

Historic Architectural Review Commission Staff Report for Item 16

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Enid Torregrosa-Silva, MSHP
Historic Preservation Planner

Meeting Date: November 29, 2022

Applicant: David Cera, Architect

Application Number: H2022-0050

Address: 430 Duval Street

Description of Work:

New storefronts at La Concha Hotel.

Site Facts:

The building under review is listed as a contributing resource to the historic district. The seven-story Mediterranean Revival hotel was built circa 1925. Located on the southwest corner of Duval and Fleming streets the building has undergone many alterations. The building on its first floor still possesses many of the original fenestrations and some historic elements, particularly on the south portion facing Duval Street and on Fleming Street. This is not the same with the four bays at the norther portion of the façade facing Duval Street where no historic fabric, other than the structural elements of the building. On that section of the facade all four storefronts have no rhythm or cohesiveness among them. The building “L” shape arcade is unique to the historic district.

Secretary of the Interior's Standards and Guidelines Cited on Review:

- SOIS (pages 16-23) specifically standards 1, 2, and 9.
- Guidelines for window and transom window replacements (pages 29-f- i), specifically guidelines 3 and 8.
- Storefronts (pages 29k-l), specifically first paragraph and guideline 1.
- Commercial Storefronts and Signage (page 46), specifically preamble and guidelines 1 and 5.

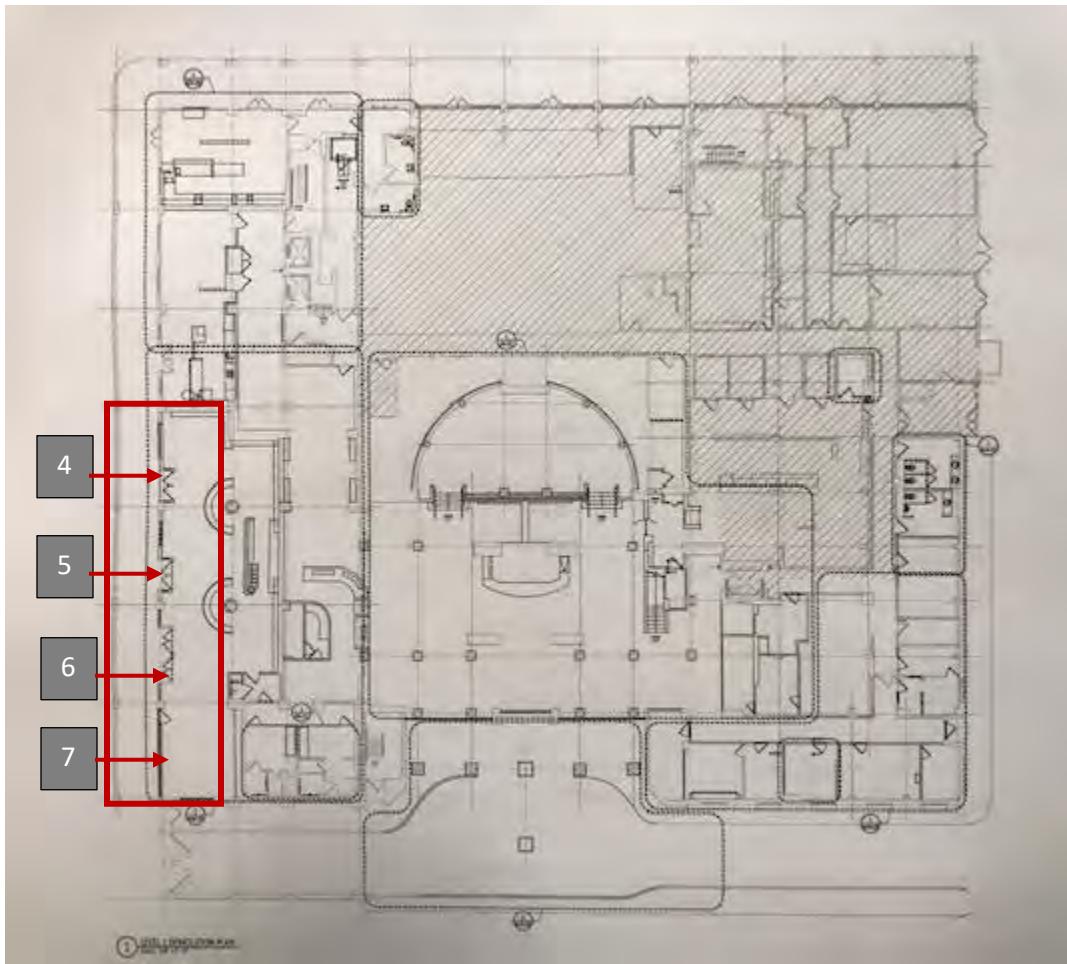

Postcard from late 1920's.

Staff Analysis:

The Certificate of Appropriateness under review is for the reconfiguration of existing storefronts facing Duval Street, specifically the four northernmost bays. It is evident that through times these four bay storefronts have changed not only in façade configuration but also portions have been recessed to accommodate new needs.

Detail of northernmost storefronts facing Duval Street.

Existing conditions marking 4 bays under review. Duval Street will be on the left side of the drawing.

Existing conditions includes the following:

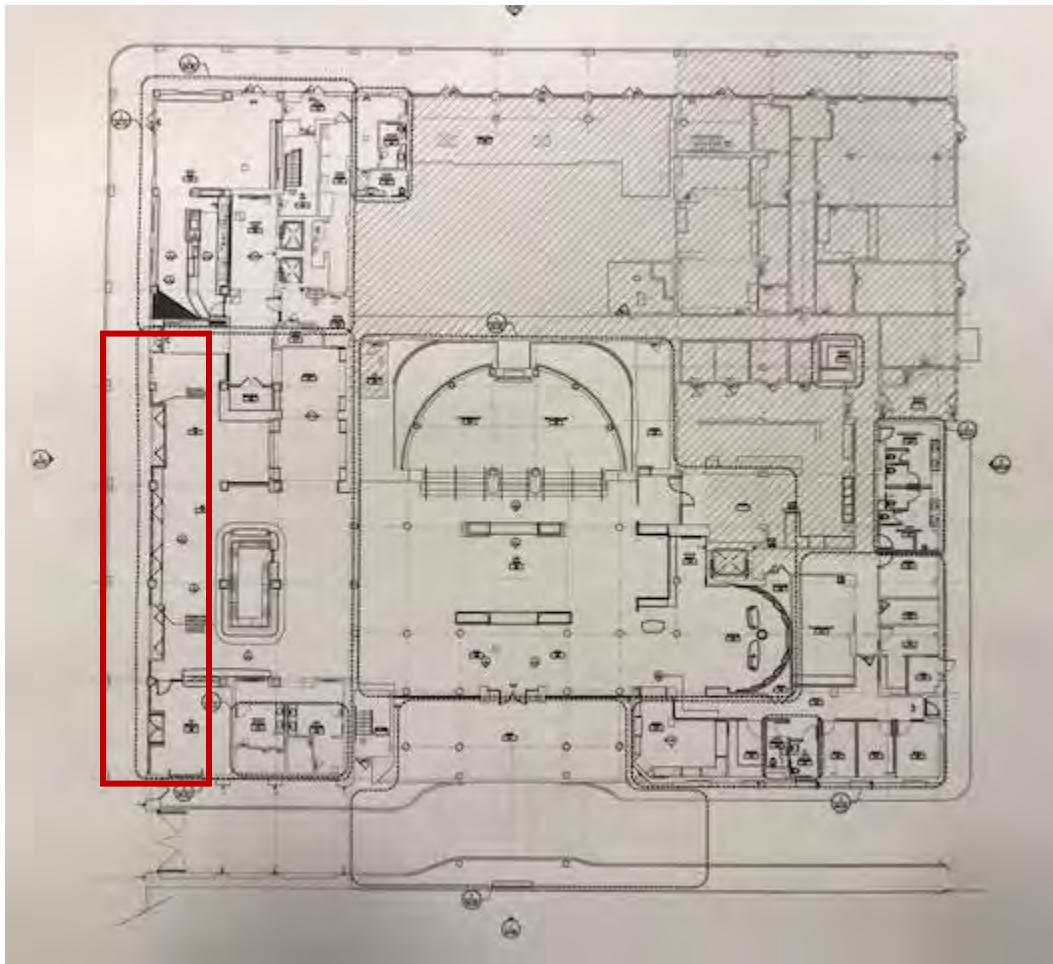

Bay 4- Recessed double door towards the north side and three picture windows.

Bay 5- Recessed double door towards the north side and two picture windows.

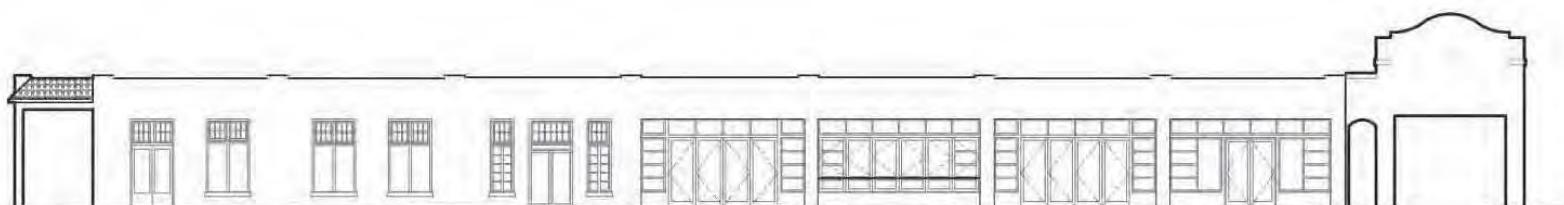

Bay 6- Recessed two double doors in the center flanked with single picture windows.

Bay 7- Flush single door towards the south with one large picture window and a smaller window towards the north.

Proposed floor plan for all four storefronts.

2022 - PROPOSED RETROFIT BACK TO LARGER OPENINGS AND WINDOW CONFIGURATION

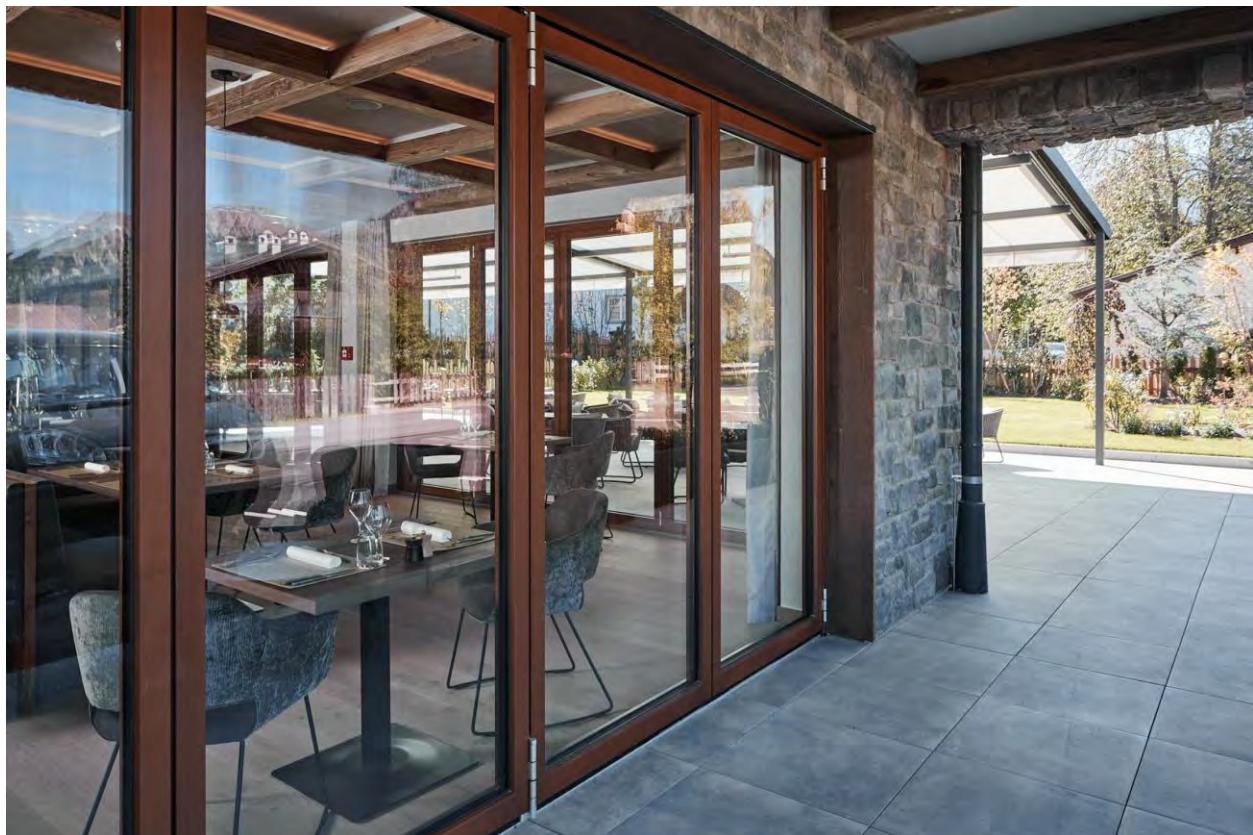

The new design proposes the following treatment for fenestrations:

- Bay 4 - Recessed two double folding doors at center flanked with sidelights
- Bay 5 - Flush two pair of folding windows at center flanked with sidelights
- Bay 6 - Recessed two double folding doors at center flanked with sidelights

Bay 7 - Recessed double doors flanked with single picture window and sidelights

All exterior frames will be wood, for both windows and doors. All new components will be painted white to match rest of the wood trim on the building. The architect is proposing Nana Wall for the doors. Here is the link to their website:

[NW Wood 540 Generation 4 Folding Glass Wall | NanaWall](#)

Example of proposed doors.

For the window frame thickness is 2". Door frame thickness is 3" sides and top, 6" bottom with no kick plates. All glass for windows and doors will be clear, no low e nor tinted glass. At bay #5 it is proposed to be clear ribbed pattern glass which is original to the building. There are examples of this glass on the Fleming St side of the building. The bottom row of this section is proposed to be ribbed because those windows open directly under a bar counter and to have a 'modesty panel' to prevent pedestrians on the sidewalk to see below the counter of ladies sitting at the bar. The division of the sidelight windows is derived from the 1930s era window configuration.

Consistency with Cited Guidelines:

It is staff's opinion that the proposed configuration of all four bays is consistent with the guidelines as they create a cohesive facade. Nevertheless, staff finds the proposed folding doors and windows

to be foreign to the period of the building and its historic character. There is pictorial evidence that this building historically had regular hinged entry doors and fixed windows, whether they were used as sidelights or storefronts, some can still be seen on the Fleming Street elevation. Allowing the use of folding doors and windows will alter the sense and historic character of the building as the structure has always maintained on its first-floor commercial elevation fixed storefronts, where the only means of accessing the interior is through traditional commercial doors. Altering three out of four bays with large operable folding doors and windows while in use will adversely impact the still retained controlled connection between the exterior and interior of the building. Staff recommends the use of traditional commercial wood with glass hinged doors and fixed glass to maintain the architectural character the building intended to have as it was designed.

The Secretary of the Interior's Standards are very specific as to alterations to historic buildings. Although the first-floor four northernmost bays of this building had changed through time, the building has retained one main characteristic, which is how permeable the first-floor façade is. Historically the first floor contained the lobby and commercial spaces that supported the hotel. Through historic photographs and current conditions, it can be observed the preservation of that character defining element in the building. Standard # 9 clearly states “new additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. **The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.**” Staff finds that folding doors and windows will alter and diminish the integrity of this unique and historic building.

PROJECT INCLUDES: REPLACEMENT OF WINDOWS RELOCATION OF A STRUCTURE ELEVATION OF A STRUCTURE

PROJECT INVOLVES A CONTRIBUTING STRUCTURE: YES NO INVOLVES A HISTORIC STRUCTURE: YES NO

PROJECT INVOLVES A STRUCTURE THAT IS INDIVIDUALLY LISTED ON THE NATIONAL REGISTER: YES NO

DETAILED PROJECT DESCRIPTION INCLUDING MATERIALS, HEIGHT, DIMENSIONS, SQUARE FOOTAGE, LOCATION, ETC.	
GENERAL: Exterior renovation to La Concha Hotel: No additions to height or footprint to building. Exterior to be painted; awnings replaced; overhang at hotel lobby entrance to be removed and replaced with new. New overhang to match 1986 portion of the building. Four bays of Duval Street facade to revert back to original appearance - based on photographs and drawing references. Second floor balcony doors at guestrooms along Duval St (qty 10) to be replaced to match existing.	
MAIN BUILDING: Duval Street facade: New windows and doors to be white to match existing. Appearance to reflect the 1930s appearance as shown in 1986 renovation drawings. 1986 Lobby entrance: New enlarged overhang to extend across the drive without need for a center column. Replace pavers at pedestrian area of entrance with terrazzo.	
DEMOLITION (PLEASE FILL OUT AND ATTACH DEMOLITION APPENDIX):

DATE AND PRINT NAME

DETAILED PROJECT DESCRIPTION OF DEMOLITION

1. Renovation to exterior of La Concha Hotel to include removal non-historic doors, windows, and wall infill along Duval Street which were not present in 1970s era photos. The intent is to remove the areas of the non-historic infill and return the facade to resemble 1930s storefront appearance.
2. The removal of the existing overhang at the hotel entrance, located at the one-way entry drive at the north side of the property. The current version of the covered entrance is from the 2010s. The intent is to remove the overhang and the support column in the center of the drive and install a new overhang across the drive to shelter visitors as they enter the hotel.

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:
- (a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

Not applicable.

- (2) Or explain how the building or structure meets the criteria below:

- (a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Area of first floor facade to be removed is not original to the building. Photos from the 1970's display a different condition than current appearance. A 1986 renovation also references 1930s era storefront appearance that coincides with the 1970s window sizes. Entrance overhang: this area was originally built in 1986 and is not historic to the building.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

- (b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

Not applicable.

- (c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

Not applicable.

- (d) Is not the site of a historic event with significant effect upon society.

Not applicable.

- (e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

Not applicable.

- (f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

Not applicable.

- (g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

Not applicable.

- (h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Not applicable.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

- (i) Has not yielded, and is not likely to yield, information important in history,

Not applicable.

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:

The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):

- (1) Removing buildings or structures that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.

Not applicable.

- (2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.

Not applicable.

- (3) Removing an historic building or structure in a complex; or removing a building facade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.

Not applicable.

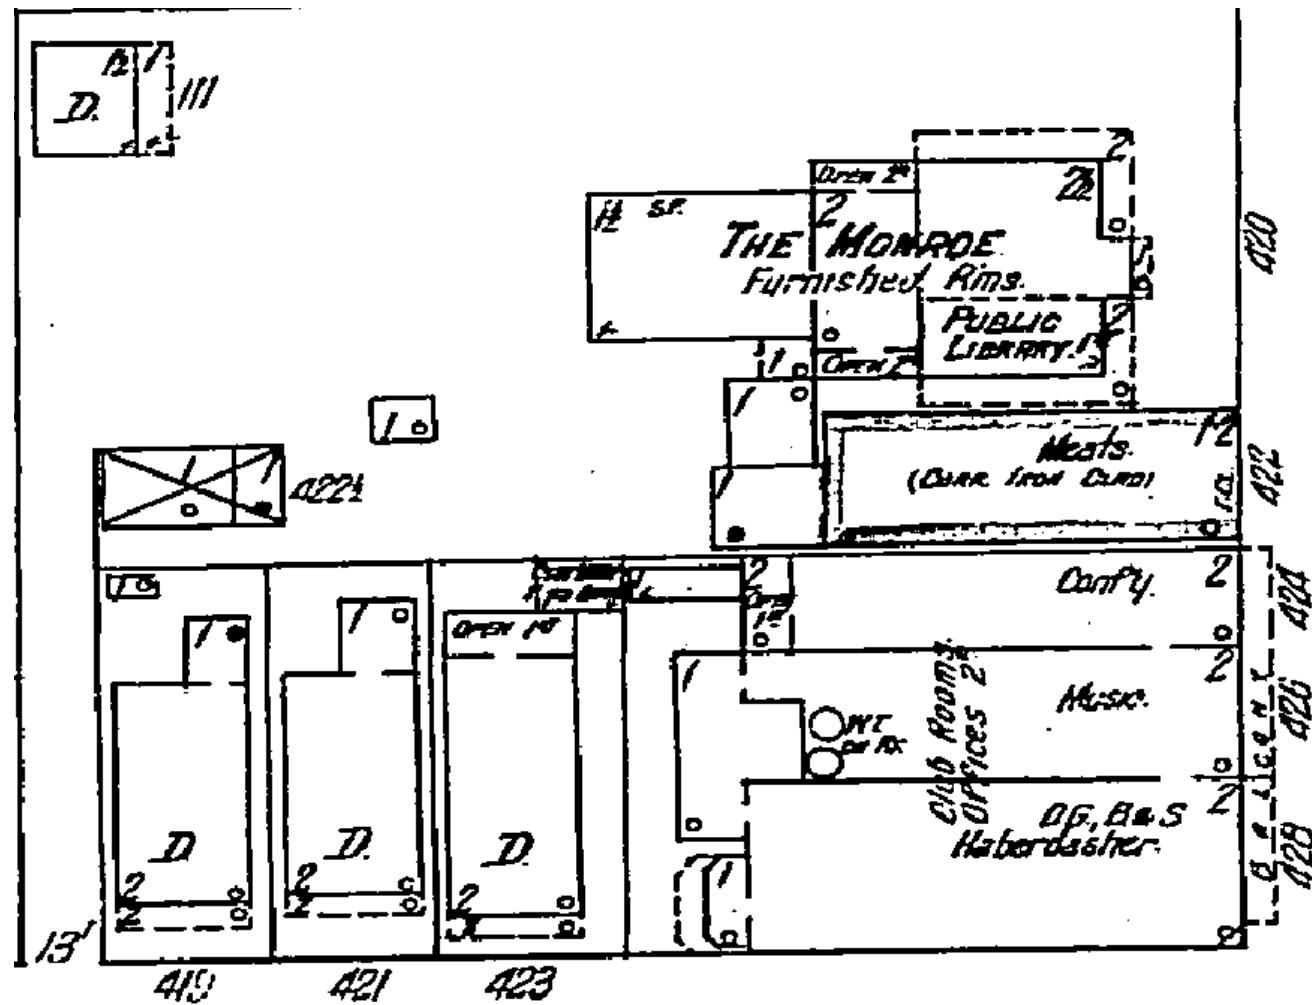

- (4) Removing buildings or structures that would otherwise qualify as contributing.

Not applicable.

Public Meeting Notice

The Historic Architectural Review Commission will hold a public meeting at **5:00 p.m., November 29, 2022, at City Hall, 1300 White Street**, Key West, Florida. To view the live feed of the meeting, you can tune in to Comcast channel 77, AT&T Uverse channel 99. If you wish to participate virtually, please contact HARC staff at 305-809-3973. The purpose of the hearing will be to consider a request for:

NEW STOREFRONTS AT LA CONCHA HOTEL. PARTIAL DEMOLITION AT LA CNCHA HOTEL.

#430 DUVAL STREET

Applicant – David Cera, Architect Application #H2022-0050

If you wish to see the application or have any questions, you may visit the Planning Department during regular office hours at 1300 White Street, call 305-809-3973 or visit our website at www.cityofkeywest-fl.gov.

THIS NOTICE CAN NOT BE REMOVED FROM THE SITE UNTIL HARC FINAL DETERMINATION

ADA ASSISTANCE: It is the policy of the City of Key West to comply with all requirements of the Americans with Disabilities Act (ADA). Please call the TTY number at 800-955-8771 or 800-955-8770 (Voice) or the ADA Coordinator at 305-809-3811 at least five business days in advance for sign language interpreters, assistive listening devices, or materials in accessible format.

HARC POSTING AFFIDAVIT

STATE OF FLORIDA:
COUNTY OF MONROE:

BEFORE ME, the undersigned authority, personally appeared Enid Torregrosa Silva, who, first being duly sworn, on oath, depose and says that the following statements are true and correct to the best of his/her knowledge and belief:

- That a legal notice for Public Notice of Hearing of the Historic Architectural Review Commission (HARC) was placed on the following address:

430 Duval Street on the
18 day of November, 2022.

This legal notice(s) contained an area of at least 8.5"x11".

The property was posted to notice a public hearing before the Key West Historic Architectural Review Commission to be held on November 29, 2022.

The legal notice(s) is/are clearly visible from the public street adjacent to the property.

The Certificate of Appropriateness number for this legal notice is H 2022-0050

- A photograph of that legal notice posted in the property is attached hereto.

Signed Name of Affiant:

Enid Torregrosa Silva
Date: November 18, 2022
Address: 1300 White street
City: Key West
State, Zip: Florida 33040

The forgoing instrument was acknowledged before me on this 18 day of November, 2022.

By (Print name of Affiant) Enid Torregrosa Silva personally known to me or has produced identification and who did take an oath.
