

MEMORANDUM FOR THE FILE

DATE: December 21, 2011

FROM: Karen DeMaria, Interim Urban Forestry Manager, City of Key West

RE: 307 Olivia Street

A site inspection was done on December 20, 2011, and documented the following:

The tree is a Gumbo Limbo tree (*Bursea simaruba*).

307 Olivia Street cont....page 2

Circumference: 98" = 31.21" dbh

Location: 60% (No apparent utility line or foundation issues. It is growing onto the property line/fence area.)

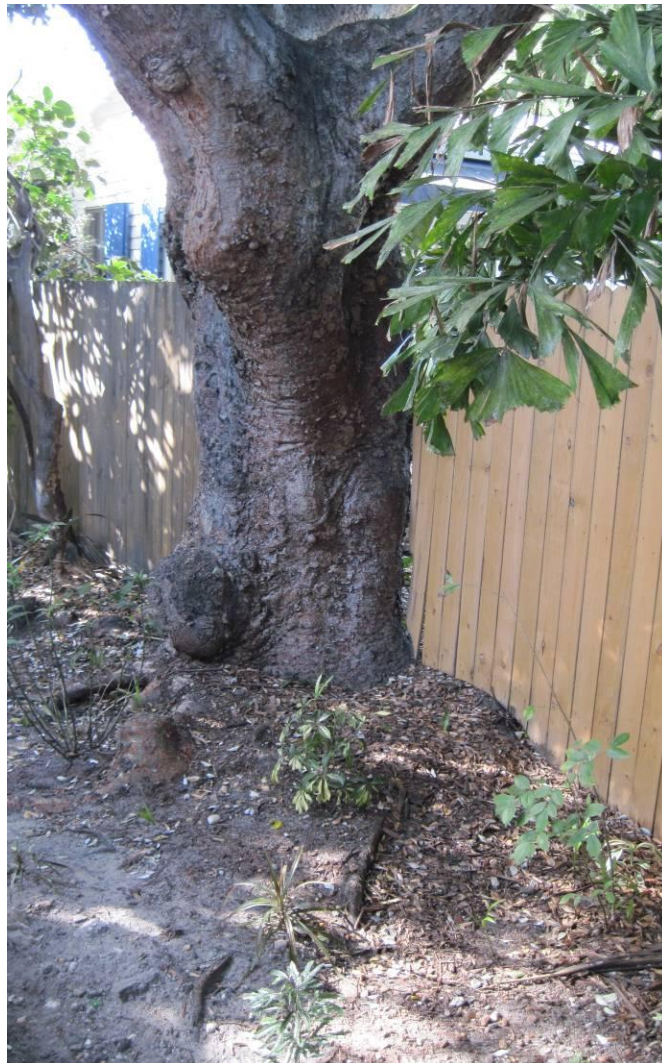

Species: 100% (on the protected tree list)

Condition: 80% (This is a very old tree. Overall health of tree appears to be good.)

NOTE: the tree does have white fly but this does not appear to be impacting the overall health of the tree.

Total Average Value = 80%

Value x Diameter=replacement caliper (dbh) inches = .80 x 31.21 " = **25" replacement**

307 Olivia Street cont....page 4
