Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

The existing structure was constructed in 1969 to replace a former gas station. Special conditions exist due to the nature of the business; as a gas station is typically designed with the primary structure at the rear of the site allowing for vehicular traffic to flow through the front of the property. This site layout requires a variance to the rear setback to allow the construction of a small addition that will connect the accessory structure (currently used as bathrooms) to the primary structure. Bathrooms will be relocated inside and made ADA compliant. The accessory structure will become part of the principle structure requiring a variance to the rear setback.

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

Conditions were not created by the applicant; the owner purchased the property "as-is" with the principle structure constructed in 1969 with a rear setback of 1.38 ft. Special conditions exist that are not a result from the action or negligence of the applicant. The applicant seeks to recognize the existing setbacks to allow the accessory structure to be incorporated into the principle structure and allow ADA accessible restrooms to be constructed inside the main building.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

No special privileges will be conferred by granting this variance given the specialized form of the site being reflective to its function.

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

Hardship conditions exist; literal interpretation of the land development code creates a hardship as the LDRs do not take into consideration the specialized layout required for public fueling service stations.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

The request is the minimum required to make possible reasonable use of the structure by allowing for a 134 sq. ft. addition to connect the primary and secondary structures. This will allow for a better design and will relocate the exterior bathrooms to the interior where they will be enlarged to comply with ADA requirements.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

Granting of the variance would not be injurious to the public welfare, but rather allows for a redesign of the restaurant/retail store to provide safer, accessible ADA bathrooms.

The variance will be in harmony with the general intent and purpose of the land development regulations by allowing for the continued reasonable use of the land and structure.

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

Existing nonconforming uses of other property are not considered in this application as the basis or grounds for the variance request.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in Section 90-395 have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

REQUIRED SUBMITTALS: All of the following must be submitted in order to have a complete application. Please submit one paper copy and one electronic copy of all materials.

- Correct application fee. Check may be payable to "City of Key West."
- Notarized verification form signed by property owner or the authorized representative.
- Notarized authorization form signed by property owner, if applicant is not the owner.
- Copy of recorded warranty deed
- Property record card
- Signed and sealed survey
- Site plan (plans MUST be signed and sealed by an Engineer or Architect)
- Floor plans
- Stormwater management plan
