

## **Historic Architectural Review Commission Staff Report for Item 6**

To: Chairman Haven Burkee and Historic Architectural Review  
Commission Members

From: Matthew Crawford  
Historic Architectural Preservationist

Meeting Date: August 26, 2025

Applicant: Rob Delaune

Application Number: C2025-0063

Address: 620 Dey Street

### **Description of Work:**

Second Reading - Partial demolition of existing historic rear sawtooth and rear second story wall on main structure.

### **Site Facts:**

The building under review is a historic and contributing structure within the historic district, constructed 1925 according to Tax Appraiser's data. However, this date could not be confirmed as the property is visible on the 1899 Sanborn Map, but not the 1892 Sanborn Map. This puts the construction date between 1892-1899. The site includes the main two-story frame structure, a one-story frame structure at the rear which has been demolished and was over setbacks, and a pool with surrounding brick decking.

Currently the house sits on piers and is located within an AE-6 flood zone.

**Ordinance Cited on Review:**

- Section 102-217 (4), demolition for contributing and historic structures of the Land Development Regulations.
- Section 102-218 - Criteria for Demolition of the Land Development Regulations.

**Staff Analysis:**

A Certificate of Appropriateness is currently under review for demolition partial demolition of the existing rear addition and the rear second story wall on the main structure. The partial demolition of the addition includes the roof. The demolition of the rear second story wall includes one 2-over-2 window.

It is staff's opinion that the request for this demolition shall be based on the demolition criteria of Chapter 102 Section 218 (a) of the LDR's. The criteria for demolition of historic structures state the following:

*(a) The historic architectural review commission shall issue a certificate of appropriateness for an application for demolition:*

- (1) If the subject of the application is a contributing or historic building or structure, then it should not be demolished unless its condition is irrevocably compromised by extreme deterioration, or it does not meet any of the criteria of section 102-125(1) through (9).*

Elements proposed for demolition do not meet any of the criteria below.

The following is the criteria of section 102-125:

- 1 Embodies no distinctive characteristics of a type, period, or method of construction of aesthetic or historic significance in the city and is not a significant and distinguishable building entity whose components may lack individual distinction.*

Staff opines that the portion of the building proposed to be demolished has no distinctive characteristics of a type, period or method of construction.

- 2 Is not specifically associated with events that have made a significant contribution to local, state, or national history.*

It is staff understanding that no significant events have ever happened on the site relevant to local, state, or national history.

- 3 Has no significant character, interest, or value as part of the development, heritage, or cultural characteristics of the city, state, or nation, and is not associated with the life of a person significant in the past.*

It is staff's understanding that the elements under review have no significant character and are not associated with the life of a significant person in the past.

- 4 Is not the site of a historic event with a significant effect upon society.*

It is staff's understanding that the site is not associated with any significant event.

- 5 *Does not exemplify the cultural, political, economic, social, or historic heritage of the city.*

It is staff's understanding that the elements under review do not exemplify the cultural, political, economic, social or historic heritage of the city.

- 6 *Does not portray the environment in an era of history characterized by a distinctive architectural style.*

Staff believes that the existing building does not portray an era of history characterized by a distinctive architectural style.

- 7 *If a part of or related to a square, park, or other distinctive area, nevertheless should not be developed, or preserved according to a plan based on the area's historic, cultural, natural, or architectural motif.*

This is not the case.

- 8 *Does not have a unique location or singular physical characteristic which represents an established and familiar visual feature of its neighborhood or of the city, and does not exemplify the best remaining architectural type in a neighborhood; and*

The elements under review do not have a unique location or physical characteristics which represent an established and familiar visual feature of its neighborhood or of the city.

- 9 *Has not yielded, and is not likely to yield, information important in history.*

Staff believes that the elements under review are not likely to yield important information in history.

It is the staff's opinion that the request for a demolition may be considered, as the portion of the structure under review meets the criteria for demolition outlined in the guidelines. None of the features proposed to be demolished have no distinctive characteristics of a type, period or method of construction. While the second story wall on the main house is original, it is not visible from the right-of-way and is not a distinctive feature of the structure. If approved, this will require two readings for demolition as the second story wall on the main house is original.
