RE: Proposal for Certified Arborist Support Services
2801 North Roosevelt Blvd, Key West, FL

2801 ROOSEVELT MASTER PROPERTY OWNERS ASSOC INC:

Parobok Environmental, LLC (PE) is providing this report as a record of our assessment of all native trees and palms greater than one-inch DBH and relevant ornamental vegetation on the above referenced property. This assessment was conducted by an International Society of Arboriculture Certified Arborist in general accordance with the ANSI A300 Standards for Tree Risk Assessment and associated Best Management Practices (BMP) companion book.

A Tree Table has been attached to this report, containing the species, size, and general condition of each tree. A tree number has been assigned to each tree and the identification numbers referenced in the Tree Table correspond with the locations on the Location Map to facilitate identification.

Following is a general description of the condition of all trees of regulated size on the property. Palms sizes are listed as clear trunk height (CT). Photos are included to illustrate the condition of each tree where applicable.
Condition ratings are as follows:
   Good - no major physical or health defects were observed that are anticipated to compromise the long-term health or viability of the tree.
   **Fair** - physical and/or health defects were observed which may compromise the long-term health or viability of the tree, but are able to be corrected or managed to minimize their effects.
   Poor - physical and/or health defects were observed which are anticipated to directly lead to the death or physical failure of the tree, and are not correctable through typical arboricultural practices.
   Dead - tree either completely dead or effectively destroyed

Sincerely,

Daniel Parobok
