**Subject:** [EXTERNAL] Strangler fig tree removal at he key west cemetery

**CAUTION:** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I understand that a request has been made to remove the two large strangler fig trees in the key west cemetery (frances street x olivia street x petronia street).

These trees are historic and provide necessary shade in the cemetery.

significantly more damage to the graves is caused by the iguanas living in the graves/cemetery; i suggest these get taken care of before removal of any of our much needed tree canopy

yours,

Rosi Ware
