

**Historic Architectural Review Commission
Staff Report for Item 18**

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: October 23, 2018

Applicant: William Rowan

Application Number: H18-0010

Address: #627 Caroline Street

Description of Work:

Removal of enclosing walls at front porch. Demolition of attached garage and rear one-story addition.

Site Facts:

The two-story, wood frame structure is listed as a contributing resource in the survey, and it first appears on the 1889 Sanborn map. The structure has a one-story addition that does not show on any of the Sanborn maps. By the 1960s, the first-floor porch was enclosed and expanded, although the original openings are still visible from the interior. A garage structure was constructed right next to the house.

Ordinances Cited in Review:

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings.

Sec. 102-218 (a): Criteria for demolition of a historic or contributing building.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes the demolition of a historic garage and the removal of historic walls from the front of the house. These elements were added much later after the house was built and were not appropriate to begin with, as they obscure character defining features of the structure. Therefore, staff does not feel that they meet any of the criteria listed in Sec. 102-218, and therefore can be considered for demolition:

- (1) The walls and garage do not embody distinctive characteristics and are not significant and distinguished entity. Staff feels that their components lack individual distinction.
- (2) The walls and garage are not specifically associated with events that have made a significant contribution to local, state, or national history;
- (3) The walls and garage have no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and are not associated with the life of a person significant in the past;
- (4) The walls and garage to be demolished are not the site of a historic event with a significant effect upon society;
- (5) The walls and garage do not exemplify the cultural, political, economic, social, or historic heritage of the city;
- (6) The walls and garage do not portray the environment in an era of history characterized by a distinctive architectural style;
- (7) The walls and garage are not related to a square, park, or other distinctive area.
- (8) The walls and garage do not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and do not exemplify the best remaining architectural type in a neighborhood; and
- (9) The walls and garage have not yielded, and are not likely to yield, information important in history.

Since these elements are historic, two readings are required for demolition.

Staff believes the rear one-story addition is not historic, as the addition does not appear in the Sanborn maps or historic photographs, and therefore, meets the following criteria:

- (1) The demolition will not diminish the overall historic character of a district or neighborhood;
- (2) Nor will it destroy the historic relationship between buildings or structures and open space.
- (3) This demolition will not affect the front building façade.

(4) Staff does not believe element that is proposed to be demolished will qualify as contributing as set forth in Sec. 1021-62(3).

Therefore, this request can be considered for demolition. As the addition is not historic, only one reading is required for demolition.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

REMOVING APPROX. 160 SF. OF EXISTING CLOSED PORCH

REMOVING ATTACHED GARAGE

REMOVING 230 SF. SINGLE STORY ADDITION AT REAR

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

THE REAR ADDITION IS IN DETRIORATION AND IS NOT HISTORIC

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

ENCLOSED FRONT PORCH AND GARAGE EMBODY NO DISTINCTIVE CHARACTERISTICS.

RECEIVED
 SEP 25 2018
 BY: MM

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

NONE OF DEMOLITION PROPOSED HAS ANY SIGNIFICANT VALUE OR CONTRIBUTION TO THE STRUCTURE'S HISTORIC PERIOD OF CONCERN

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

NONE

(d) Is not the site of a historic event with significant effect upon society.

NO

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

NO

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

NO

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

NO

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

No
(i) Has not yielded, and is not likely to yield, information important in history.
No

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

NOT APPLICABLE

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

NOT APPLICABLE

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

NOT APPLICABLE

(4) Removing buildings or structures that would otherwise qualify as contributing.

NOT APPLICABLE

DEMOLITION NOTES

1. IF Demolition commences prior to permit, GC shall obtain demo permits.
2. Furnish all labor and materials as required to complete demolition and removal of all items as indicated.
3. Provide strict control of job cleaning and prevent dust and debris from emanating from demolition area. Keep area clean.
4. If any questions arise as to the removal of any material, clarify the point in question with the architect or owner before proceeding.
5. At completion of demolition work the construction areas shall be left in 'broom clean' condition. All debris and misc. material shall be moved to waste area provided by the contractor.
6. Debris removal must be performed in accordance with owner and building management requirements and procedures.
7. Carefully remove all existing light fixtures and lenses (where demolition is noted) and store for future use. Before indicated reinstallation, inspect each fixture and repair or replace parts as required. All relocated fixtures shall be in full operating order. All tubes and/or ballasts not reused shall be disposed of in a proper manner.
8. In partitions to be removed, remove all outlets, switches, wires, etc. to their source as required. Retain thermostats for reuse.
9. Contractor shall be responsible for patching and/or repairing any damage caused by him or his subcontractors to existing construction. Refinish to match existing adjacent finish or as noted herein.
10. No existing smoke detector, public address speaker, fire alarm box or similar device, including the associated wiring shall be damaged during demolition and subsequent construction. Relocation of smoke detectors, public address speakers and fire alarm equipment, necessitated by new construction shall be accomplished as a first priority, and per the plans. No active smoke detector shall be covered or otherwise removed or used for other than its intended purpose.
11. Remove all interior doors UNO.
12. Removal of any equipment, cabling, switches, and conduit pertaining to data/communications and telephone shall be verified with telephone companies or service owner data/communications representative as required to prevent new construction delays.
13. Carefully remove windows and doors as noted in plans for possible reuse.
14. Demolition is not necessarily limited to what is shown on the drawings. The intent is to indicate the general scope of demolition required to complete the work in accordance with the contract drawings.
15. Remove all bathroom fixtures in all bathrooms.
16. Remove existing power panel at exterior.
17. Shore or support header at exterior window and wall removal on North side of residence.
18. Contractor to coordinate with owner for reuse of existing millwork.
19. Verify with Architect or Engineer before removal of any structural support not shown in drawings.
