**Description of Work**

Demolition of side and rear additions to the historic house. Demolition of storage buildings.

**Site Facts**

The building under review is a contributing resource to the historic district. The one-story frame vernacular house was built circa 1920. The historic house has changes through time with additions to the north, south and east elevations. The front porch still exhibits non original concrete elements shown in the 1965 photograph. The house sits next to a two-story reinforced concrete structure, that was originally built as a hotel and named Little Charles Hotel. The site also has a shed located on the east side of the property.

On August 17, 2023, the Planning Board approved the proposed plans under Resolution 2023-14 for impervious surface, open space, building coverage, side setbacks and rear setback for the renovation of the non-conforming structure. Resolution No. 2023-14 is part of the file.

*Front elevation.*

## Ordinances Cited on Review:

- Section 102-217 (3), demolition of a historic but noncontributing structures and Section 102-218 criteria for demolitions of the Land Development Regulations for all porch elements.

## Staff Analysis:

The Certificate of Appropriateness proposes the demolition of several additions done through years. Some of the existing alterations or parts of them, are older than 50 years, but are not considered contributing to the house or site. The existing cmu shed structure, located at the east side of the property is depicted in the 1962 Sanborn map.

*Current site plan with highlighted structure under review.*

It is staff's opinion that the request for this demolition should be reviewed based by the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria state the following.

*(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:*

- (1) *If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration, or it does not meet any of the criteria of section 102-125(1) through (9).*

It is staff's opinion that existing structures under review do not present extreme deterioration that can jeopardize their structural integrity.

The following is the criteria of section 102-125:

- 1 *Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction;*

Staff opines that the additions and shed do not have distinctive architectural qualities or historic significance to the house or sub area.

- 2 *Is not specifically associated with events that have made a significant contribution to local, state, or national history;*

It is staff understanding that no significant events have ever happened in the site relevant to local, state, or national history.

- 3 *Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past;*

By the contrary, these additions diminish the architectural quality and integrity of the historic house. The proposed demolitions and new additions will give the structure a cohesive building form.

- 4 *Is not the site of a historic event with a significant effect upon society;*

The site is not associated to any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city;*

The structures under review do not exemplify social, cultural, or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style;*

The structures under review cannot be considered having a distinctive architectural style significant to the district.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif;*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The structures under review do not exemplify a remaining architectural type in its neighborhood and does not possess any significant visual features.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

The structures under review do not yield important information in history.

It is staff's opinion that the request for demolition can be considered by the Commission as it is consistent with the cited sections of the Land Development Regulations. The applicant has submitted design plans as part of this application. If approved, this will be the only required reading for demolition, as these are historic but non-contributing structures.

*Existing and proposed site plans.*

The plans include the removal of an addition at the southwest portion of the house to create a double driveway. This will free the historic house from an inappropriate addition and will make the house prominent as it was historically designed. A one-story addition with a side gable roof, setback 18 feet from the front property line is proposed on the south elevation. The design also includes one-story additions on the rear of the house, facing east that will create a “U-shaped form. Between the two additions the design proposes a small pool and deck.

All new additions will have hardie board as siding, aluminum impact windows and doors and 5 v-crimp metal roofing system. All windows on the house will be two over two and the proposed double driveway will have tire stripes.

**Consistency with Guidelines Cited Guidelines**

It is staff’s opinion that the proposed renovations and new additions are consistent with cited guidelines. The new design will give back to the house the appropriate exposure at street view. All additions attached through the years have been done with no sensibility to the historic house and its site. By the contrary, the new design will make existing and new

additions sensible to the building form. The location of the pool and deck will be at the rear of the house and not visible from the lane. The proposed renovations to the front elevation will restore the scale and detail of the character defining feature.

DETAILED PROJECT DESCRIPTION OF DEMOLITION
Demo existing non historic side & rear additions to the existing historic house, and storage buildings.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:
<b>Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);</b>
(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
(2) Or explain how the building or structure meets the criteria below:
(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

(c) Has no significant character, interest, or value as part fo the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

(d) Is not the site of a historic event with significant effect upon society.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(i) Has not yielded, and is not likely to yield, information important in history.

**CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:**

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies);

(1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

The demolition of the side & rear additions are not important in defining the historic character of the neighborhood.

(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

The demolition of the existing side & rear additions do not destroy the historic relationship between buildings & open space.

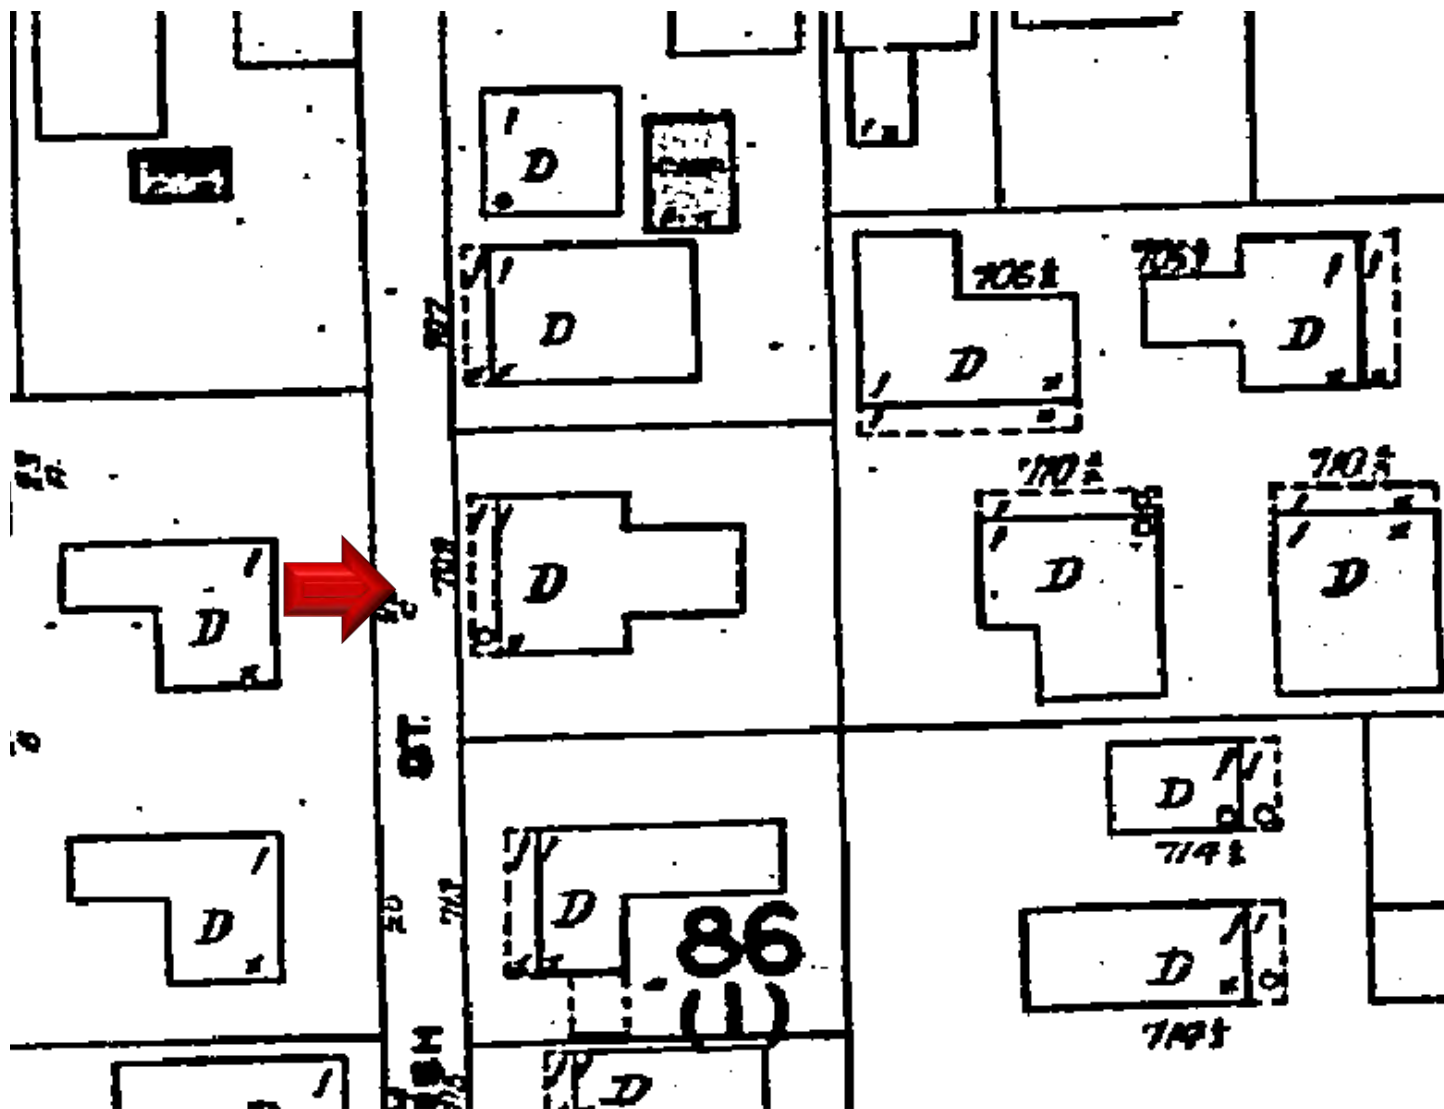

(3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

The demolition of the side & rear additions are not important in defining the historic character of the site, and neighborhood.

(4) Removing buildings or structures that would otherwise qualify as contributing.

The demolition of the side & rear additions would not qualify as contributing.

# PLANNING BOARD RESOLUTION

**RESOLUTION NO. 2023-14**

**A RESOLUTION OF THE CITY OF KEY WEST PLANNING BOARD APPROVING A REQUEST FOR VARIANCES ON IMPERVIOUS SURFACE, OPEN SPACE, BUILDING COVERAGE, SIDE SETBACKS, AND REAR SETBACKS FOR RENOVATION OF A NONCONFORMING STRUCTURE FOR PROPERTY LOCATED WITHIN THE HISTORIC HIGH DENSITY RESIDENTIAL (HHDR) ZONING DISTRICT PURSUANT TO SECTIONS 90-395 AND 122-630 OF THE LAND DEVELOPMENT REGULATIONS OF THE CODE OF ORDINANCES OF THE CITY OF KEY WEST, FLORIDA.**

**WHEREAS**, the owner of real property at 709 Whitmarsh Lane (RE# 00015540-000000) proposes to renovate an existing single-family residence with nonconforming setbacks, building coverage, open space, and impervious surface area; and

**WHEREAS**, Section 122-630 and 108-346 of the Land Development Regulations (the “LDRs”) of the Code of Ordinances (the “Code”) of the City of Key West, Florida (the “City”) provides that the minimum rear setback is 20-feet within the Historic High Density Residential (HHDR) Zoning District; and

**WHEREAS**, the proposed rear setback is 5-feet, 1.5-inches; and

**WHEREAS**, the Key West Planning Board (the “Board”) finds that circumstances exist which are peculiar to the land, structure, or building involved and that special conditions which are not applicable to other land, structures, or buildings in the same district; and

**WHEREAS**, the Planning Board finds that the special conditions do not result from the action or negligence of the applicant; and

**WHEREAS**, the Board finds that granting the variance requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands,

buildings, or structures in the same zoning district; and

**WHEREAS**, the Board finds that literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant; and

**WHEREAS**, the Board finds that the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure; and

**WHEREAS**, the Board finds that the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public interest or welfare; and

**WHEREAS**, the Board finds that no nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted use of lands, structures or buildings in other districts are grounds for the issuance of the requested variances; and

**WHEREAS**, the Board finds that the applicant has satisfied the conditions of Section 90-395 of the Code Of Ordinances (the "Code") of the City of Key West, Florida (the "City") and likewise met the requirements established by Code Section 90-274; and.

**NOW, THEREFORE BE IT RESOLVED** by the Planning Board of the City of Key West, Florida:

**Section 1.** That the above recitals are incorporated by reference as if fully set forth herein.

**Section 2.** An approval by Resolution of the Key West Planning Board for a variance to rear setback to 5 feet, 1.5 inches, at a property located at 709 Whitmarsh Lane (RE# 00015540-

000000) in the Historic High Density Residential (HHDR) zoning district, pursuant to Section 90-395, 122-630 and 108-346 of the Land Development Regulations of the Code of Ordinances of the City of Key West.

**General Conditions:**

1. The proposed construction shall be consistent with the plans prepared by T.S. Neal Architects, Inc. dated August 2, 2023.
2. Applicant shall install gutters with downspouts directed back onto the property, along the northwest building eave.
3. Driveway must provide adequate turning radius for access.
4. Applicant shall maintain a minimum 5-foot clear pathway between historic home and multi family structure.
5. Applicant shall display contractor contact number visible from street at all times during construction.

**Section 3.** This Resolution shall go into effect immediately upon its passage and adoption and authentication by the signatures of the presiding officer and the Clerk of the Board.

**Section 4.** This Resolution is subject to appeal periods as provided by the City of Key West Code of Ordinances (including the Land Development Regulations). After the City appeal period has expired, this permit or development order will be rendered to the Florida Department of Economic Opportunity. Pursuant to Chapter 73C-44, F.A.C., this permit or development order is not effective for forty five (45) days after it has been properly rendered to the DEO with all exhibits and applications attached to or incorporated by reference in this approval; that within the forty five (45) day review period, the DEO can appeal the permit or development order to the Florida Land and Water Adjudicatory Commission; and that such an

appeal stays the effectiveness of the permit until the appeal is resolved by agreement or order.

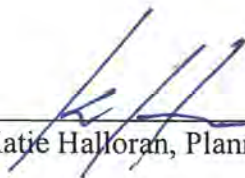

Read and passed on first reading at a regular meeting held this 17th day of August, 2023.

Authenticated by the Chair of the Planning Board and the Planning Director.
