## Historic Architectural Review Commission Staff Report for Item 6

To: Chairman Haven Burkee and Historic Architectural Review  
Commission Members

From: Enid Torregrosa-Silva, MSHP  
Historic Preservation Planner

Meeting Date: July 23, 2024

Applicant: Richard McChesney, Applicant

Application Number: H2024-0029

Address: 1202 Simonton Street

### **Description of Work:**

Partial demolition of flat roof.

### **Site Facts:**

The site under review contains a commercial building listed as a contributing resource. The parcel sits on the southwest corner of Simonton and Catherine Streets. The commercial building is of cmu built and has been altered through times. The structure has a flat roof, and a parapet wall extends to the east and partially on the north elevation. A frame gable roof, that belonged to a previous house that sits on the site is embedded into the principal roof. The southernmost part of the current building dates from 1953, as a circa 1965 photograph depicts a covered open sitting area for a restaurant known as Luigi's. By reviewing aerial photographs and scope of work for building permits it is staff conclusion that the current building form and facades the building exhibits today were done between 2000 and 2004. This makes most of the building fabric a non-historic structure.

*1202 Simonton Street ca. 1965 and current photographs.*

## Ordinance Cited on Review:

- Section 102-217 (3), demolition for non-contributing or non-historic structures of the Land Development Regulations.
- Section 102-218 Criteria for Demolition of the Land Development Regulations.

## Staff Analysis:

The Certificate of Appropriateness proposes the partial demolition of a non-historic roof to create more height by the construction of a clerestory. It is the staff's opinion that the proposed demolition will be done on a non-historic portion of a building that has been completely altered through times. Staff opines that the proposed clerestory design is an appropriate design solution for the site and the new owner's need. The historic gable roof will be kept as part of the proposed new design.

*Roof area proposed to be demolished shaded in red.*

Since the portion of the roof under review is non-historic, the evaluation shall be based on section 102-218 (b) of the Land Development Regulations, which requires the following criteria for demolitions:

The historic architectural review commission shall not issue permits that would result in:

- (1) *Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

It is staff's opinion that the new proposed design will maintain the conditions of a flat roof and therefore the proposed demolition will not impair the character of the urban context.

- (2) *Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The existing flat roof is not historic.

- (3) *Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

This will not be the case.

- (4) *Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

It is staff's opinion that the building itself has been extremely altered and it should not have been considered a contributing resource. The current look of the building was what was deemed as contributing.

Staff recommends to the Commission the consideration of this request for demolition as the partial demolition of the flat roof will have no adverse effect in the building or surrounding neighboring structures. If the Commission finds the design to be appropriate this will be the only required reading for demolition.

*Axonometric model.*

DETAILED PROJECT DESCRIPTION OF DEMOLITION
Demo portions of the exiting flat roof per the submitted plans to allow for the construction of a clerestory addition.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:
<p><b>Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);</b></p> <p>(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:</p> <p style="margin-left: 40px;">(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.</p>
<p>(2) Or explain how the building or structure meets the criteria below:</p> <p style="margin-left: 40px;">(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.</p> <p>This structure embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and due to the alterations of the original structure, it is not a significant and distinguishable building.</p>

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

Alterations to the original structure and site have compromised the contributing status of the property.
(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
The building is not associated with any significant historic events.
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
The building has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation. Nor is it associated with the life of a person significant in the past.
(d) Is not the site of a historic event with significant effect upon society.
The building is not the site of a historic event with significant effect upon society.
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
The building does not exemplify the cultural, political, economic, social, or historic heritage of the city.
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
The building does not portray the environment in an era of history characterized by a distinctive architectural style.
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
The building is not a part of or related to a square, park or other distinctive area.
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

The building does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or the city and definitely does not exemplify the best remaining architectural style in the neighborhood or city.
(i) Has not yielded, and is not likely to yield, information important in history.
The structure has not and is not likely to yield information important in history.

**CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:**

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
(4) Removing buildings or structures that would otherwise qualify as contributing.
