LAND AND WATER CONSERVATION FUND

OVERVIEW AND PURPOSE

Land and Water Conservation Fund

The Land and Water Conservation Fund (LWCF) Program is a competitive, federal program authorized by Congress that provides for the **acquisition or development of land for public outdoor recreation**. LWCF funds are appropriated by Congress to the U. S. Department of the Interior, National Parks Service (NPS), and NPS allocates the funds through state agencies as a grant program to state and local governments. It is administered at the state level by the Florida Department of Environmental Protection.

[Rule Chapter 62D-5, F.A.C.](#) outlines all of the rules that govern the LWCF. It is a great resource of programmatic information, including application requirements and scoring criteria.

The [LWCF Manual](#) sets forth administrative procedures and requirements for the program. It's intended to serve as a basic reference for those engaged in the administration of the grant.

Outdoor Facility Needs Ranked by Priority Index: Population Density

Pages 20-24 include the Outdoor Facility Needs Ranked by Priority Index, as established through the 1995 study entitled “Infrastructure Assessment of Local Government Recreation and Park Department Facility Needs in the State of Florida”.

To find the appropriate population density for your project, applicants must use the population information contained in the current Census.

This information will be used to assist with responding to questions posed on pages 16, 17 and 18.

The collage displays five pages from the 'Outdoor Facility Needs Ranked by Priority Index' document, each corresponding to a different population density category. The pages are:

- Population Density 1:** Lists facilities such as Restrooms, Support Facilities, Playgrounds, Tennis Courts, Soccer Fields, Basketball Courts, Biking Facilities, Swimming Pools, Picnic Facilities, and Restrooms. Facilities are ranked from 1 to 25.
