If the work is reduced by alterations, such action shall not constitute a claim for damages based on loss of anticipated Profits.

21. EXAMINATION AND VERIFICATION OF CONTRACT DOCUMENTS

The Bidder shall thoroughly examine and become familiar with all of the various parts of these Contract Documents and determine the nature and location of the work, the general and local conditions, and all other matters, which can in any way affect the work under this contract. THE ENGINEER

25. AUTHORITY OF THE ENGINEER

The Engineer will be the City's representative during the construction period. Their authority and responsibility will be limited to the provisions set forth in these Contract Documents. The Engineer will have the authority to reject work that does not conform to the Contract Documents. However, neither the Engineer's authority to act under this provision, nor any decision made by them in good faith either to exercise or not to exercise such authority, shall give rise to any duty or responsibility of the Engineer to the Bidder, any Subcontractor, their respective Sureties, any of their agents or employees, or any other person performing any of the work.

26. DUTIES AND RESPONSIBILITIES OF THE ENGINEER

The Engineer will make visits to the site at intervals appropriate to the various stages of construction to observe the progress and quality of the work and to determine, in general, if the work is proceeding in accordance with the intent of the Contract Documents. The Engineer will not make comprehensive or continuous review or observation to check quality or quantity of the work, and they will not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the work. Visits and observations made by the Engineer shall not relieve the Bidder of their obligation to conduct comprehensive inspections of the work and to furnish materials and perform acceptable work, and to provide adequate safety precautions, in conformance with the intent of the contract.

The Engineer will make recommendations to the City, in writing, on all claims of the City or the Bidder arising from interpretation or execution of the Contract Documents. Such recommendations will be of factual and/or technical nature, and will not include the legal interpretation of the Contract Documents. Any necessary legal interpretation of the Contract Document will be made by the City. Such recommendation shall be necessary before the Bidder can receive additional money under the terms of the contract. Changes in work ordered by the Engineer shall be made in compliance with Article; *Changes in the Work*.

One or more project representatives may be assigned to observe the work. It is understood that such project representatives shall have the authority to issue notice of nonconformance and make decisions within the limitations of the authority of the Engineer. The Bidder shall furnish all reasonable assistance required by the Engineer or project representatives for proper observation of the work. The above-mentioned project representatives shall not relieve the Bidder of their obligations to conduct comprehensive inspections of the work and to furnish materials and perform acceptable work, and to provide adequate safety precautions, in conformance with the intent of the contract.

27. LIMITATIONS ON ENGINEER'S RESPONSIBILITIES

Engineers will not be responsible for Bidder's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, and Engineer will not be responsible for Bidder's failure to perform or furnish the work in accordance with the Contract Documents.

Engineers will not be responsible for the acts or omissions of the Bidder or of any Subcontractor, any supplier, or of any other person or organization performing or furnishing any of the work.

Whenever in the Contract Documents the terms "as ordered", "as directed", "as required", "as allowed", "as approved", or terms of like effect or import are used, or the adjectives "reasonable", "suitable", "acceptable", "proper", or "satisfactory", or adjectives of like effect or import are used to describe a requirement, direction, review or judgment of Engineer as to the work, it is intended that such requirement, direction, review or judgment will be solely to evaluate the work for compliance with the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term or adjective shall not be effective to assign to Engineer any duty or authority to supervise or direct the

furnishing or performance of the work or any duty or authority to undertake responsibility contrary to the provisions of this Article.

28. REJECTED WORK

Any defective work or nonconforming materials or equipment that may be discovered at any time prior to expiration of the warranty period shall be removed and replaced by work which shall conform to the provisions of the Contract Documents. Any material condemned or rejected shall be removed at once from the project site.

Failure on the part of the Engineer to condemn or reject bad or inferior work or to note nonconforming materials or equipment on the Bidder submittals shall not be construed to imply acceptance of such work. The City shall reserve and retain all of its rights and remedies at law against the Bidder and its Surety for correction of any and all latent defects discovered after the guarantee period.

29. LINES AND GRADES

Lines and grades shall be established as provided in the general conditions. All submittals shall be identified as Engineer may require. The data shown shall be complete with respect to quantities, dimensions specified, performance and design criteria, materials, and similar data to enable Engineer to review the information. Bidder shall also submit to Engineer for review, with such promptness as to cause no delay in work, all samples required by the Contract Documents. All samples shall have been checked by and accompanied by a specific written indication that the Bidder has satisfied the Bidder's responsibilities under the Contract Documents with respect to the review of the submission and shall be identified clearly as to material, supplier, pertinent data such as catalog numbers and the use for which intended.

Before submission of each submittal, the Bidder shall have determined and verified all quantities, dimensions, specified performance criteria, installation requirements, materials, catalog numbers, and similar data with respect thereto and reviewed or coordinated each submittal with other submittals and with the requirements of the work and the Contract Documents.

At the time of each submission, the Bidder shall give the Engineer specific written notice of each variation that the submittal may have from the requirements of the Contract Documents, and, in addition, shall cause a specific notation to be made on each shop drawing submitted to Engineer for review and approval of each variation.

Engineer will review submittals with reasonable promptness, but Engineer's review will be only for conformance with the design concept of the project and for compliance with the information given in the Contract Documents and shall not extend to means, methods, techniques, sequences, or procedures of construction (except where a specific means, method, technique, sequence, or Procedure of construction is indicated in or required by the Contract Documents) or to safety precautions or programs incident thereto. The review of a separate item as such will not indicate review of the assembly in which the item functions. The Bidder shall make corrections required by Engineer, and shall return the required number of corrected copies of shop drawings and submit as required new samples for review. The Bidder shall direct specific attention in writing to revisions other than the corrections called for by Engineer on previous submittals.

Engineer's review of submittals shall not relieve the Bidder from the responsibility for any variation from the requirements of the Contract Documents unless the Bidder has, in writing, called the Engineer's attention to each such variation at the time of submission and Engineer has given written approval of each such variation by a specific written notation thereof incorporated therein or accompanying the shop drawing or sample approval; nor will any approval by

Engineer relieve Bidder from responsibility for errors or omissions in the shop drawings or from responsibility for having complied with the provisions herein.

Where a shop drawing or sample is required by the specifications, any related work performed prior to Engineer's review and approval of the pertinent submission shall be at the sole expense and responsibility of the Bidder.

31. DETAIL DRAWINGS AND INSTRUCTIONS

The Engineer will furnish, with reasonable promptness, additional instructions by means of Drawings or otherwise, if, in the Engineer's opinion, such are required for the proper execution of the work. In addition, full compliance by the Bidder with the U.S. Department of Labor's Occupational Safety and Health Standards, as established in Public Law 91-596, will be required under the terms of this contract.

The Bidder s and manufacturers of the equipment shall be held responsible for compliance with the requirements included herein. Bidders shall notify all equipment suppliers and Subcontractors of the Provisions of this Article.

47. SUBSTITUTION OF MATERIALS

Except for City-selected equipment items, and items where no substitution is clearly specified, whenever any material, article, device, product, fixture, form, type of construction, or process is indicated or specified by patent or proprietary

name, by name of manufacturer, or by catalog number, such specifications shall be deemed to be used for the purpose of establishing a standard of quality and facilitating the description of the material or process desired. This procedure is not to be construed as eliminating from competition other products of equal or better quality by other manufacturers where fully suitable in design and shall be deemed to be followed by the words "or equal". The Bidder may, in such cases, submit complete data to the Engineer for consideration of another material, type, or process that shall be substantially equal in every respect to that so indicated or specified. Substitute materials shall not be used unless approved in writing. The Engineer will be the sole judge of the substituted article or material.

48. TESTS, SAMPLES, AND OBSERVATIONS

The Bidder shall furnish, without extra charge, the necessary test pieces and samples, including facilities and labor for obtaining the same, as requested by the Engineer. When required, the Bidder shall furnish certificates of tests of materials and equipment made at the point of manufacture by a recognized testing laboratory.

The City, Engineer, and authorized government agents, and their representatives shall at all times be provided safe access to the work wherever it is in preparation or progress, and the Bidder shall provide facilities for such access and for observations, including maintenance of temporary and permanent access.

If any work should be covered up without approval or consent of the Engineer, it shall, if required by the Engineer, be uncovered for examination at the Bidder's expense. Reexamination of questioned work may be ordered by the Engineer, and, if so ordered, the work shall be uncovered by the Bidder. If such work is found to be in accordance with the Contract Documents, the City will pay the cost of uncovering, exposure, observation, inspection, testing and reconstruction. If such work is found to be not in accordance with the Contract Documents, the Bidder shall correct the defective work, and the cost of reexamination and correction of the defective work shall be paid by the Bidder.

49. ROYALTIES AND PATENTS

The Bidder shall pay all royalty and licenses fees, unless otherwise specified. The Bidder shall defend all suits or claims for infringement of any patent rights and shall save the City and the Engineer harmless from any and all loss, including reasonable attorneys' fees, on account thereof.

50. BIDDER'S RIGHT TO TERMINATE CONTRACT

If the work should be stopped under an order of any court or other public authority for a period of more than three (3) months, through no act or fault of the Bidder, its Subcontractors, or respective employees or if the Engineer should fail to make recommendation for payment to the City or return payment request to Bidder for revision within thirty (30) days after it is due, or if the City should fail to pay the Bidder within 30 days after time specified in Article; *Partial Payments*, any sum recommended by the Engineer, then the Bidder may, upon fifteen (15) days' written notice to the City and the Engineer, stop work or terminate this contract and recover from the City payment for all acceptable work performed and reasonable termination expenses, unless said default has been remedied.

51. CORRECTION OF DEFECTIVE WORK DURING WARRANTY PERIOD

The Bidder hereby agrees to make, at their own expense, all repairs or replacements necessitated by defects in materials or workmanship, provided under terms of this contract, and pay for any damage to other works resulting from such defects, which become evident within two (2) years after the date of final acceptance of the work or within two (2) years after the date of substantial completion established by the Engineer for specified items of equipment, or within such longer period as may be prescribed by law or by the terms of any applicable special guarantee required by the Contract Documents. Un-remedied defects identified for correction during the warranty period but remaining after its expiration shall be considered as part of the obligations of the warranty. Defects in material, workmanship, or equipment which are remedied as a result of obligations of the warranty shall subject the remedied portion of the work to an extended warranty period of two (2) years after the defect has been remedied.

The Bidder further assumes responsibility for a similar guarantee for all work and materials provided by Subcontractors or manufacturers of packaged equipment components. The effective date for the start of the guarantee or warranty period for equipment qualifying as substantially complete is defined in Article; *Substantial Completion*, and Article; *Substantial*

Completion Date, in these General Conditions.

The Bidder also agrees to hold the City and the Engineer harmless from liability of any kind arising from damage due to said defects. The Bidder shall make all repairs and replacements promptly upon receipt of written order for same from the City. If the Bidder fails to make the repairs and replacements promptly, or in an emergency where delay would cause serious risk, or loss, or damage, the City may have the defective work corrected or the rejected work removed and replaced, and the Bidder and his Surety shall be liable for the cost thereof.

PROGRESS OF THE WORK

52. BEGINNING OF THE WORK

Following execution of the contract, the Bidder shall meet with the City and Engineer relative to their arrangements for prosecuting the work.

53. SCHEDULES AND PROGRESS REPORTS

Prior to starting the construction, the Bidder shall prepare and submit to the Engineer, a progress schedule showing the dates on which each part or division of the work is expected to be started and finished, and a preliminary schedule for submittals. The Progress schedule for submittals shall be brought up to date and submitted to the Engineer at the end of each month or at such other times the Engineer may request.

The Bidder shall forward to the Engineer, at the end of each month, an itemized report of the delivery status of major and critical items of purchased equipment and material, including shop drawings and the status of shop and field fabricated work. These progress reports shall indicate the date of the purchase order, the current percentage of completion, estimated delivery, and cause of delay, if any.

If the completion of any part of the work or the delivery of materials is behind the submitted progress schedule, the Bidder shall submit in writing a plan acceptable to the City and Engineer for bringing the work up to schedule.

The City shall have the right to withhold progress payments for the work if the Bidder fails to update and submit the progress schedule and reports as specified.

54. PROSECUTION OF THE WORK

It is expressly understood and agreed that the time of beginning, rate of progress, and time of completion of the work are the essence of this contract. The work shall be prosecuted at such time, and in or on such part or parts of the project as may be required, to complete the project as contemplated in the Contract Documents and the progress schedule.

If the Bidder desires to carry on work at night or outside the regular hours, they shall give timely notice to the Engineer to allow satisfactory arrangements to be made for observing the work in progress. However, a request to work at night does not constitute approval, approval will need to be granted by the City prior to work being conducted at night.

55. CITY'S RIGHT TO RETAIN IMPERFECT WORK

If any part or portion of the work completed under this contract shall prove defective and not in accordance with the Drawings and Specifications, and if the imperfection in the same shall not be of sufficient magnitude or importance as to make the work dangerous or unsuitable, or if the removal of such work will create conditions which are dangerous or undesirable, the City shall have the right and authority to retain such work but will make such deductions in the final payment therefore as may be just and reasonable.

56. CITY'S RIGHT TO DO WORK

Should the Bidder neglect to prosecute the work in conformance with the Contract Documents or neglect or refuse at their own cost to remove and replace work rejected by the Engineer, then the City may notify the Surety of the condition, and after ten (10) days' written notice to the Bidder and the Surety, or without notice if an emergency or danger to the work or public exists, and without prejudice to any other right which the City may have under contract, or otherwise, take over that portion of the work which has been improperly or non-timely executed, and make good the deficiencies and deduct the cost thereof from the payments then or thereafter due the Bidder.

57. CITY'S RIGHT TO TRANSFER EMPLOYMENT

If the Bidder should abandon the work or if they should persistently or repeatedly refuse or should fail to make prompt payment to Subcontractors for material or labor, or to persistently disregard laws, ordinances, or to prosecute the work in conformance with the Contract Documents, or otherwise be guilty of a substantial violation of any provision of the contract or any laws or ordinance, then the City may, without prejudice to any other right or remedy, and after giving the Bidder and Surety ten (10) days' written notice, transfer the employment for said work from the Bidder to the Surety. Upon receipt of such notice, such Surety shall enter upon the premises and take possession of all materials, tools, and appliances thereon for the purpose of completing the work included under this contract and employ by contract or otherwise, any qualified person or persons to finish the work and provide the materials therefore, in accordance with the Contract Documents, without termination of the continuing full force and effect of this contract. In the event of such transfer of employment to such Surety, the Surety shall be paid in its own name on estimates according to the terms hereof without any right of the Bidder to make any claim for the same or any part thereof.

If, after the furnishing of said written notice to the Surety, the Bidder and the Surety still fail to make reasonable progress on the performance of the work, the City may terminate the employment of the Bidder and take possession of the premises and of all materials, tools, and appliances thereon and finish the work by whatever method they may deem expedient and charge the cost thereof to the Bidder and the Surety. In such case, the Bidder shall not be entitled to receive any further payment until the work is finished. If the expense of completing the Contract, including compensation for additional managerial and administrative services, shall exceed such unpaid balance, the Bidder and the Surety shall pay the difference to the City.

TERMINATION FOR CONVENIENCE AND RIGHT OF SUSPENSION

The City shall have the right to terminate this contract without cause by written Notice of Termination to the Bidder. In the event of such termination for convenience, the Bidder's recovery against the City shall be limited to that portion of the Contract amount earned through the date of termination, together with any retainage withheld and reasonable termination expenses incurred. The Bidder shall not be entitled to any other or further recovery against the City, including, but not limited to, damages or any anticipated profit on portions of the work not performed.

The City shall have the right to suspend all or any portions of the Work upon giving the Bidder prior written notice of such suspension. If all or any portion of the work is so suspended, the Bidder shall be entitled to reasonable costs, expenses and time extension associated with the suspension.

58. DELAYS AND EXTENSION OF TIME

If the Bidder is delayed in the progress of the work by any act or neglect of the City or the Engineer, or by any separate Bidder employed by the City, or by strikes, lockouts, fire, adverse weather conditions not reasonably anticipated, or acts of nature, and if the Bidder, within forty-eight (48) hours of the start of the occurrence, gives written notice to the City of the cause of the potential delay and estimate of the possible time extension involved, and within ten (10) days after the cause of the delay has been remedied, the Bidder gives written notice to the City of any actual time extension requested as a result of the aforementioned occurrence, then the Contract time may be extended by change order for such reasonable time as the Engineer determines. It is agreed that no claim shall be made or allowed for any damages, loss, or expense which may arise out of any delay caused by the above-mentioned acts or occurrences other than claims for the appropriate extension of time. No extension of time will be granted to the Bidder for delays occurring to parts of the work that have no measurable impact on the completion of the total work under this contract. No extension of time will be considered because weather conditions reasonably anticipated for the area in which the work is being performed. Reasonably anticipated weather conditions will be based on official records of monthly precipitation and other historical data. Adverse weather conditions, if determined to be of a severity that would impact progress of the work, may be considered as cause for an extension of contract completion time.

Delays in delivery of equipment or material purchased by the Bidder or their Subcontractors, including City-selected equipment shall not be considered as a just cause for delay, unless the City determines that for good cause the delay is beyond the control of the Bidder. The Bidder shall be fully responsible for the timely ordering, scheduling, complete the work is the per-diem rate, as stipulated in the Bid. The said amount is hereby agreed upon as a reasonable estimate of the costs, which may be accrued by the City after the expiration of the time of completion. It is expressly understood and

agreed that this amount is not to be considered in the nature of a penalty, but as liquidated damages which have accrued against the Bidder. The City shall have the right to deduct such damages from any amount due, or that may become due to the Bidder, or the amount of such damages shall be due and collectible from the Bidder or Surety.

59. DIFFERING SITE CONDITIONS

The Bidder shall promptly, and before the conditions are disturbed, give a written notice to the City and Engineer of:

- A. Subsurface or latent physical conditions at the site, which differ materially from those indicated in this contract,
- B. Unknown physical conditions at the site, of an unusual nature, which differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract.

The Engineer will investigate the site conditions promptly after receiving the notice. If the conditions do materially so differ and cause an increase or decrease in the Bidder's cost of, or the time required for, performing any part of the work under this Contract, whether or not changed as a result of the conditions, and equitable adjustment shall be made under this Article and the Contract modified in writing accordingly.

No request by the Bidder for an equitable adjustment to the Contract under this Article will be allowed, unless the Bidder has given the written notice required; provided that the time prescribed above for giving written notice may be extended by the City.

No request by the Bidder for an equitable adjustment to the Contract for differing site conditions will be allowed if made after final payment under this Contract.

60. LIQUIDATED DAMAGES

Should the Bidder fail to complete the work, or any part thereof, in the time agreed upon in the contract or within such extra time as may have been allowed for delays by extensions granted as provided in the contract, the Bidder shall reimburse the City for the additional expense and damage for each calendar day, Sundays and legal holidays included, that the contract remains uncompleted after the contract completion date. It is agreed that the amount of such additional expenses and damage incurred by reason of failure to complete the work is the per-diem rate, as stipulated in the bid. The said amount is hereby agreed upon as a reasonable estimate of the costs which may be accrued by the City after the expiration of the time of completion. It is expressly understood and agreed that this amount is not to be considered in the nature of a penalty, but as liquidated damages which have accrued against the Bidder. The City shall have the right to deduct such damages from any amount due, or that may become due to the Bidder, or the amount of such damage shall be due and collectible from the Bidder or Surety.

61. OTHER CONTRACTS

The Bidder shall provide reasonable opportunities for other Bidders to introduce and store their materials, as well as to carry out their work. Additionally, the Bidder shall ensure proper coordination and connection of their work with that of others.

If any portion of the work under this contract relies on the work of another Bidder, utility service company, or the City for proper execution or outcomes, the Bidder is required to inspect and promptly notify the Engineer in writing of any visible defects or deficiencies in such work that would render it unsuitable for proper execution and results. Failure to report such issues will be deemed as the Bidder's acceptance of the other work as fit and suitable for integration with the work under this contract, except for any hidden or non-apparent defects or deficiencies.

62. USE OF PREMISES

The Bidder shall confine their equipment, the storage of materials and the operation of their workers to limits shown on the Drawings or indicated by law, ordinances, permits, or directions of the Engineer, and shall not unreasonably encumber the Premises with their materials. The Bidder shall provide, at their own expense, the necessary rights-of-way and access to the work, which may be required outside the limits of the City's Property and shall furnish the Engineer copies of permits and agreements for use of the property outside that provided by the City.

The Bidder shall not load nor permit any part of the structure to be loaded in any manner that will endanger the structure,

nor shall Bidder subject any part of the work or adjacent property to stresses or pressures that will endanger it.

63. SUBSTANTIAL COMPLETION DATE

The Engineer may issue a written notice of substantial completion for the purpose of establishing the starting date for specific equipment guarantees, and to establish the date that the City will assume the responsibility for the cost of operating such equipment. Said notice shall not be considered as final acceptance of any portion of the work or relieve the Bidder from completing the remaining work within the specified time and in full compliance with the Contract Documents. See *Substantial Completion* under *Definitions* of these General Conditions.

64. PERFORMANCE TESTING

Operating equipment and systems shall be performance tested in the presence of the Engineer to demonstrate compliance with the specified requirements. Performance testing shall be conducted under the specified design operating conditions or under such simulated operating conditions as recommended or approved by the Engineer. Scheduling for such testing with the Engineer shall be made at least one week in advance of the planned date for testing.

65. CITY'S USE OF PORTIONS OF THE WORK

Following the issuance of the written notice of Substantial Completion, the City may initiate operation of the facility. Such use shall not be considered as final acceptance of any portion of the work, nor shall such use be considered as cause for an extension of the contract completion time, unless authorized by a Change Order issued by the City.

66. CUTTING AND PATCHING

The Bidder shall do all cutting, fitting, or patching of work that may be required to make its several parts come together properly and fit it to receive or be received by work of other Bidders shown upon or reasonably implied by the Drawings.

67. CLEANING UP

The Bidder shall be responsible for maintaining the cleanliness of the work site throughout the duration of the seawall project. This includes, but is not limited to, keeping both the property on which the work is being conducted and any adjacent properties free from any accumulations of waste material, debris, or rubbish resulting from the Bidder's operations. The Bidder shall ensure that all waste materials, such as construction debris, packaging materials, discarded tools, and other refuse, are regularly removed and properly disposed of in accordance with local regulations and environmental standards.

The Bidder shall implement necessary measures to prevent the accumulation of waste, including the use of designated waste containers, regular disposal schedules, and any other methods deemed appropriate for maintaining a clean and organized work environment. The Bidder shall take all reasonable steps to prevent any waste materials from encroaching onto adjacent properties, public spaces, or water bodies during the course of the project.

Upon completion of the work, the Bidder is required to remove all temporary structures, equipment, machinery, waste materials, and rubbish associated with the project. This includes the disposal or recycling of all construction debris and the cleaning of the work area to a condition that is clear of any debris or hazardous materials. The Bidder shall restore the work site, including adjacent properties, to a clean, safe, and orderly condition suitable for its intended use. Any failure to remove waste or clean the site in a satisfactory manner may result in the City withholding payment until the required clean-up is completed to the satisfaction of the Engineer.

The Bidder shall be responsible for any costs associated with the removal of waste materials and the restoration of the work area, including any fines or penalties resulting from improper disposal practices or failure to comply with waste management regulations.

PAYMENT

68. PAYMENT FOR CHANGE ORDERS

The City's request for quotations on alterations to the work shall not be considered authorization to proceed with the work expediting, delivery, and installation of all equipment and materials. Within a reasonable period after the Bidder submits to the City a written request for an extension of time, the Engineer will present written opinion to the City as to whether

an extension of time is justified, and, if so, their recommendation as to the number of days for time extension. The City will make the final decision on all requests for extension of time.

Prior to the issuance of a formal Change Order, nor shall such request justify any delay in existing work. Quotations for alterations to the work shall include substantiating documentation with an itemized breakdown of Bidder and Subcontractor costs, including labor, material, rentals, approved services, overhead, and profit. City may require detailed cost data in order to substantiate the reasonableness of the proposed costs.

Any compensation paid in conjunction with the terms of a Change Order shall comprise total compensation due the Bidder for the work or alteration defined in the Change Order. By signing the Change Order, the Bidder acknowledges that the stipulated compensation includes payment for the work or alteration plus all payment for the interruption of schedules, extended overhead, delay, or any other impact claim or ripple effect, and by such signing specifically waives any reservation or claim for additional compensation in respect to the subject Change Order.

At the City's option, payment or credit for any alterations covered by a Change Order shall be determined by one or a combination of the methods set forth in A, B, or C below, as applicable:

A. UNIT PRICES

Those unit Prices stipulated in the Bid shall be utilized where they are applicable. In the event the Change Order results in a change in the original quantity that is materially and significantly different from the original bid quantity, a new unit Price shall be negotiated upon demand of either party. Unit Prices for new items included in the Change Order shall be negotiated and mutually agreed upon.

B. LUMP SUM

A total lump sum for the work negotiated and mutually acceptable to the Bidder and the City. Lump sum quotations for modifications to the work shall include substantiating documentation with an itemized breakdown of Bidder and Subcontractor costs, including labor, material, rentals, approved services, overhead, and Profit, all calculated as specified under "C" below.

C. COST REIMBURSEMENT WORK

The term "cost reimbursement" shall be understood to mean that payment for the work will be made on a time and expense basis, that is, on an accounting of the Bidder's forces, materials, equipment, and other items of cost as required and used to do the work.

If the method of payment cannot be agreed upon Prior to the beginning of the work, and the City directs by written Change Order that the work be done on a cost reimbursement basis, then the Bidder shall furnish labor, and furnish and install equipment and materials necessary to complete the work in a satisfactory manner and within a reasonable period of time. For the work performed, payment will be made for the documented actual cost of the following:

1. Labor including foremen for those hours they are assigned and participating in the cost reimbursement work (actual payroll cost, including wages, fringe benefits as established by negotiated labor agreements, labor insurance, and labor taxes as established by law). No other fixed labor burdens will be considered, unless approved in writing by the City.
2. Material delivered and used on the designated work, including sales tax, if paid by the Bidder or Subcontractor.
3. Rental or equivalent rental cost of equipment, including necessary transportation for items having a value in excess of \$100. Rental or equivalent rental cost will be allowed for only those days or hours during which the equipment is in actual use. Rental and transportation allowances shall not exceed the current rental rates prevailing in the locality. The rentals allowed for equipment will, in all cases, be understood to cover all fuel, supplies, repairs, and renewals, and no further allowances will be made for those items, unless specific agreement to that effect is made.
4. Additional bond, as required and approved by the City.
5. Additional insurance (other than labor insurance) as required and approved by the City.

In addition to 1 through 5 above, an added fixed fee of fifteen (15) percent (%) for general overhead & profit shall be

allowed for the Bidder (or approved Subcontractor) executing the Cost Reimbursement work.

An additional fixed fee of five (5) percent (%) will be allowed the Bidder for the administrative handling of portions of the work that are executed by an approved Subcontractor. No additional fixed fee will be allowed for the administrative handling of work executed by the Subcontractor of a Subcontractor.

The added fixed fees shall be considered to be full compensation, covering the cost of general supervision, overhead, Profit, and any other general expense. The Bidder's records shall make clear distinction between the direct costs of work paid for on a cost reimbursement basis and the costs of other work. The Bidder shall furnish the Engineer report sheets in duplicate of each day's cost reimbursement work no later than the working day following the performance of said work. The daily report sheets shall itemize the materials used and shall cover the direct cost of labor and the charges for equipment rental, whether furnished by the Bidder, Subcontractor or other forces. The daily report sheets shall provide names or identifications and classifications of workers, the hourly rate of pay and hours worked, and also the size, type, and identification number of equipment and hours operated.

Material charges shall be substantiated by valid copies of vendors' invoices. Such invoices shall be submitted with the daily report sheets, or, if not available, they shall be submitted with subsequent daily report sheets. Said daily report sheets shall be signed by the Bidder or authorized agent.

To receive partial payments and final payment for cost reimbursement work, the Bidder shall submit to the Engineer, detailed and complete documented verification of the Bidder's and any of their Subcontractor's actual costs involved in the cost reimbursement work. Such costs shall be submitted within thirty (30) days after said work has been performed.

69. PARTIAL PAYMENTS

A. GENERAL

Nothing in this Article shall be construed to affect the right, hereby reserved, to reject the whole or any part of the aforesaid work, should such work be later found not to comply with the provisions of the Contract Documents. All estimated quantities of work for which partial payments have been made are subject to review and correction on the final estimate. Payment by the City and acceptance by the Bidder of partial payments based on periodic estimates of quantities of work performed shall not, in any way, constitute acceptance of the estimated quantities used as a basis for computing the amounts of the partial payments.

B. ESTIMATE

No more than once each month the Bidder shall submit to the Engineer a detailed estimate of the amount earned during the preceding month for the separate portions of the work and request payment. As used in this Article the words "amount earned" means the value, on the date of the estimate, for partial payment of the work completed in accordance with the Contract Documents and the value of approved materials delivered to the project site suitably stored and protected prior to incorporation into the work. Payment will be made by the City to the Bidder in accordance with the Local Government Prompt Payment Act, §218.70-.80, Fla. Stat., which requires payment of undisputed, properly submitted invoices within twenty (20) business days after receipt, or within twenty-five (25) business days if an agent must first approve the invoice.

Engineer will, within seven (7) days after receipt of each request for payment, either indicate in writing a recommendation of payment and present the request to the City or return the request to the Bidder indicating in writing the Engineer's reasons for refusing to recommend payment. In the latter case, the Bidder may, within seven (7) days, make the necessary corrections and resubmit the request.

The Engineer may refuse to recommend the whole or any part of any payment if, in their opinion, it would be incorrect to make such representations to City. Engineer may also refuse to recommend any such payment, or, because of subsequently discovered evidence or the results of subsequent inspections or tests, nullify any such payment previously recommended to such an extent as may be necessary in Engineer's opinion to protect the City from loss because:

1. The work is defective, or completed work has been damaged requiring correction or replacement.
2. Written claims have been made against City or Liens have been filed in connection with the work;
3. The Contract Price has been reduced because of Change Orders;
4. City has been required to correct defective work or complete the work in accordance with Article; *City's Right To Do Work* Of Bidder's unsatisfactory prosecution of the work in accordance with the Contract Documents; or
6. Bidder's failure to make payment to Subcontractors or for labor, materials, or equipment.

C. DEDUCTION FROM ESTIMATE

Deductions from the estimate will be as described below:

1. The City may withhold retainage on progress payments, but the rate of retainage shall not exceed five (5) percent of any progress payment in compliance with §218.735(8), Fla. Stat.

D. QUALIFICATION FOR PARTIAL PAYMENT FOR MATERIALS DELIVERED

Qualification for partial payment for materials delivered but not yet incorporated into the work shall be as described below:

1. Materials, as used herein, shall be considered to be those items which are fabricated and manufactured material and equipment. No consideration shall be given to individual purchases of less than two hundred dollars (\$200) for any one item.
2. To receive partial payment for materials delivered to the site, but not incorporated in the work, it shall be necessary for the Bidder to include a list of such materials on the Partial Payment Request. At their sole discretion, the Engineer may approve items for which partial payment is to be made. Partial payment shall be based on the Bidder's actual cost for the materials as evidenced by invoices from the supplier. Proper storage and protection shall be provided by the Bidder, and as approved by the Engineer. Final payment shall be made only for materials actually incorporated in the work and, upon acceptance of the work, all materials remaining for which advance payments had been made shall revert to the Bidder, unless otherwise agreed, and partial payments made for these items shall be deducted from the final payment for the work.
3. Bidder warrants and guarantees that title to all work, materials, and equipment covered by any Application for Payment, whether incorporated in the project or not, will pass to City at the time of payment free and clear of all liens, claims, security interests, and encumbrances.
4. If requested by the Engineer, the Bidder shall provide, with subsequent pay requests, invoices receipted by the supplier showing payment in full has been made.

E. PAYMENT

After deducting the retainage and the amount of all previous partial payments made to the Bidder from the amount earned the amount due will be made payable to the Bidder. Recommendations for payment received by the City less than forty (40) days prior to the scheduled day for payment will not be processed or paid until the following month. Payments shall be made consistent with the Local Government Prompt Payment Act timelines in §218.735, Fla. Stat.

F. PROMPT PAYMENT ACT

The parties agree this Contract is subject to the Local Government Prompt Payment Act, §218.70–.80, Fla. Stat. The City shall pay undisputed, properly submitted invoices within 20 business days of receipt (or 25 business days if an agent must first approve), and shall timely reject any improper invoice in writing within 20 business days, stating the deficiencies. Disputes shall follow the Contract's dispute procedure or §218.76(2) if none applies. The City and Contractor shall develop a single list of items required for completion under §218.735(7) and, within 20 business days after the list is created, the City shall pay the remaining balance, including all retainage, less 150% of the cost to complete

listed items. Retainage withheld by the City shall not exceed 5% of any progress payment. Late payments bear interest at 2% per month or the contract rate, whichever is greater.

70. CLAIMS FOR EXTRA WORK

In any case where the Bidder deems additional time or compensation will become due to them under this contract for circumstances other than those defined in Article; *Delays And Extension Of Time*, the Bidder shall notify the Engineer, in writing, of their intention to make claims for such time or compensation before they begin the work on which they base the claim, in order that such matters may be settled, if possible, or other appropriate action taken. The notice of claim shall be in duplicate, in writing, and shall state the circumstances and the reasons for the claim, but need not state the amount. If such notification is not given or if the Engineer is not afforded proper facilities by the Bidder for keeping strict account of actual cost, then the Bidder hereby agrees to waive the claim for such additional time or compensation. Such notice by the Bidder, and fact that the Engineer has kept account of the cost as aforesaid, shall not in any way be construed as proving the validity of the claim.

No extension of time will be granted to the Bidder for delays resulting from extra work that have no measurable impact on the completion of the total work under this Contract. Claims for additional time or compensation shall be made in itemized detail and submitted, in writing, to the City and Engineer within ten (10) days following completion of that portion of the work for which the Bidder base their claim. Failure to make the claim for additional compensation in the manner and within the time specified above shall constitute waiver of that claim. In case the claim is found to be just, it shall be allowed and paid for as provided in Article; *Payment For Change Orders*.

71. RELEASE OF LIENS OR CLAIMS

The Bidder shall indemnify and hold harmless the City from all claims for labor and materials furnished under this Contract. Prior to the final payment, the Bidder shall furnish to the City, as part of their final payment request, a certification that all of the Bidder's obligations on the project have been satisfied and that all monetary claims and indebtedness have been paid. The Bidder shall furnish complete and legal effective releases or waivers, satisfactory to the City, of all liens arising out of or filed in connection with the work.

72. FINAL PAYMENT

Upon completion of the work, the Bidder shall notify the Engineer, in writing, that they have completed all required work and shall request final payment. The Bidder shall be responsible for keeping an accurate and detailed record of their actual construction. Upon completion of construction and before final acceptance and payment the Bidder shall furnish the Engineer as-built drawings of construction. Upon receipt of a request for final payment and the as-built drawings the Engineer will inspect and, if acceptable, submit to the City their recommendation as to acceptance of the completed work and as to the final estimate of the amount due the Bidder. Upon approval of this final estimate by the City and compliance by the Bidder with provisions in Article; *Release Of Liens Or Claims*, and other provisions as may be applicable, the City shall pay to the Bidder all monies due to them under the provisions of these Contract Documents.

Acceptance and Final Payment

Whenever the Bidder has completely performed the work provided for under the contract and the Engineer has performed a final inspection and made final acceptance and subject to the terms of the Engineer will prepare a final estimate showing the value of the work as soon as the Engineer makes the necessary measurements and computations. The Engineer will correct all prior estimates and payments in the final estimate and payment. The City will pay the estimate, less any sums that the City may have deducted or retained under the provisions of the Contract, as soon as practicable after final acceptance of the work, provided the Bidder has met the requirements of (1) through (4) below.

1. The Bidder has agreed in writing to accept the balance due or refund the overpayment, as determined by the City, as full settlement of their account under the contract and of all claims in connection therewith, or the Bidder, accepted the balance due or refunded the overpayment, as determined by the City, with the stipulation that their acceptance of such payment or the making of such refund does not constitute any bar, admission, or estoppel, or have any effect as to those payments in dispute or the subject of a pending claim between the Bidder and the City. To receive payment based on a Final Payment Certificate, the Bidder further agrees, by submitting a Final Payment Certificate that any pending or future arbitration claim or suit is limited to those particulars, including the itemized amounts,

defined in the original Final Payment Certificate, and that they will commence with any such arbitration claim or suit within fifteen (15) calendar days from and after the time of final Payment of the work and that their failure to file a formal claim within this period constitutes full acceptance of the Engineer's final estimate and payment. The overpayment refund check from the Bidder, if required, will be considered a part of any Acceptance Letter executed.

2. The Bidder has properly maintained the project, as specified hereinbefore.
3. The Bidder has furnished a sworn affidavit to the effect that the Bidder has paid all bills and no suits are pending (other than those exceptions listed, if any) in connection with work performed under the contract and that the Bidder has not offered or made any gift or gratuity to, or made any financial transaction of any nature with, any employee of the City in the performance of the contract.
4. Final payment will not be released until the City receives Certified As-built drawings in Auto Cad & Adobe format as well as:

Acceptance or final payment shall not be final and conclusive with regards to latent defects, fraud, or such gross mistakes as may amount to fraud, or as regards the City's rights under the warranty.

3. Withhold any further payments to the Bidder until the work is completed and all costs are accounted for;
4. Pursue any other remedies available at law or in equity.

78. AUTHORITY TO TERMINATE

The City's authority to terminate under this Contract resides in the City Manager. Any termination hereunder must be signed in writing by that official (or by such official's authorized designee).

In the event that the Contract is terminated by an official who lacks explicit authority, such termination may be subject to ratification by the City Commission or another governing body. If ratified, the termination will be deemed valid as if it were originally executed by the proper authority.

79. SETTLEMENT UPON TERMINATION

Furnish a completed EMPLOYMENT ELIGIBILITY VERIFICATION (DHS FORM I-9) form for all personnel requesting badges.

This form is available at <http://www.uscis.gov/portal/site/uscis> by searching or selecting Employment Verification (Form I-9). Immediately report instances of lost or stolen badges to the Project manager.

DBIDS Program: Defense Biometric Identification System (DBIDS) increases installation security and communications by receiving frequent database updates on changes to personnel/credential status, law enforcement warrants, lost/stolen cards, and force protection conditions. The system provides a continuous vetting anytime the DBIDS card is scanned at an installation entry point. If you currently have a Navy Commercial Access Control System (NCACS) card, the following is required to get a DBIDS credential:

5. For each additional U.S. Navy installation to which you need access, the first time you visit you only need to bring your DBIDS credential and statement of purpose for base access when arriving at the Visitor Control Center.

6. The representative will enter base access authorization and then you may proceed to work. 7. All other information can be found on the website: <https://cnic.navy.mil/om/dbids.html>

One-Day Passes: The City will not be responsible for any cost or lost time associated with obtaining daily passes or added vehicle inspections incurred by non-participants in the DBIDS.
