

Historic Architectural Review Commission Staff Report for Item 3

To: Chairman Haven Burkee and Historic Architectural Review
Commission Members

From: Daniela Salume, MFA
Historic Architectural Preservationist

Meeting Date: December 17, 2024

Applicant: Jonathan Ring

Application Number: H2024-0043

Address: 1208 Virginia Street

Description of Work:

Addition of two dormers to a section of the roofline.

Site Facts:

The building under review was demolished in August 2023 without a Certificate of Appropriateness. The original structure was a historic and contributing structure to the historic district which appears on the 1912 Sanborn Map. In November 2022, the Commission approved the demolition of a non-historic rear addition and renovations to the historic house. Engineer Bob Hulec indicated that the rear addition was unsound and unsalvageable but did not comment on the historic section. Currently, the house consists of a one and a half story frame structure featuring a gabled roof and metal shingles. It is currently elevated on concrete piers and located within an X flood zone.

Guidelines Cited on Review:

- Roofing (page 26), specifically guidelines 3 and 5.
- Roof - Secondary Structures: Dormers (page 27), specifically first sentence, guidelines 1, 2, 3, 4, and 5.
- Additions and alterations on contributing, non-contributing, and non-historic buildings and structures (pages 37a-37k), specifically guidelines 6 (first two sentences), 8, 9 (second sentence), 13, 14 (first sentence), 19, 22, 25, and 30.
- New construction (pages 38a-38q), specifically guidelines 1 (first sentence), 2, 12, 14, 18 and 21.

Staff Analysis:

A Certificate of Appropriateness is currently under review for the addition of two dormers with a shed roof to the west elevation of a new single-family residence. The applicant proposes to modify the previously approved design for a new one and a half story structure by adding two shed-roof dormers on the west elevation roofline which will be 6” below the ridgeline. The dormers will be set back behind the 10-foot front yard setback and will be visible from the street as the property beside it is the parking lot for Fausto’s.

Proposed West Elevation.

Proposed North Elevation.

Proposed South Elevation.

In this area, there are a few buildings featuring dormers. The building at 1210 Virginia Street (built circa 1906), adjacent to this property, features a full-length “dormer”, as depicted in a historic photograph from 1965 available through the Monroe County Library. The building in front, located at 1205 Virginia Street (built possibly in 1947) features one dormer on the right elevation that is not visible from the street and portrays traditional massing and scale. The gable roof with one dormer was added in 2005. Additionally, the building located at 1219 Eliza Street (built circa 1912) has three dormers, which also portrays traditional massing and scale of dormer designs. These dormers were added in 2001.

Map of surrounding context.

Consistency with Guidelines Cited Guidelines:

This new one and a half story frame structure featuring two dormers with a shed roof on the west elevation are visible from the public right-of-way and is located within the historic district. The proposed design for the dormers differs from other dormers found in the same building typology within the area since they have a shed roof. However, considering that the dormers are visible from the street, a shed roof makes the dormers less prominent. Staff opines that the overall design will be cohesive with the surrounding context and that it meets cited guidelines.

DETAILED PROJECT DESCRIPTION OF DEMOLITION

Demolish portion of roof to construct two dormers as shown in architectural plans

CRITERIA FOR DEMOLITION OF CONTRIBUTING OR HISTORIC STRUCTURES:

Before any Certificate of Appropriateness may be issued for a demolition request, the Historic Architectural Review Commission must find that the following requirements are met (please review and comment on each criterion that applies):

(1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration or it does not meet any of the following criteria:

(a) The existing condition of the building or structure is irrevocably compromised by extreme deterioration.

(2) Or explain how the building or structure meets the criteria below:

(a) Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

(b) Is not specifically associated with events that have made a significant contribution to local, state, or national history.

(c) Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state or nation, and is not associated with the life of a person significant in the past.

(d) Is not the site of a historic event with significant effect upon society.

(e) Does not exemplify the cultural, political, economic, social, or historic heritage of the city.

(f) Does not portray the environment in an era of history characterized by a distinctive architectural style.

(g) If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.

(h) Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood.

Nothing in this application is intended to alter the authority of the Building Official to condemn for demolition dangerous buildings, as provided in Section 102-218 of the Land Development Regulations and Chapter 14 of the Code of Ordinances.

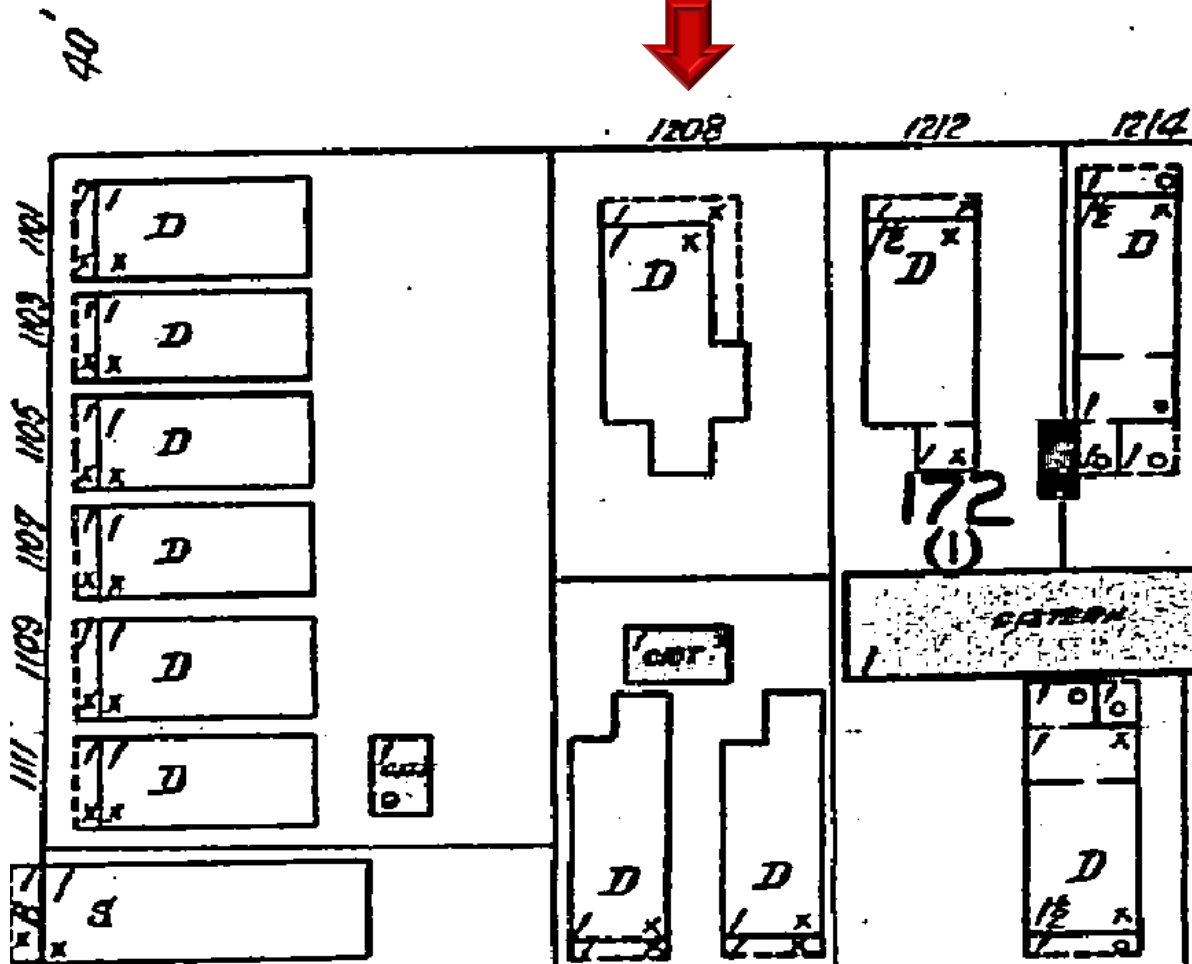

(i) Has not yielded, and is not likely to yield, information important in history,

CRITERIA FOR DEMOLITION OF NON-CONTRIBUTING OR NON-HISTORIC STRUCTURES:
The following criteria will also be reviewed by the Historic Architectural Review Commission for proposed demolitions. The Commission shall not issue a Certificate of Appropriateness that would result in the following conditions (please review and comment on each criterion that applies):
(1) Removing buildings or structure that are important in defining the overall historic character of a district or neighborhood so that the character is diminished.
It will not remove a building or structure that is important to defining the overall character of the district or neighborhood
(2) Removing historic buildings or structures and thus destroying the historic relationship between buildings or structures and open space.
N/A
(3) Removing an historic building or structure in a complex; or removing a building façade; or removing a significant later addition that is important in defining the historic character of a site or the surrounding district or neighborhood.
N/A
(4) Removing buildings or structures that would otherwise qualify as contributing.
