

Sec. 26-191. - Definitions.

For the purpose of this article, the following terms, phrases, words, abbreviations and their derivations shall have the meaning herein given. When not inconsistent with the context, words used in the present tense include the future tense, words in the plural number include the singular number and words in the singular number include the plural number. The word "shall" is always mandatory and not merely directory. Words not defined shall be given their common and ordinary meaning, or for those so included, the meaning found in this article.

A-weighted sound level means the sound level as measured with the A-weighting network on a sound level meter meeting the standards set forth in the American National Standards Institute (ANSI) S1.4-1983 or its successors. The unit of reporting is dBA. Sounds measured with the "A" weighting network approximate the response of human hearing when measuring sounds of low to moderate intensity without an amplified low frequency component.

Amplified sound means the reproduction of sound from any radio, stereo, CD player, DVD player, microphone, drum, turn table, audio or visual equipment, musical instrument, sound equipment, sound amplification device, television set, exterior loudspeakers, bullhorn or any similar device.

C-weighted sound level means the sound level as measured using the "C" weighting network with a sound level meter meeting the standards as set forth in ANSI S1.4-1983 or its successors. The unit of reporting is dBC. The "C" weighting network is more sensitive to low frequencies than the "A" weighting network.

Commercial district means the HRO, HRCC-3, HNC-1, HNC-2, HNC-3, HCT, HPS (Mallory Square only), CL, CG, CT and A zoning districts.
