of the company states, "The most important part of my work is customer satisfaction; it is the root of our business" and "because of them, we have grown tremendously". The company does not advertise and its client and job base is almost strictly by word of mouth. "This is the best reward for a job well-done", says Mr. Gonzalez. "Without the approval and referral of my clients and colleagues", we would not be here today.

ABC Construction offers a broad range of construction services including high-end custom houses, medium and high rises, retails and commercial shopping centers, airport facilities, demolition, etc. Projects completed include residences built for discriminating clientele such as diplomats and professionals as well as projects in Miami International Airport under the supervision of Miami-Dade Aviation Department for the South and North Terminal Development Programs, renovations for the State of Florida, construction of parks and recreational centers with Miami-Dade County Parks and Recreations. From high-end and custom homes to commercial construction and demolition, ABC Construction, Inc. is one of the most reliable General Contractors in Florida. The company strives to make the project run smoothly from start to finish. Its attention to detail is obvious when walking into a residence or even a demolition project. The workplace is kept clean and the work is completed in a safe and timely manner. 'All of these attributes are what have made ABC Construction, Inc. so successful all of these years'.

ABC Construction is proven a construction company that has established a "can do it well and on time" reputation required of a modern company who partners with their subcontractors and clients. We are a fully licensed, insured, and bonded corporation with demonstrated financial resources, which pride ourselves in our performance in safety, environmental, quality standards, and project management.

HEALTH & SAFETY QUALITY ASSURANCE & QUALITY CONTROL INFORMATION

Health & Safety

Safety is an integral part of our culture. Our Safety Program entails all aspects of safety awareness from general policies, operating practices and procedures, to job-specific training, project planning and hazard analysis. Our obligation for a safe and productive job site requires the understanding, commitment and action by every project team member. The prevention of occupationally induced injuries and illness is of such consequence that it will be given precedence over operating productivity when necessary. To the greatest degree possible, management will provide all mechanical and physical facilities required for personal safety and health in keeping with the highest standards. We will maintain a safety and health program conforming to the best practices of organizations of this type.

Safety Philosophy

ABC Construction's objective is a proactive program implementation that will reduce all safety-related losses to an absolute minimum surpassing the best experiences of operations similar to ours. Our goal is no zero accidents and injuries. It is to be on the left side of zero, managing prevention efforts instead of accidents.

Quality Assurance

The quality and validity of results can only be as good as the quality of data from which they are derived. In order to achieve the highest standards, we go above and beyond to insure quality assurance in our work. All members of ABC Construction are highly qualified and experienced in construction implementation processes. ABC Construction's high standard of reporting back to our clients is our trademark. After our review, you will receive instructions as to how you should proceed, if necessary. Failure to comply will result in action to remove your firm's DBE certification.

It is strongly recommended that you register your firm as a vendor with Miami-Dade County. To register, you may visit: <http://www.miamidade.gov/procurement/vendor-registration.asp>. Thank you for your interest in doing business with Miami-Dade County. If you have any questions or concerns, you may contact our office at 305-375-3111 or sbdcert@miamidade.gov.
