Valve Size

Irrigation water source is assumed to be a Meter through the F.K.A.A. (Contractor shall provide meter).

Irrigation Contractor shall be responsible for all applicable fees and permits.

Irrigation Contractor shall comply with all state and local codes and shall clarify any discrepancies on the plan prior to bidding.

All Pipe and Wire under paving shall be placed in Schedule 40 P.V.C. Sleeves for the full pavement coverage length and shall be at least 24" below grade.

Mainlines shall be buried to provide a minimum cover of 18", while all Lateral lines shall have a minimum of 12".

The Contractor should take care to reroute piping as necessary to avoid plant or tree roots.

All Piping downstream of Solenoid Valve to be PR-160 P.V.C.

MainLine, Valves, etc. may be shown out of position for graphic clarity. Drawing is diagrammatic only.

All Sprinklers shall be site adjusted to prevent water overthrow onto building surfaces, roadways, and walkways.

All Sprinklers shall be a minimum of 18" from any building.

Shrub body sprinklers may be substituted for Hi-Pops against building(s) at owners discretion.

Contractor shall verify with owners representative all controller programming, including monthly adjustments, prior to final inspection.

This system is diagrammatic to improve clarity. All mainline and lateral piping, electric valves and wiring are to be installed in landscape areas within property boundaries.

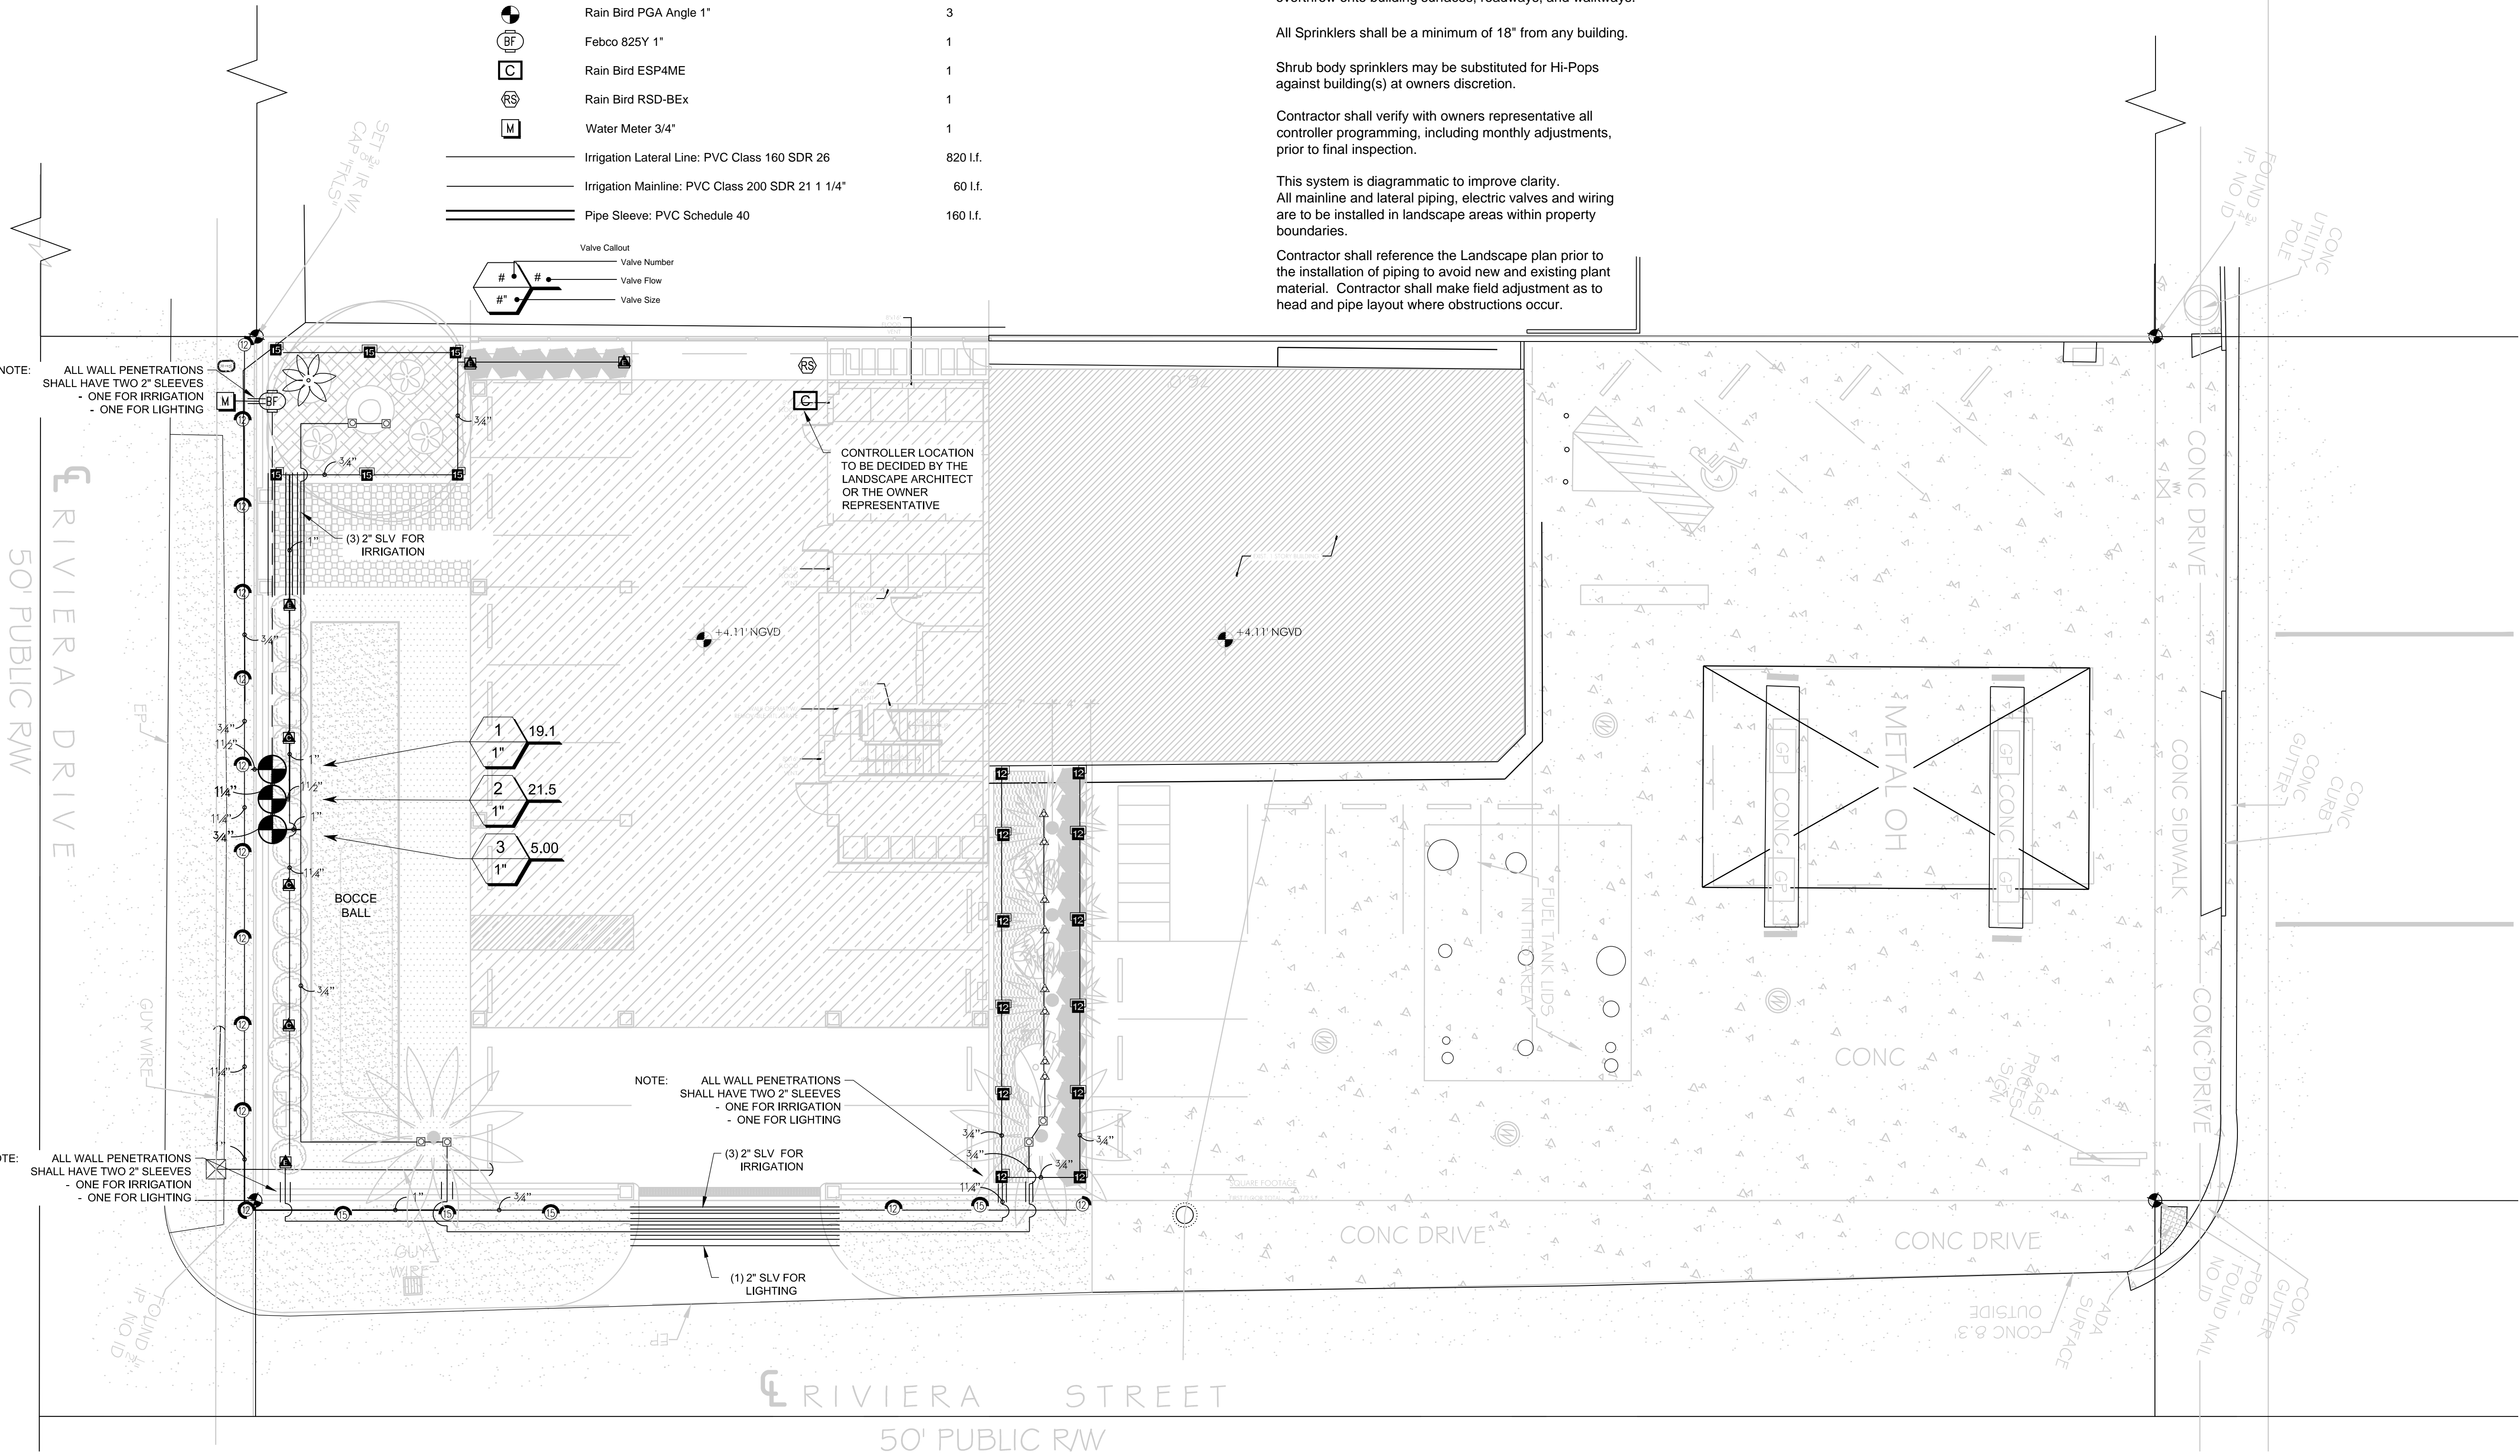

Contractor shall reference the Landscape plan prior to the installation of piping to avoid new and existing plant material. Contractor shall make field adjustment as to head and pipe layout where obstructions occur.

STAFF REPORT

DATE: June 29, 2018

RE: **3228 Flagler Avenue (permit application # T18-9042)**

FROM: Karen DeMaria, City of Key West Urban Forestry Manager

An application was received requesting Landscape Plan Approval with Tree Removal to include the removal of **(1) Gumbo Limbo tree**. The property is being redeveloped into 8 residential units. A site inspection was done and documented the following:

Tree Species: Gumbo Limbo (*Bursera simaruba*)

Tree #5

05/21/2018

Diameter: 4"

Location: 80%

Species: 100% (on protected tree list)

Condition: 70% (fair, young tree)

Total Average Value = 83%

Value x Diameter = 3.3 replacement caliper inches

Photos of the rest of the property:

Tree #1

Tree #3

Tree #4

Tree #4

Tree #7 & #8

Tree #9

Recommendation: Recommend approval of the Landscape plan to include the removal of (1) Gumbo Limbo tree at 3228 Flagler Avenue to be replaced with 3.3 caliper inches of dicot or fruit trees from approved list, FL#1, to be planted on site and incorporated into the landscape plan.

Subject: RE: 3228 Flagler Ave

Yes, I have you on the agenda for Monday, July 9 for Landscape Plan approval. This is the first step on the development plan review process and is where approval of the removal of the gumbo limbo tree is important. We will also make sure that the full landscape plan is presented at this time. Once you have this approval you can be heard by the Planning Board then after you have planning board approval you will come back to the Tree Commission for Final Landscape Plan approval with tree removal approval. If there are no significant changes to the plan, the final approval might be able to be handled by my office since we will already have the landscape plan approval.

Sincerely,

Karen

Hi Karen,
Just following up to confirm that this project is still planned for the July 9th Tree Commission hearing.
Thanks!

Lori Thompson
