

Staff Report for Item 6

To: Chairman Bryan Green and Historic Architectural Review
Commission Members

From: Kelly Perkins
HARC Assistant Planner

Meeting Date: March 28, 2017

Applicant: Bender & Associates

Application Number: H17-03-0006

Address: #1109 Fleming Street

Description of Work:

Demolition of rear and side porches at main house. Demolition of two-story front porch on accessory structure. Partial demolition of roof on accessory structure.

Site Facts:

#1109 Fleming Street is listed as a contributing resource and was constructed c.1889 according to the survey. The site has a historic eyebrow house and a rear two-story guesthouse. The rear of the property has a side facing Stickney Lane. The lot has two flood zones: the front of the property is in AE-6 and the rear is in AE-7.

This property came to HARC in May 2015 for the demolition of two structures in the rear – a carport and a shed. The Commission also approved renovations to the eyebrow house and a new guesthouse in July 2015 and again in December 2015.

Ordinance Cited in Review:

Sec. 102-217 (2): Demolition of non-historic or non-contributing buildings.

Sec. 102-218 (b): Criteria for demolitions.

Staff Analysis

This Certificate of Appropriateness proposes the demolition of a rear and side porch attached the rear of a contributing house, but those elements are not historic. The guesthouse, which has already been approved for demolition under an earlier application, is not historic. The rear walls of the addition behind the main eyebrow house have already been approved for demolition.

Staff believes the demolition will not result in the following items:

- (1) The demolition will not diminish the overall historic character of a district or neighborhood;
- (2) Nor will it destroy the historic relationship between buildings or structures and open space.
- (3) This demolition will not affect the front building façade.
- (4) Staff does not believe elements that are proposed to be demolished will qualify as contributing as set forth in Sec. 1021-62(3).

Therefore, this application can be considered for demolition. As these elements are not historic, only one reading is required for demolition.

CITY OF KEY WEST
CERTIFICATE OF APPROPRIATENESS
APENDIX FOR DEMOLITIONS
APPLICATION NUMBER H-____-____-____-_____

This document applies only to those properties located within the City of Key West Historic Zoning Districts, properties outside the historic zoning districts which are listed as contributing in the Historic Architectural Survey and or properties listed in the National Register of Historic Places.

Applications must meet or exceed the requirements outlined by the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitation and the Key West's Historic Architectural Guidelines. Once submitted, the application shall be reviewed by staff for completeness and scheduled for presentation to the Historic Architectural Review Commission for the next available meeting, unless the demolition request is for a *bona fide* Code Compliance case, in which case staff may review and approve the demolition request. **The applicant must be present at this meeting. Any person that makes changes to an approved Certificate of Appropriateness must submit a new application with such modifications.**

The filing of this application does not ensure approval as submitted. Applications that do not possess the required submittals or documentation will be considered incomplete and will not be reviewed for approval.

CRITERIA FOR DEMOLITIONS

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies);

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

- (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.
The porches indicated to be demolished are non-historic
and non-contributing.

OR THAT THE BUILDING OR STRUCTURE;

- (a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.
The porches indicated to be demolished are non-historic
and non-contributing.

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.
The porches indicated to be demolished are non-historic
and non-contributing.

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

The porches indicated to be demolished are non-historic and non-contributing.

- (d) Is not the site of a historic event with a significant effect upon society.

The porches indicated to be demolished are non-historic and non-contributing.

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

The porches indicated to be demolished are non-historic and non-contributing.

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

The porches indicated to be demolished are non-historic and non-contributing.

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

The porches indicated to be demolished are non-historic and non-contributing.

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

The porches indicated to be demolished are non-historic and non-contributing.

- (i) Has not yielded, and is not likely to yield, information important in history.

The porches indicated to be demolished are non-historic and non-contributing.

This project is designed in accordance with A.S.C.E. 7-10 to resist wind loads of 180 mph (3 second gusts).
- Prior to submitting a bid, verify all existing conditions and dimensions on the jobsite, and also after award, but prior to the start of construction.
- Contours and/or existing grades shown are approximate. Verify with field conditions. Final grading shall provide gradual slopes and grades. Slope all grades away from the building. Planting areas shall be graded with soil suitable for planting. Rock and debris will not be allowed.
- Where discrepancies between drawings, specifications, and code requirements occur, adhere to the most stringent requirement.
- Dimensions shall take precedence over scale.
- All new utilities shall be underground.
- Drawings and specifications are complementary. Refer to all sheets of drawings and applicable sections of the specifications for interfaces of work with related trades.
- After completion of construction remove all debris and construction equipment. Restore site to original condition.
- Notify owner of any possible artifacts uncovered during site grading and throughout the course of construction.
- Furnish a receptacle on site to contain construction debris and maintain the site in an orderly manner to ensure public safety and prevent blowing debris.
- Comply with all requirements for selective demolition as specified, shown on the Demolition Plan, or called for in the selective Demolition Notes.

SHEET NOTES:

1. Drawings and specifications are to be used together. Contractors and workers shall consult both when questions concerning the letter and/or intent of the design arise.
2. No changes to the drawings or to the design may be made without the written approval of the architect and Owner's representative.
3. All work shall be done in accordance with all applicable local, state, and national building and life safety codes. The contractor and all Subcontractors shall be familiar with these codes and shall build accordingly.
4. When a conflict or ambiguity exists between a Contractor's understanding of a code and the drawings and specifications, it is the Contractor's responsibility to cease work on the item in question and notify the owner's representative in a manner that will allow a timely resolution. Work undertaken as instructed by the building inspector without the Architect's or Owner's representative's permission will be removed at the Contractor's expense.
5. When a conflict or ambiguity exists between the drawings or within the specifications, or if the contractor cannot find information he needs on the drawings or in the specifications it is the responsibility of the Contractor to cease work on the item in question and notify the Owner's representative in a manner that will allow timely resolution.
6. In general, Interior dimensions are taken from the face of stud or furring strip. Nominal dimensions are noted for standard lumber sizes but actual sizes are given where lumber is to be milled to a non-standard dimension. Exterior dimension lines are taken from face of concrete (e.g. not from the face of the stucco finish).
7. Drawings shall not be scaled. Where errors or inconsistencies exist regarding dimensions on the drawings, the Contractor shall notify the Owner's representative for a resolution before proceeding.
8. "V.I.F." means "Verify in Field" and it is the Contractor's responsibility to measure or otherwise confirm a site condition that cannot be accurately determined before construction begins, and to notify the Owner's representative if it differs from what is on the drawings before proceeding with the affected work.
9. The Drawings, Specifications, and other documents prepared by the Architect, are instruments of the Architect's service, belong to the City and are Copyright 2015 by Michael Miller, Architects INC ARC10013216.
10. The site and floor plans are laid out according to the survey provided by the Owner. The Contractor shall verify any inconsistencies between the drawings and field conditions before proceeding with the affected work.
