Subject: Resolution item 11

Mayor Cates and Commissioners...

If the City of Key West is going to respond to legislation passed in another state by prohibiting travel on City business to that state...I oppose this response.
This is just political grandstanding..like they really care.
If you choose to move forward with this resolution..I request that you also condemn the actions of the social media activists that directed all the hate and vitriol towards the business owner that was interviewed and did not share the same view...or is One Human Family only applied to shared beliefs?
