## **Historic Architectural Review Commission Staff Report for Item 16**

To: Chairman Haven Burkee and Historic Architectural Review  
Commission Members

From: Matthew Crawford  
Historic Architectural Preservationist

Meeting Date: May 26, 2026

Applicant: Nautilus Drafting & Design

Application Number: C2026-0034

Address: 1105 Watson Street

### **Description of Work:**

New mono-slope roof on rear additions.

### **Site Facts:**

The property under review is contributing and was built in c. 1906. The property contains a 2 story wood framed structure. There was a historic rear addition built the rear of the structure between 1948-1962. Staff believes this addition was removed and a new addition was built between 1962-1972.

The property is currently in an X flood zone.

*c. 1972 Historic Photo of Property Under Review with Historic Additions.*

Survey and 1965 Sanborn Map.

*Photo of rear of Property Under Review.*

*Phot of Rear of Property Under Review Showing both Rear Rooflines.*

### **Guidelines Cited on Review:**

- Guidelines for Building Exteriors-Wood (page 24), specifically guidelines 1 and 2.
- Guidelines for Roofing (page 26), specifically guidelines 1, 3, 4, 5, and 6.
- Guidelines for Additions (pages 37a-37k), specifically guidelines 6 (first two sentences), 13, 14 (first sentence), 19, 22, and 25.
- New construction (pages 38a-38q), specifically guidelines 1 (first sentence), 2, 12, 14, 18 and 21.

### **Ordinances Cited on Review:**

- Section 102-217 (3), demolition for non-contributing or non-historic structures of the Land Development Regulations.
- Section 102-218 - Criteria for Demolition of the Land Development Regulations

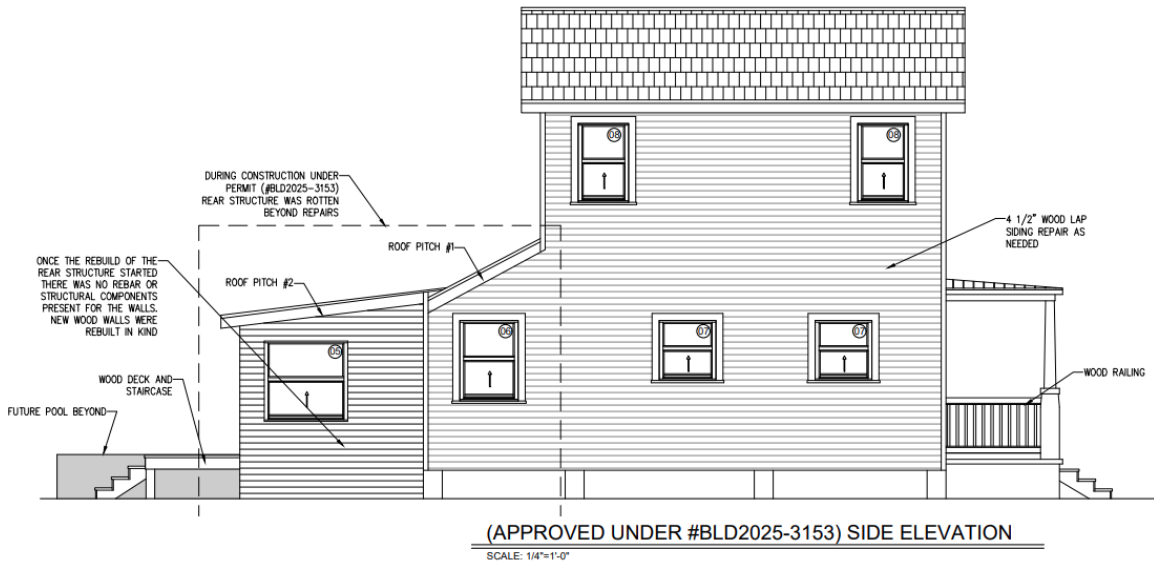

### **Staff Analysis:**

A Certificate of Appropriateness is currently under review for a new mono-slope roof on the historic rear additions. During construction under permit BLD2025-3153, the contractor found that the rear roof structure was rotten beyond repair and the rear and side CBS walls had no rebar or structural components. The proposed mono-slope roof will be a new roof that uses the rearmost addition roof slope and extends it all the way to the rear of the main house. New wood lap siding will be used on the new walls.

Demolition proposes the demolition of rear historic mono-slope roofs and the removal of the rear and side CBS walls.

*Rear Elevation Approved Under Building Permit.*

(REVISION UNDER #BLD2025-3153)  
**REAR ELEVATION**

SCALE: 1/4"=1'-0"

*Currently Proposed Rear Elevation.*

## **Consistency with Cited Guidelines:**

Staff finds the proposed design generally compatible with the existing structure and with the surrounding commercial context. The new proposed roofline will be on the rear and not visible from the ROW and will use the same roofline as one of the already existing additions. This will keep the massing of the additions very similar to what they are now. The size and scale will overall be compatible with the original main house.

The proposed wood lap siding will match what is existing on the main house and the additions. The new roof should either be 5V-Crimp or metal shingles as it is historic.

## **Criteria for Demolition:**

Since the rear mono-slope roofs and CBS walls under review are non-contributing, the evaluation shall be based on section 102-218 (b) of the Land Development Regulations, which requires the following criteria for demolitions:

The historic architectural review commission shall not issue permits that would result in:

*(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished;*

The rear mono-slope roofs and CBS walls are not historic and does not contribute to the character of the building.

*(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space;*

The rear mono-slope roofs and CBS walls are not historic and does not destroy the historic relationship between buildings or structures and open space.

*(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.*

This will not be the case.

*(4) Removing buildings or structures that would otherwise qualify as contributing, as set forth in section 102-62(3).*

The rear mono-slope roofs and CBS walls are non-contributing features. Staff opines that the structure would not qualify as contributing in the near future.

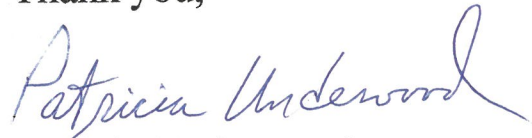

In conclusion, it is the staff's opinion that the request for demolition can be considered by the Commission as it meets the criteria for demolition stated under the Land Development

Regulations. If the Commission finds the design appropriate this will be the only required reading for demolition.

Dear representative of our great city,

It has recently come to my attention that the owners of the house behind mine wish to change the roof on the back of their house facing mine. Their plans do not hinder or inconvenience me in any way. In my opinion it will improve the value of the neighborhood.

Thank you,

A handwritten signature in blue ink that reads "Patricia Underwood". The signature is written in a cursive style with a large initial 'P' and a long, sweeping underline.

Patricia Underwood

1024 Virginia Street, Key West, FL, 33040

# HARC CERTIFICATE OF APPROPRIATENESS: DEMOLITION APPENDIX

**City of Key West**  
 1300 White Street  
 Key West, Florida 33040

HARC COA #	INITIAL & DATE
ZONING DISTRICT <b>HMDR</b>	BLDG PERMIT #

ADDRESS OF PROPOSED PROJECT: 1105 Watson St. Key West, Florida

PROPERTY OWNER'S NAME: BJN1 LLC

APPLICANT NAME: Jonathan Tavarez (Nautilus Drafting and Design Services)

*I hereby certify I am the owner of record and that the work shall conform to all applicable laws of this jurisdiction. By receiving a Certificate of Appropriateness, I realize that this project will require a Building Permit approval **PRIOR** to proceeding with the work outlined above and that a final inspection is required under this application. I also understand that any changes to an approved Certificate of Appropriateness must be submitted for review.*

PROPERTY OWNER'S SIGNATURE: *John B Wass* DATE AND PRINT NAME: 4/27/20

**DETAILED PROJECT DESCRIPTION OF DEMOLITION**

DURING CONSTRUCTION UNDER PERMIT #BLD2025-3153 IT WAS FOUND THAT REAR ROOF STRUCTURE WAS ROTTEN BEYOND REPAIR AND REAR AND SIDE CBS WAS WERE FOUND TO HAVE NO REBAR OR STRUCTURAL COMPONENTS.

**CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:**

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

During construction under permit #BLD2025-3153 it was found the existing rear roof structure was rotten beyond repairs. and the rear and side cbs was were found to have no rebar or structural components

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings as provided in Section 102-21 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

(d) Is not the site of a historic event with significant effect upon society.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings as provided in Section 102-21 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) <input type="checkbox"/> Has not yielded, and is not likely to yield, information important in history,

**CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:**

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

- (1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.  

- (2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.  

- (3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.  

- (4) Removing buildings or structures that would otherwise qualify as contributing.
