Re: Interlocal Agreement

Mr. Jay Gewin:

In reply to our telephone conversation yesterday, please be advised our office has not been charging any fees to the existing Taxing authorities that are assessing non-ad valorem taxes.

Our agreement states within it (see Section 4.02(D)) that if the time comes, where it is necessary to charge for administrative and costs incurred by our office for reimbursement we have the ability to charge a fee.

At this time I do not foresee that being the case, but this shall remain within the Agreement should the time come that reimbursement becomes necessary.

Cordially,

SCOTT P. RUSSELL, CFA
