WHEREAS, the City of Key West is a small and extremely dense island comprised of approximately 4.2 square miles, plus an additional 1.5 square miles within the city boundaries on the northern part of neighboring Stock Island.

WHEREAS, the City of Key West regulates permits, licenses, franchises, other authorizations and land uses under the provisions of its Code of Ordinances and Comprehensive Plan for vehicle based businesses which make primary use of city streets.

WHEREAS, the City of Key West has seen an increase in the level of traffic from commercial vehicles such as mopeds, electric cars, trolleys, bicycle tours, vehicles for hire and other motorized and non-motorized modes of transportation; and

WHEREAS, this increase in vehicles is especially apparent in Key West's dense nationally recognized historic district; and

WHEREAS the City Commission is concerned that the increase in

such vehicles and related congestion has adversely affected the health, safety and welfare of the City, its residents and visitors; and

WHEREAS, the City Commission finds that a comprehensive traffic study is necessary to determine traffic capacity, volume, circulation, conflicts between vehicular and non-vehicular traffic for shared space, methods for reducing impacts of traffic in residential neighborhoods, and similar issues; and

WHEREAS, the City Commission wishes to authorize a study of these issues as previously expressed at prior City Commission meetings; and

WHEREAS, City staff first began documented efforts to undertake such a study to recognize, address and resolve the existing problems on November 17, 2009 in order to develop new and revised regulations for its Code of Ordinances and Comprehensive Plan; and

WHEREAS, the City Commission finds that the imposition of a temporary moratorium on the issuance of any additional licenses, business tax receipts, permits, franchises or similar authorizations for motorized and non-motorized vehicles that make primary use of City streets in the operation of their businesses serves a valid public purpose and protects the health, safety and welfare of the public, while maintaining the status quo; and

This report shall include draft ordinance amendments to address the traffic issues discussed in the proposed study.

Section 3: If prior to November 17, 2009, an application was filed or approval was otherwise sought from the City, then the applicant may not be subject to this moratorium.
