Standards for Considering Variances

Before any variance may be granted, the Planning Board and/or Board of Adjustment must find all of the following requirements are met:

1. Existence of special conditions or circumstances. That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other land, structures or buildings in the same zoning district.

SEE ATTACHED

2. Conditions not created by applicant. That the special conditions and circumstances do not result from the action or negligence of the applicant.

3. Special privileges not conferred. That granting the variance(s) requested will not confer upon the applicant any special privileges denied by the land development regulations to other lands, buildings or structures in the same zoning district.

3140 Flagler Avenue, Key West, FL 33040
(305) 809-3720

4. Hardship conditions exist. That literal interpretation of the provisions of the land development regulations would deprive the applicant of rights commonly enjoyed by other properties in this same zoning district under the terms of this ordinance and would work unnecessary and undue hardship on the applicant.

5. Only minimum variance(s) granted. That the variance(s) granted is/are the minimum variance(s) that will make possible the reasonable use of the land, building or structure.

6. Not injurious to the public welfare. That granting of the variance(s) will be in harmony with the general intent and purpose of the land development regulations and that such variances will not be injurious to the area involved or otherwise detrimental to the public interest or welfare.

3140 Flagler Avenue, Key West, FL 33040
(305) 809-3720

7. Existing nonconforming uses of other property shall not be considered as the basis for approval. That no other nonconforming use of neighboring lands, structures, or buildings in the same district, and that no other permitted use of lands, structures or buildings in other districts shall be considered grounds for the issuance of a variance.

The Planning Board and/or Board of Adjustment shall make factual findings regarding the following:

- That the standards established in subsection (a) have been met by the applicant for a variance.
- That the applicant has demonstrated a "good neighbor policy" by contacting or attempting to contact all noticed property owners who have objected to the variance application, and by addressing the objections expressed by these neighbors. Please describe how you have addressed the "good neighbor policy."

Regarding the good neighbor policy:
I have actively seeked out the approval of my neighbors, however, they do not have doorbells. Catching them at home has proven very difficult. The neighbor behind us signed a letter okaying the construction. On the left of us are Alain and Marci Majeau they are family friends and have never expressed non-acceptance of the proposed or current structure. To the right of us live young kids but I have never been able to speak with them.

Commission Number,

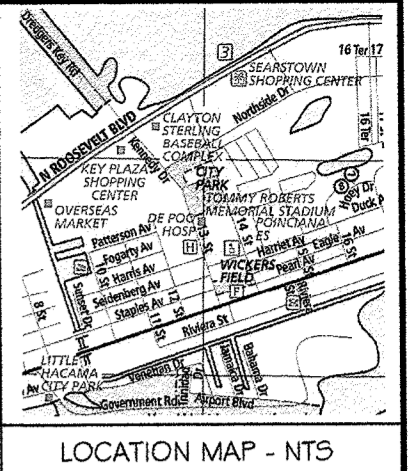

- 1) The special conditions pertaining to this part of Eagle Ave are that these homes are not free standing structures. The property lines of the back and sides of the houses connect. This creates a very limited area of space to build any structure on. For instance the shed that was originally in place of the new construction was not up to current allowances either.
- 2) The shed we had was badly in need of replacement. Unaware that the original shed was not up to standards we began working on the current structure.
- 3) Due to similarities of the houses in the neighborhood, we took notice of similar sheds being constructed without issue. We do not feel a special privilege is being requested.
- 4) As stated previously, the other homes in the same zoning area had constructed sheds or additions that are also too close to the fence line. Being that the framework has been completed we feel like it would require a significant amount of deconstruction, and reconstruction.
- 5) The proposed variance is in fact the minimum variance required to use the structure for it's intended purposed of storage.
- 6) The shed will be a standards room with one window and one door. This shed will be used only for storage and will not interfere with the current standard of the neighborhood.
- 7) Due to the deterioration of our previous storage area, a new shed was required for comfortable living. Other existing non-conforming properties are not the basis of this request. An extenuating circumstance (i.e. family emergency abroad) has my mother out of the country indefinitely. This has forced my husband and I to move in which has made the need for extra storage very important. As of now we are still using the current unfinished structure to house some of my mother's belongings (bed, clothing, dressers, etc....) These items are not safe from the elements and having a fully enclosed shed is very necessary. Especially in hurricane season.

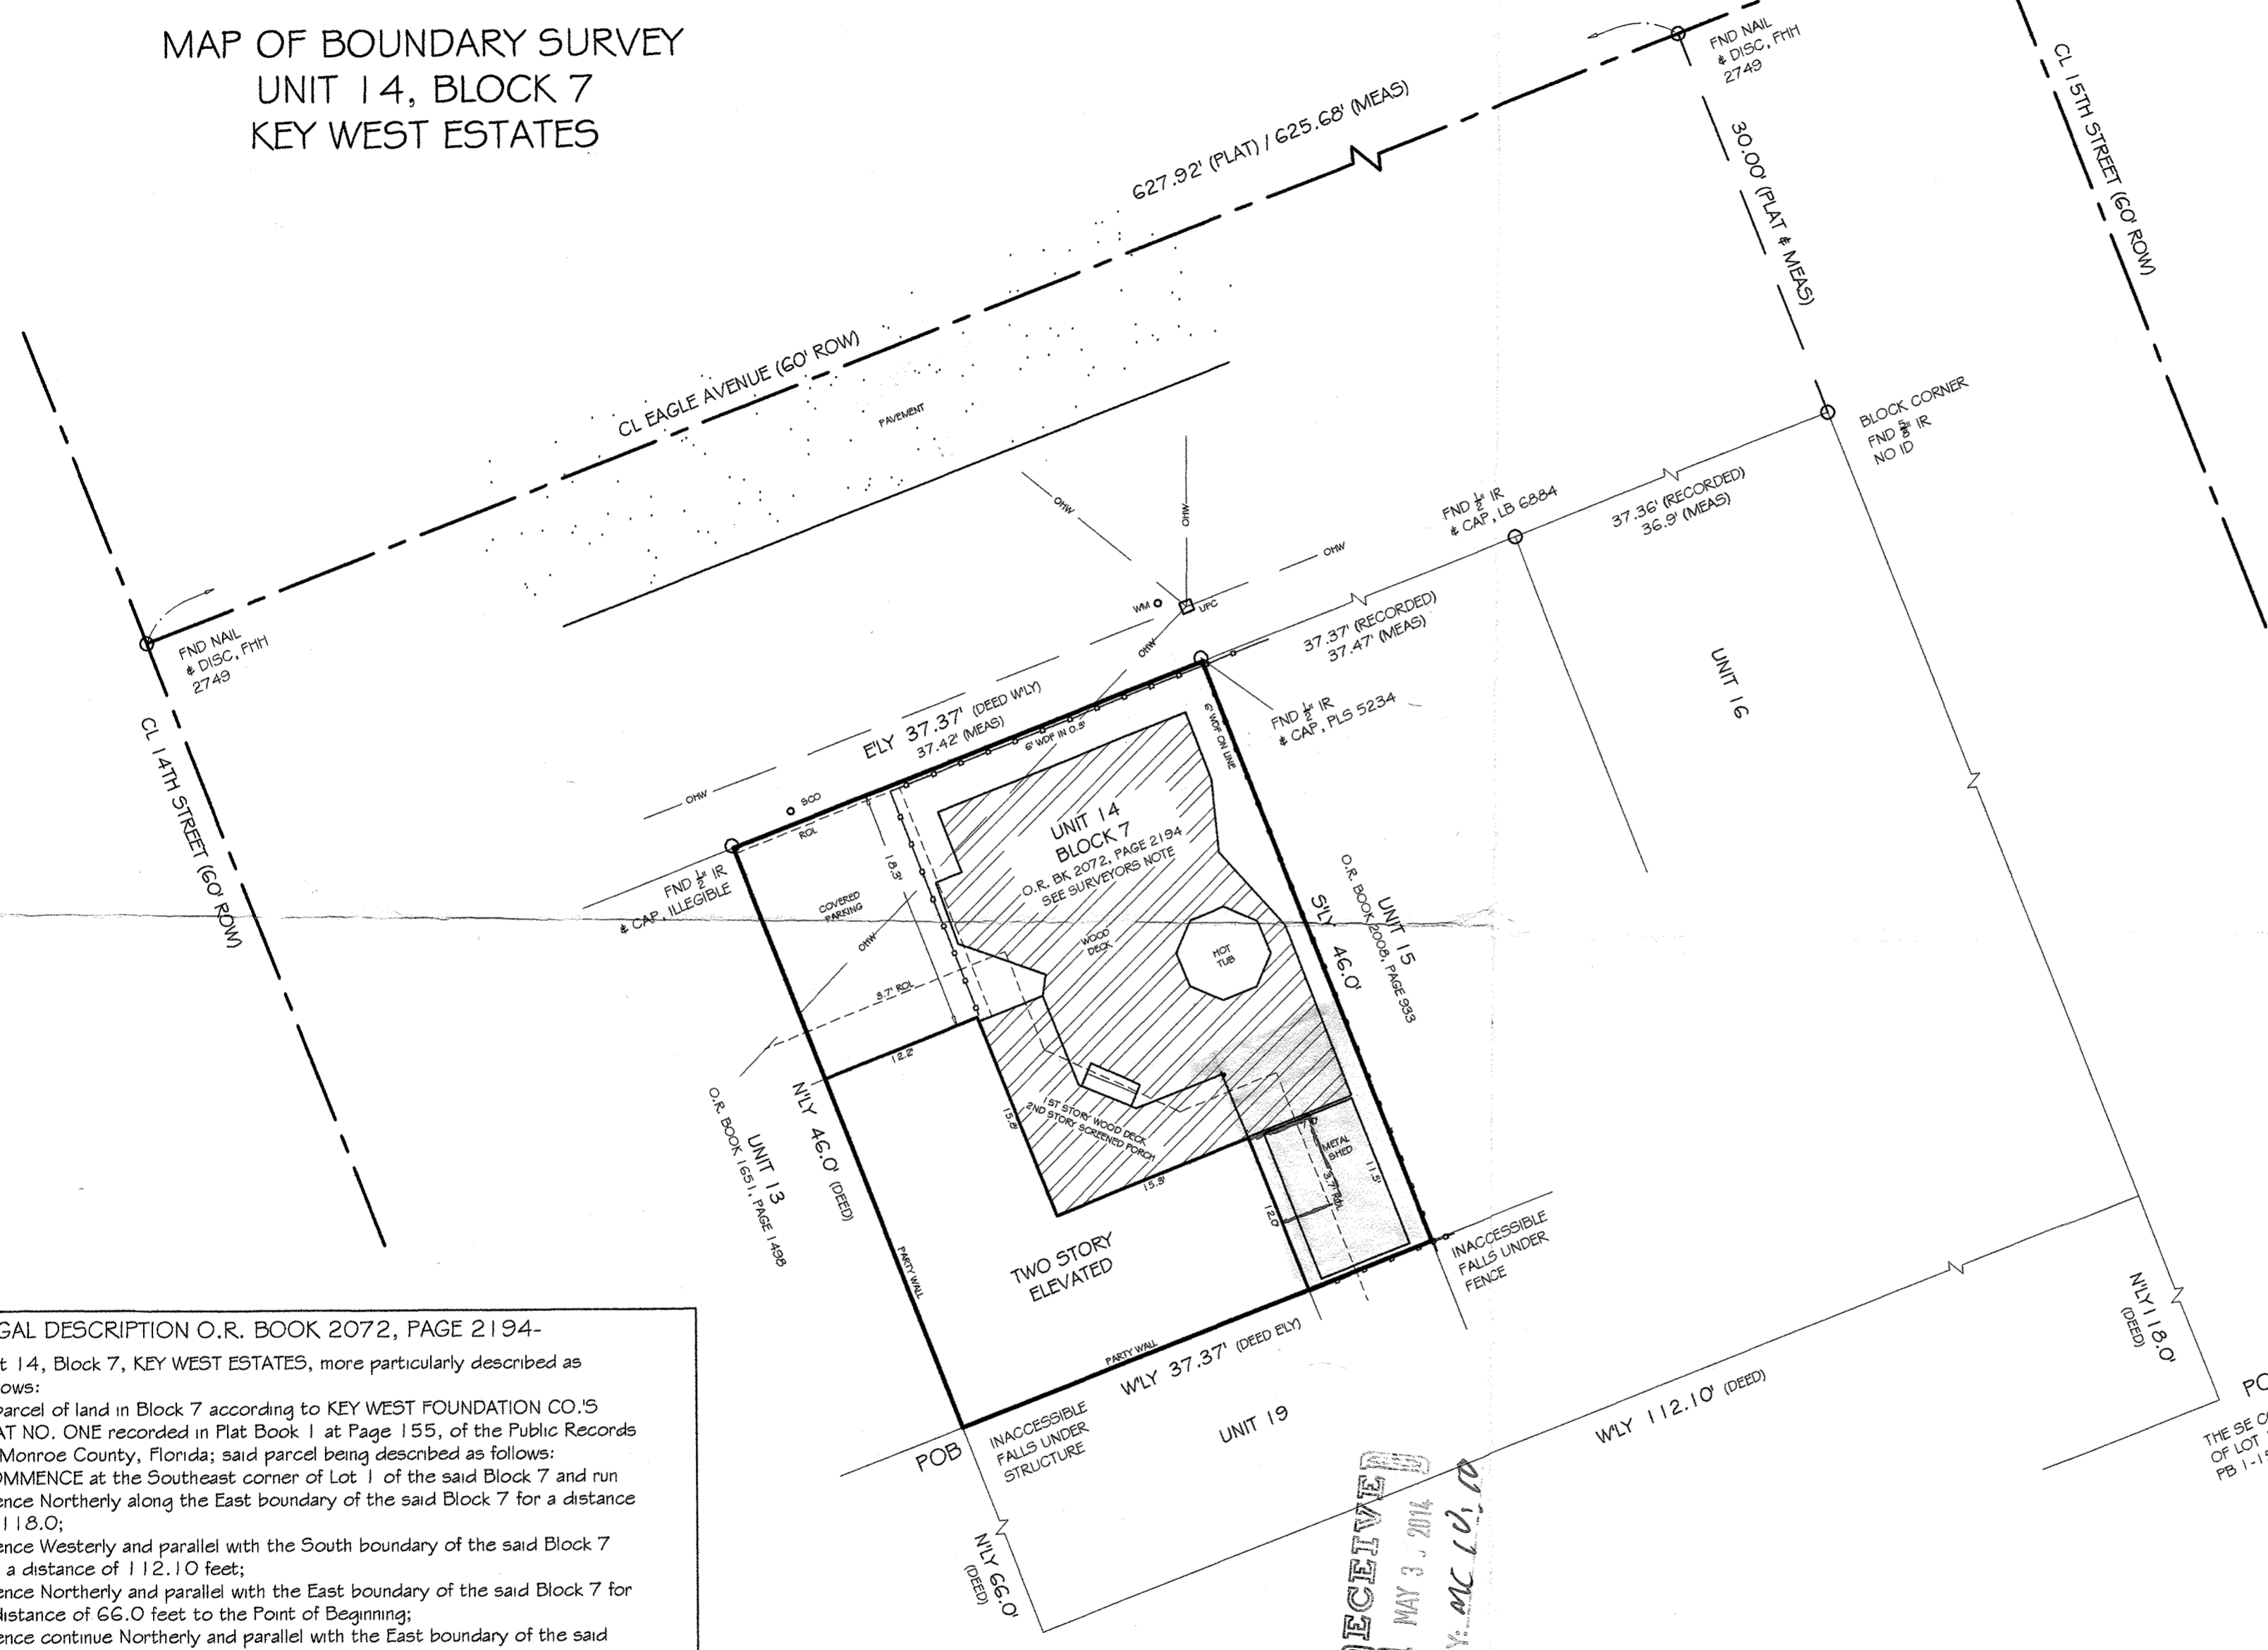

Thank you!
