Subject: 630 Eaton Street(RE#00006290-000000, AK#1006513) Variances

To whom it may concern,

This email is to voice my opinion that the applicant adhere to all existing regulations as far as building coverage and impervious surface ratio.

In renovations done at our home, we adhered to all rules. Although, at the time, we felt these rules unreasonable, we complied with them. In the end, we feel all turned out well and kept the integrity of Old Town. With some effort, we believe the applicant can do the same. Rules are present for a reason.

Sincerely,
Larry and Tricia Paolini
