

FY 27 SAB Waste Diversion goals

Explore new ways to compost within the community

Work with schools on implementing reusables in the cafeteria

Work with businesses/restaurants to reduce single use items

Work with schools to incorporate food recovery programs, composting, and recycling programs.

Continue to work with special event coordinators to make events more sustainable.

Reduce contamination in recycling

Find solutions to reduce marine debris along shorelines and in critical habitats.

Implement an Adopt-a-Drain program for stormwater drains throughout the city

Continue outreach and education for the community and businesses
