

Historic Architectural Review Commission

Staff Report for Item 11

To: Chairman Bryan Green and Historic Architectural Review Commission Members

From: Kathleen McDonald, MHP
Historic Preservation Planner II

Meeting Date: January 29, 2019

Applicant: Bender & Associates

Application Number: H2020-0001

Address: #609 Angela Street

Description of Work:

Renovations to existing historic structure. New one-story rear additions to historic structure.

Site Facts:

The site under review is a historic one-and-a-half story frame vernacular house with several non-historic rear additions. The historic portion of the house was built circa 1889 and is contributing to the historic district.

The form of the historic main house remains consistent on the Sanborn maps, going back to 1892. However, the form of the rear additions appears somewhat inconsistent on the Sanborn maps.

The form of the rear additions in the 1962 Sanborn map does not resemble what additions exist today, indicating that they are likely non-historic additions. The idea that the rear additions are not historic is also supported by an aerial photo from 1972, which does not indicate the presence of the existing rear additions.

A historic photo from the 1960s shows a carport structure at the side of the house, but that structure has since been heavily altered to incorporate a roof deck.

Guidelines Cited on Review:

- Guidelines for Additions and Alterations on Contributing, Non-Contributing and Non-Historic Buildings and Structures (pages 37a-37k), specifically guidelines 1, 5, 6, 11, 13, 19, 26, 29, 31 and 32.
- Guidelines for New Construction in the Historic District (pages 38a-38q), specifically guidelines 1, 12, 14, 18 and 22.

Staff Analysis:

A Certificate of Appropriateness is under review for renovations and rear additions to an existing historic structure.

The rear additions are to be two one-story sawtooth structures. The first sawtooth will contain a kitchen, two bathrooms, and a laundry room. The second sawtooth will be a covered outdoor dining and living area with wood louvers enclosing 2 sides.

Roofing is to be Berridge Victorian metal shingles at the historic portion of the house and galvalume v-crimp at the new additions. The additions will have wood lap siding with 4.5 inch exposure to match the historic siding. All new windows and doors are to be Jeldwen custom wood windows and doors. Shutters at the historic structure are to be wood colonial louvered shutters.

Consistency with Cited Guidelines:

It is staff's opinion that the proposed design meets the cited guidelines.

The proposed rear additions require no or minimal changes to character defining features and utilize existing openings at the rear of the historic structure, minimally impacting the integrity of the building form.

The proposed rear additions are to be lower in height than the historic structure, and they are to be smaller in mass and form. They are also compatible with the scale and character of the district, as they do not overshadow any adjacent historic properties.

Proposed materials and forms are harmonious to the historic building, as well as to the surrounding context.

Demolition of original elements of the building in order to accommodate the rear additions will not be necessary, as the proposed design utilizes existing openings at the rear of the historic structure.

A recessed, small scale hyphen will be utilized to differentiate the historic structure from the rear additions.

Finally, the submitted design proposes the removal of several rear additions as well as a carport structure, which have obscured and disguised the historic portion of the structure over time.

Aerial photo from 1972 indicating 609 Angela Street. The rear additions that exist today are not visible.

Historic Photo of 609 Angela Street from the 1960s.

DETAILED PROJECT DESCRIPTION OF DEMOLITION
Removal of all non-historic additions.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:
Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);
(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
Not applicable.
(2) Or explain how the building or structure meets the criteria below:
(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.
Not applicable.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
Not applicable.
(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.
Not applicable.
(d) Is not the site of a historic event with significant effect upon society.
Not applicable.
(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.
Not applicable.
(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.
Not applicable.
(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.
Not applicable.
(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

Not applicable.
(i) Has not yielded, and is not likely to yield, information important in history.
Not applicable.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:
The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);
(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
The additions being removed are not important in defining the overall historic character of a district or neighborhood.
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
Removing the additions does not destroy the historic relationship between buildings or structures and open space.
(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
The additions are not important in defining the historic character of a site or the surrounding district or neighborhood.
(4) Removing buildings or structures that would otherwise qualify as contributing.
Not applicable.

DESCRIPTION OF WORK:
DEMOLITION OF NON-HISTORIC ADDITIONS, RENOVATION OF HISTORIC STRUCTURE AND CONSTRUCTION OF NEW ADDITIONS TO THE HISTORIC STRUCTURE.

- GENERAL NOTES**
- All work shall comply with the Florida Building Code, latest edition, and all applicable laws, codes and ordinances of the City, County, and the State of Florida. In the City of Key West, applicable Codes forming the basis of this design and compliance requirements for the Contractor include:
 FLORIDA BUILDING CODE - Building 2017 EDITION
 FLORIDA BUILDING CODE - Existing 2017 EDITION
 FLORIDA BUILDING CODE - Residential 2017 EDITION
 FLORIDA BUILDING CODE - Plumbing 2017 EDITION
 FLORIDA BUILDING CODE - Fuel Gas 2017 EDITION
 FLORIDA BUILDING CODE - Mechanical 2017 EDITION
 FLORIDA BUILDING CODE - Energy Conservation 2017 EDITION
 NATIONAL ELECTRICAL CODE 2017 EDITION
 NFPA 101 LIFE SAFETY CODE w/ Florida Modifications
 FLORIDA FIRE PREVENTION CODE 2017 EDITION
 NFPA 1 2013 EDITION
 - This project is designed in accordance with A.S.C.E. 7-10 to resist wind loads of 180 mph (3 second gusts) and in accordance with ASCE 24-14 Flood Resistant Design and Construction.
 - Prior to submitting a bid, verify all existing conditions and dimensions on the jobsite, and also after award, but prior to the start of construction.
 - Contours and/or existing grades shown are approximate. Verify with field conditions. Final grading shall provide gradual slopes and grades. Slope all grades away from the building. Planting areas shall be graded with soil suitable for planting. Rock and debris will not be allowed.
 - Where discrepancies between drawings, specifications, and code requirements occur, adhere to the most stringent requirement.
 - Dimensions shall take precedence over scale.
 - All new utilities shall be underground.
 - Drawings and specifications are complementary. Refer to all sheets of drawings and applicable sections of the specifications for interfaces of work with related trades. **Not to Scale**
 - After completion of construction remove all debris and construction equipment. Restore site to original condition.
 - Notify owner of any possible artifacts uncovered during site grading and throughout the course of construction.
 - Furnish a receptacle on site to contain construction debris and maintain the site in an orderly manner to ensure public safety and prevent blowing debris.
 - Comply with all requirements for selective demolition as specified, shown on the Demolition Plan, or called for in the selective Demolition Notes.
