**Subject:** Commission meeting

Cheri, could you please read the following into the commission meeting tomorrow during the portion relating to taxes:

The reason we even have reserves is to use them for unusual occurrences, like beginning the EMS. Remember, your "rainy day fund" is MY tax dollars sitting in your account earning maybe 1%. My last investment is earning 10%. Please let us taxpayers use our money as we see fit until you actually NEED it. I have analyzed expenditures and reserves during our two bad hurricane years, and even true disasters barely dented them.  
Rick Boettger, 1402 Olivia

Thank you,
