RFP No. 006-18 Evaluation Committee Member Response To Key West Amphitheater Venue Management Document Dated March 2018

After careful and considerable review of the current operational and projected operational requirements of The Key West Amphitheater, my finding at this time is below.

Evaluation Member concludes the following: (pursuant to section 1.2.3. Reservation Of Rights Item 3.) “Reject any and/or all proposals in accordance with Section 1.2.5.”

Included as operational options for The Key West Amphitheater, the City Of Key West *may* consider in future discussions:

- **The City *may* consider budgeting for and implementing a “park manager” position for the entire Truman Waterfront Park.**
- **In addition or separately, the City *may* consider exploring the creation of a “Citizens Park Board” (CPB), that could meet monthly to review various aspects of all City Park operations. This volunteer Board would be supplemented by paid City Staff.**
